school calendar. This volume describes innovative approaches to the use of school time. It provides nearly 40 examples of exemplary efforts to make better use of available time and extend the amount of time students spend learning. The brief program descriptions are from 15 elementary schools, 15 middle and senior high schools, 4 districtwide efforts, and 6 special programs. They include public and private schools in rural, urban, and suburban areas from 26 states. Information for reaching contact persons is provided. A review of the programs indicates that many different kinds of schools and districts have already implemented many of the commission's recommendations. The most common approaches in descending order include: (1) redesigning available time; (2) employing technology; (3) extending the school day or year; (4) providing time for professional development; and (5) providing support services for children or families. Finally, the approaches to the redesign of time usage differ by school level. (LMI)

John Adams (October 30 1735 - July 4, 1826) was the second president of the United States (1797-1801), having earlier served as the first vice president of the United States (1789-1797). An American Founding Father, Adams was a statesman, diplomat, and a leading advocate of American independence from Great Britain. Well educated, he was an Enlightenment political theorist who promoted republicanism, as well as a strong central government, and wrote prolifically about his often seminal ideas-both in published works and in letters to his wife and key adviser Abigail Adams. Adams was a lifelong opponent of slavery, having never bought a slave. In 1770 he provided a principled, controversial, and successful legal defense to the British soldiers accused in the Boston Massacre, because he believed in the right to counsel and the "protect[ion] of innocence." Adams came to prominence in the early stages of the American Revolution. A lawyer and public figure in Boston, as a delegate from

Massachusetts to the Continental Congress, he played a leading role in persuading Congress to declare independence. He assisted Thomas Jefferson in drafting the Declaration of Independence in 1776, and was its primary advocate in the Congress. Later, as a diplomat in Europe, he helped negotiate the eventual peace treaty with Great Britain, and was responsible for obtaining vital governmental loans from Amsterdam bankers. A political theorist and historian, Adams largely wrote the Massachusetts Constitution in 1780, which together with his earlier *Thoughts on Government*, influenced American political thought. One of his greatest roles was as a judge of character: in 1775, he nominated George Washington to be commander-in-chief, and 25 years later nominated John Marshall to be Chief Justice of the United States. Adams' revolutionary credentials secured him two terms as George Washington's vice president and his own election in 1796 as the second president. During his one term as president, he encountered ferocious attacks by the Jeffersonian Republicans, as well as the dominant faction in his own Federalist Party led by his bitter enemy Alexander Hamilton. Adams signed the controversial Alien and Sedition Acts, and built up the army and navy especially in the face of an undeclared naval war (called the "Quasi-War") with France, 1798-1800. The major accomplishment of his presidency was his peaceful resolution of the conflict in the face of Hamilton's opposition. In 1800, Adams was defeated for re-election by Thomas Jefferson and retired to Massachusetts. He later resumed his friendship with Jefferson. He and his wife founded an accomplished family line of politicians, diplomats, and historians now referred to as the Adams political family. Adams was the father of John Quincy Adams, the sixth President of the United States. His achievements have received greater recognition in modern times, though his contributions were not initially as celebrated

as those of other Founders. Adams was the first U.S. president to reside in the executive mansion that eventually became known as the White House.

State education departments and school districts face an important challenge in implementing a new law that requires disadvantaged students to be held to the same standards as other students. The new requirements come from provisions of the 1994 reauthorization of Title I, the largest federal effort in precollegiate education, which provides aid to "level the field" for disadvantaged students. *Testing, Teaching, and Learning* is written to help states and school districts comply with the new law, offering guidance for designing and implementing assessment and accountability systems. This book examines standards-based education reform and reviews the research on student assessment, focusing on the needs of disadvantaged students covered by Title I. With examples of states and districts that have track records in new systems, the committee develops a practical "decision framework" for education officials. The book explores how best to design assessment and accountability systems that support high levels of student learning and to work toward continuous improvement. *Testing, Teaching, and Learning* will be an important tool for all involved in educating disadvantaged students—state and local administrators and classroom teachers.

culture and race influence African American teachers. This collection of essays, edited by Jacqueline Jordan Irvine, assumes that teachers cannot become fully functional persons and competent professionals if their cultural selves remain denied, hidden, and unexplored. Part one reviews the literature related to teachers' race and culture. Part two includes research studies about teachers confronting issues of culture and race in their personal and professional lives. The final chapter focuses on the responses of three of the teachers whose stories are portrayed in the book. In addition to the compelling case studies, other topics explored include: multicultural professional development for African American teachers, African American teachers' perceptions of their professional roles and practices, a comparison of effective black and white teachers of African American students, the development of teacher efficacy of an African American middle school teacher, the professional development journey of an effective African American elementary school teacher, seizing hope through culturally responsive praxis, collective stories on culturally specific pedagogy. *In Search of Wholeness* is an indispensable and groundbreaking collection that administrators, students, and educators of all ages will not want to be without. The transition to high school can be problematic for many ninth graders. Researchers and administrators have sought ways to improve academic performance and promotion rates while reducing dropout rates. A quantitative causal-comparative (ex post facto) and correlation study using a two-group design compared two freshman classes at separate comprehensive high schools in suburban Georgia. The treatment group, the freshman class implementing the freshman academy model, was compared to the control group, a traditional high school freshman class with no freshman academy. This study provides new research findings on the relationship and possible cause and effect a freshman academy may have on the ninth grade Literature/Composition End of Course Test (EOCT) scores when controlling for the eighth grade Reading Criterion Referenced Competency Test (CRCT) scores and the eighth grade English/Language Arts

CRCT scores. Evidence was found to suggest that participation in a freshman academy can improve the probability that a student will be promoted from ninth to tenth grade on-time. No other significant differences were found when looking at the dropout rate, graduation rate, and grade point averages at the end of the ninth grade year. When controlling for eighth grade Reading CRCT and eighth grade English/Language Arts CRCT scores, there was no significant difference in ninth grade Literature/Composition End of Course Test (EOCT) scores between the two groups.

The Ambitious Guest (+Biographie et Bibliographie) (Glossy Cover Finish): One September night a family had gathered round their hearth, and piled it high with the driftwood of mountain streams, the dry cones of the pine, and the splintered ruins of great trees that had come crashing down the precipice. Up the chimney roared the fire, and brightened the room with its broad blaze. The faces of the father and mother had a sober gladness; the children laughed; the eldest daughter was the image of Happiness at seventeen; and the aged grandmother who sat knitting in the warmest place, was the image of Happiness grown old.
