This guide is designed to assist all those who are responsible for providing or overseeing formal education or practical experience that forms part of the initial professional development of aspiring professional accountants, or the continuing professional development of professional accountants. It is particularly relevant to professional accountancy organizations. It is also intended for policy makers and regulators who determine which organizations are licensed to certify professional accountants and related specializations, for example, audit professionals. The purpose of the guide is to

- increase understanding of the gap between the current skills of many accountants in some regions and the skills that are relevant in increasingly digitized and globalized economies;
- convey the essential features of Competency-Based Accounting Education, Training, and Certification (CBAETC);
- provide a common reference framework for organizations pursuing CBAETC and the consultants working with them;
- assist countries in developing in-country plans and implementing in-country processes that produce accountants with higher-order skills relevant to their economy's rapidly evolving needs; and
- improve financial reporting, auditing, and regulation.

This guide complements and builds on International Education Standards (IES™) of the International Accounting Education Standards Board™ (IAESB™).

Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

This volume contains a selection from papers presented at the 9th International Conference on Language Variation in Europe (ICLaVE 9), which was held at the University of Malaga (Spain), from June 6 to 9, 2017. The volume includes plenaries by Manuel Almeida ("Language hybridism: On the origin of interdialectal forms") and Frans Hinskens ("Of clocks, clouds and sound change"). In addition, the editors have selected 13 papers encompassing different languages and language varieties — not only from large language families, such as Romance and Germanic, but also small language families, like Greek, or smaller languages, like Croatian — and covering a large range of topics on sociolinguistics and linguistic variation. The book displays a contemporary picture of the research currently being conducted on language variation and change in European languages. Readers interested in every field related to language and language use will enjoy a wide variety of theoretical frameworks and methodological perspectives on speech variation, historical sociolinguistics and foreign language acquisition and learning.
