

African Americans Concise History Combined

A compelling story of agency, survival, struggle and triumph over adversity African Americans: A Concise History illuminates the central place of African-Americans in U.S. history by telling the story of what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. It follows the long and turbulent journey of African-Americans, the rich culture they have nurtured throughout their history and the quest for freedom through which African-Americans have sought to counter oppression and racism. MyHistoryLab is an integral part of the Hine / Hine / Harrold program. Key learning applications include Closer Looks, MyHistoryLibrary, and writing assessment. A better teaching and learning experience This program will provide a better teaching and learning experience—for you and your students. Here's how: Personalize Learning - MyHistoryLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Improve Critical Thinking - Focus Questions and end-of-chapter Review Questions help students think critically about the chapter content. Engage Students - Voices boxes engage students in the works and words of African Americans. Support Instructors - A full set of supplements, including MyHistory, provides instructors with all the resources and support they need. Note: MyHistoryLab does not come automatically packaged with this text.

Kentucky is most commonly associated with horses, tobacco fields, bourbon, and coal mines. There is much more to the state, though, than stories of feuding families and Colonel Sanders' famous fried chicken. Kentucky has a rich and often compelling history, and James C. Klotter and Freda C. Klotter introduce readers to an exciting story that spans 12,000 years, looking at the lives of Kentuckians from Native Americans to astronauts. The Klotters examine all aspects of the state's history—its geography, government, social life, cultural achievements, education, and economy. A Concise History of Kentucky recounts the events of the deadly frontier wars of the state's early history, the divisive Civil War, and the shocking assassination of a governor in 1900. The book tells of Kentucky's leaders from Daniel Boone and Henry Clay to Abraham Lincoln, Mary Breckinridge, and Muhammad Ali. The authors also highlight the lives of Kentuckians, both famous and ordinary, to give a voice to history. The Klotters explore Kentuckians' accomplishments in government, medicine, politics, and the arts. They describe the writing and music that flowered across the state, and they profile the individuals who worked to secure equal rights for women and African Americans. The book explains what it was like to work in the coal mines and explains the daily routine on a nineteenth-century farm. The authors bring Kentucky's story to the twenty-first century and talk about the state's modern economy, where auto manufacturing jobs are replacing traditional agricultural work. A collaboration of the state historian and an experienced educator, A

Concise History of Kentucky is the best single resource for Kentuckians new and old who want to learn more about the past, present, and future of the Bluegrass State.

African Americans A Concise History Pearson College Division

This comprehensive and entertaining account of African-American history is presented in a fun, engaging, and intelligent way. Significant information in six broad sections includes Great Migrations; Civil Rights and Politics; Science, Inventions, and Medicine; Sports; Military; Culture and Religion.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. A compelling story of agency, survival, struggle and triumph over adversity. This text illuminates the central place of African Americans in U.S. history by telling the story of what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. African Americans draws on recent research to present black history within broad social, cultural and political frameworks. This text also recognizes the diversity within the African-American sphere, providing coverage of class and gender and balancing the lives of ordinary men and women with accounts of black leaders. Note: MyHistoryLab does not come automatically packaged with this text. To purchase MyHistoryLab at no extra charge, please visit www.MyHistoryLab.com or use ISBN: 9780205090754.

In civil-rights-era Chicago, a dedicated group of black activists, educators, and organizations employed black public history as more than cultural activism. Their work and vision energized a black public history movement that promoted political progress in the crucial time between World War II and the onset of the Cold War. Ian Rocksborough-Smith's meticulous research and adept storytelling provide the first in-depth look at how these committed individuals leveraged Chicago's black public history. Their goal: to engage with the struggle for racial equality. Rocksborough-Smith shows teachers working to advance curriculum reform in public schools, while well-known activists Margaret and Charles Burroughs pushed for greater recognition of black history by founding the DuSable Museum of African American History. Organizations like the Afro-American Heritage Association, meanwhile, used black public history work to connect radical politics and nationalism. Together, these people and their projects advanced important ideas about race, citizenship, education, and intellectual labor that paralleled the shifting terrain of mid-twentieth century civil rights.

The first popular history of the former American slaves who founded, ruled, and lost Africa's first republic In 1820, a group of about eighty African Americans reversed the course of history and sailed back to Africa, to a place they would name after liberty itself. They went under the banner of the American Colonization Society, a white

philanthropic organization with a dual agenda: to rid America of its blacks, and to convert Africans to Christianity. The settlers staked out a beachhead; their numbers grew as more boats arrived; and after breaking free from their white overseers, they founded Liberia—Africa's first black republic—in 1847. James Ciment's *Another America* is the first full account of this dramatic experiment. With empathy and a sharp eye for human foibles, Ciment reveals that the Americo-Liberians struggled to live up to their high ideals. They wrote a stirring Declaration of Independence but re-created the social order of antebellum Dixie, with themselves as the master caste. Building plantations, holding elegant soirees, and exploiting and even helping enslave the native Liberians, the persecuted became the persecutors—until a lowly native sergeant murdered their president in 1980, ending 133 years of Americo rule. The rich cast of characters in *Another America* rivals that of any novel. We encounter Marcus Garvey, who coaxed his followers toward Liberia in the 1920s, and the rubber king Harvey Firestone, who built his empire on the backs of native Liberians. Among the Americoes themselves, we meet the brilliant intellectual Edward Blyden, one of the first black nationalists; the Baltimore-born explorer Benjamin Anderson, seeking a legendary city of gold in the Liberian hinterland; and President William Tubman, a descendant of Georgia slaves, whose economic policies brought Cadillacs to the streets of Monrovia, the Liberian capital. And then there are the natives, men like Joseph Samson, who was adopted by a prominent Americo family and later presided over the execution of his foster father during the 1980 coup. In making Liberia, the Americoes transplanted the virtues and vices of their country of birth. The inspiring and troubled history they created is, to a remarkable degree, the mirror image of our own.

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, *Give Me Liberty!* delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool. The best-selling Seagull Edition is also available in full color for the first time.

What does it mean to be an American? The story of the African American past demonstrates the difficulty of answering this seemingly simple question. What does it mean to be an American? The story of the African American past demonstrates the difficulty of answering this seemingly simple question. If being "American" means living in a land of freedom and opportunity, what are we to make of those Americans who were enslaved and who have suffered from the limitations of second-class citizenship throughout their lives? African American history illuminates the United States' core paradoxes, inviting profound questions about what it means to be an American, a citizen, and a human being. This book considers how, for centuries, African Americans have fought for what the black feminist intellectual Anna Julia Cooper called "the cause of freedom." It begins in Jamestown in 1619, when the first shipment of enslaved Africans arrived in that settlement. It narrates the creation of a system of racialized chattel slavery, the eventual dismantling of that system in the national bloodletting of the Civil War, and the ways that civil rights disputes have continued to erupt in the more than 150 years since Emancipation. *The Cause of Freedom* carries forward to the Black Lives Matter movement, a grass-roots activist convulsion that declared that African

Americans' present and past have value and meaning. At a moment when political debates grapple with the nation's obligation to acknowledge and perhaps even repair its original sin of racialized slavery, *The Cause of Freedom* tells a story about our capacity and willingness to realize the ideal articulated in the country's founding document, namely, that all people were created equal.

Never HIGHLIGHT a Book Again! Virtually all testable terms, concepts, persons, places, and events are included. This book delves into how Freedom Libraries were at the heart of the Civil Rights Movement, and the remarkable courage of the people who used them. As the Civil Rights Movement exploded across the United States, numerous libraries were desegregated on paper only, and there was another virtually unheard of struggle—the right to read.

#1 NEW YORK TIMES BESTSELLER • A chorus of extraordinary voices tells the epic story of the four-hundred-year journey of African Americans from 1619 to the present—edited by Ibram X. Kendi, author of *How to Be an Antiracist*, and Keisha N. Blain, author of *Set the World on Fire*. **FINALIST FOR THE ANDREW CARNEGIE MEDAL •** “A vital addition to [the] curriculum on race in America . . . a gateway to the solo works of all the voices in Kendi and Blain’s impressive choir.”—*The Washington Post* “From journalist Hannah P. Jones on Jamestown’s first slaves to historian Annette Gordon-Reed’s portrait of Sally Hemings to the seductive cadences of poets Jericho Brown and Patricia Smith, *Four Hundred Souls* weaves a tapestry of unspeakable suffering and unexpected transcendence.”—*O: The Oprah Magazine* The story begins in 1619—a year before the *Mayflower*—when the *White Lion* disgorges “some 20-and-odd Negroes” onto the shores of Virginia, inaugurating the African presence in what would become the United States. It takes us to the present, when African Americans, descendants of those on the *White Lion* and a thousand other routes to this country, continue a journey defined by inhuman oppression, visionary struggles, stunning achievements, and millions of ordinary lives passing through extraordinary history. *Four Hundred Souls* is a unique one-volume “community” history of African Americans. The editors, Ibram X. Kendi and Keisha N. Blain, have

assembled ninety brilliant writers, each of whom takes on a five-year period of that four-hundred-year span. The writers explore their periods through a variety of techniques: historical essays, short stories, personal vignettes, and fiery polemics. They approach history from various perspectives: through the eyes of towering historical icons or the untold stories of ordinary people; through places, laws, and objects. While themes of resistance and struggle, of hope and reinvention, course through the book, this collection of diverse pieces from ninety different minds, reflecting ninety different perspectives, fundamentally deconstructs the idea that Africans in America are a monolith—instead it unlocks the startling range of experiences and ideas that have always existed within the community of Blackness. This is a history that illuminates our past and gives us new ways of thinking about our future, written by the most vital and essential voices of our present.

Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations. The book begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety and accompanied by diseases which would ravage the native populations. It explores the tensions inherent in a country built on slave labour in the name of liberty, one forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. These voices help define the United States at the dawn of a new century. Booker Taliaferro Washington began life as a slave in Virginia shortly before emancipation, but rose to become one of the most celebrated leaders the African American community has ever had. His principal occupation was as president of the Tuskegee Institute, which he founded in 1881, but he earned national renown as an orator, writer and political advisor. His address at the Atlanta Exposition was a pivotal moment in race relations in America. Washington believed deeply in the dignity of physical labor, and that merit and talent are eventually rewarded regardless of race or class. The Tuskegee Institution was primarily a technical college, and aimed to teach industrial skills in addition to academic training. Students built many of the buildings on the campus, grew the food that was eaten there, and even made the furniture, tools and vehicles used by the school. *Up from Slavery* was originally published as a serialized work in *The Outlook*, a Christian magazine based in New York, before being collected in a single volume in 1901. This edition includes an introduction by Walter H. Page, a future U.S. ambassador to the United Kingdom. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Reconstruction: A Concise History is a gracefully-written interpretation of Reconstruction as a spirited struggle to re-integrate the defeated Southern Confederacy into the American Union after the Civil War, to bring African Americans into the political mainstream of American life, and to recreate the Southern economy after a Northern, free-labor model.

For the 380,000 African American soldiers who fought in World War I, Woodrow Wilson's charge to make the world "safe for democracy" carried life-or-death meaning. Chad L. Williams reveals the central role of African American soldiers in the global conflict and how they, along with race activists and ordinary citizens, committed to fighting for democracy at home and beyond. Using a diverse range of sources, *Torchbearers of Democracy* reclaims the legacy of African American soldiers and veterans and connects their history to issues such as the

obligations of citizenship, combat and labor, diaspora and internationalism, homecoming and racial violence, "New Negro" militancy, and African American memories of the war. An intersectional history of the shared struggle for African American and Latinx civil rights. Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of "America First" rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

This brisk narrative charts the history of the United States Navy from its birth during the American Revolution through its emergence as a global power amid the world wars of the twentieth century and finally to its current role as a superpower in the twenty-first century. **ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. A powerful illustrated history of the Great Migration and its sweeping impact on Black and American culture, from Reconstruction to the rise of hip hop. Over the course of six decades, an unprecedented wave of Black Americans left the South and spread across the nation in search of a better life--a migration that sparked stunning demographic and cultural changes in twentieth-century America. Through gripping and accessible historical narrative paired with illustrations, author and activist Blair Imani examines the largely overlooked impact of The Great Migration and how it affected--and continues to affect--Black identity and America as a whole. *Making Our Way Home* explores issues like voting rights, domestic terrorism, discrimination, and segregation alongside the flourishing of arts and culture, activism, and civil rights. Imani shows how these influences shaped America's workforce and wealth distribution by featuring the stories of notable people and events, relevant data, and family histories. The experiences of prominent figures such as James Baldwin, Fannie Lou Hamer, El Hajj Malik El Shabazz (Malcolm X), Ella Baker, and others are woven into the larger historical and cultural narratives of the Great Migration to create a truly singular record of this powerful journey. In *Caring for Equality* David McBride chronicles the struggle by African Americans and their white allies to improve poor black health conditions as well as inadequate medical care—caused by slavery, racism, and discrimination—since the arrival of African slaves in America.

Neil Kent's book sweeps through Sweden's history from the Stone Age to the present day. Early coverage includes Viking hegemony, the Scandinavian Union, the Reformation and Sweden's political zenith as Europe's greatest superpower in the seventeenth century, while later chapters explore the Swedish Enlightenment, royal absolutism, the commitment to military neutrality and Pan-Scandinavianism. The author brings his account up to date by focusing on more recent developments: the rise of Social Democracy, the establishment of the welfare state, the country's acceptance of membership in the European Union and its progressive ecological programme. The book successfully combines the politics, economics and social and cultural mores of one of the world's most successfully functioning and humane societies. This is an

informative and entertaining account for students and general readers.

"This study reveals the previously hidden impact of Ebony magazine as a major producer and disseminator of popular black history during the second half of the twentieth century. Far from dismissing Ebony as a consumer magazine with limited political or educational importance, E. James West highlights the value editors, readers, and advertisers placed upon Ebony's role as a "history book." Benefitting from unprecedented access to new archives at Chicago State and Emory University, West also offers the first substantive biographical account of the writing and philosophy of Lerone Bennett Jr., who used his position at Ebony to emerge as one of the twentieth century's most influential popular black historians. Focusing on Lerone Bennett's role within Johnson Publishing, and assessing Ebony's broader historical coverage, this book uses the magazine as a window into the transition of black history from the

margins to the center of American cultural, historical, and political representation. As an important cultural outlet with millions of readers, *Ebony* played a powerful role in reshaping public representations of African American history. Directed by the efforts of Bennett, the magazine produced militant depictions of black history and connected activism in the present to a longstanding history of radical black protest. However, as a black consumer magazine it also helped to legitimize and facilitate corporate mediation of black history, and to frame and limit discussions of African American history, memory, and identity"--

The essential, sweeping story of Juneteenth's integral importance to American history, as told by a Pulitzer Prize-winning historian and Texas native. Weaving together American history, dramatic family chronicle, and searing episodes of memoir, Annette Gordon-Reed's *On Juneteenth* provides a historian's view of the country's long road to Juneteenth, recounting both its origins in Texas and the enormous hardships that African-Americans have endured in the century since, from Reconstruction through Jim Crow and beyond. All too aware of the stories of cowboys, ranchers, and oilmen that have long dominated the lore of the Lone Star State, Gordon-Reed—herself a Texas native and the descendant of enslaved people brought to Texas as early as the 1820s—forges a new and profoundly truthful narrative of her home state, with implications for us all. Combining personal anecdotes with poignant facts gleaned from the annals of American history, Gordon-Reed shows how, from the earliest presence of Black people in Texas to the day in Galveston on June 19, 1865, when Major General Gordon Granger announced the end of legalized slavery in the state, African-Americans

played an integral role in the Texas story. Reworking the traditional “Alamo” framework, she powerfully demonstrates, among other things, that the slave- and race-based economy not only defined the fractious era of Texas independence but precipitated the Mexican-American War and, indeed, the Civil War itself. In its concision, eloquence, and clear presentation of history, *On Juneteenth* vitally revises conventional renderings of Texas and national history. As our nation verges on recognizing June 19 as a national holiday, *On Juneteenth* is both an essential account and a stark reminder that the fight for equality is exigent and ongoing.

This title is an easy-to-read guide outlining specific differences in communication, clinical therapies, medications, protocols, and other critical approaches to the care of African Americans. The book discusses a wide range of disorders impacting African Americans and takes a comprehensive and evidence-based approach to the clinical support of providers that see African American patients. Recording the worst medical outcomes of any racial/ethnic group in America, African Americans have the highest mortality, longest hospital length of stay, worst compliance with medications and referrals, and the lowest trust of the healthcare system. Indeed, there are countless well-designed studies that validate verified differences in the clinical care of a number of pervasive diseases in African Americans, including hypertension, heart disease, kidney disease, obesity, cancer, and more. Despite the widespread acknowledgement of the existence of health disparities among racial/ethnic groups, the overall outcomes for African Americans are still the most shocking. From high infant mortality to death by almost any cause, African Americans have the worst data of any other racial or ethnic group. *Patient-Centered Clinical Care for African Americans*, a highly practical and first-of-its-kind title, illuminates these alarming issues and represents a major contribution to the clinical literature. It will be of significant interest to all physicians, clinicians, and allied health personnel.

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book’s hallmark strengths — balance, explanatory power, and a brief-yet-comprehensive narrative — as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped *America* into the ideal brief book for the modern survey course, at a value that can’t be beat. Read the preface.

Americans have always been a hard-drinking people, but from 1920 to 1933 the country went dry. After decades of pressure from rural Protestants such as the hatchet-wielding Carry A. Nation and organizations such as the Women's Christian Temperance Union and Anti-Saloon League, the states ratified the Eighteenth Amendment to the Constitution. Bolstered by the Volstead Act, this amendment made Prohibition law: alcohol could no longer be produced, imported, transported, or sold. This bizarre episode is often humorously recalled, frequently satirized, and usually condemned. The more interesting questions, however, are how and why Prohibition came about, how Prohibition worked (and failed to work), and how Prohibition gave way to strict governmental regulation of alcohol. This book answers these questions, presenting a brief and elegant overview of the Prohibition era and its legacy. During the 1920s alcohol prices rose, quality declined, and consumption dropped. The black market

thrived, filling the pockets of mobsters and bootleggers. Since beer was too bulky to hide and largely disappeared, drinkers sipped cocktails made with moonshine or poor-grade imported liquor. The all-male saloon gave way to the speakeasy, where together men and women drank, smoked, and danced to jazz. After the onset of the Great Depression, support for Prohibition collapsed because of the rise in gangster violence and the need for revenue at local, state, and federal levels. As public opinion turned, Franklin Delano Roosevelt promised to repeal Prohibition in 1932. The legalization of beer came in April 1933, followed by the Twenty-first Amendment's repeal of the Eighteenth that December. State alcohol control boards soon adopted strong regulations, and their legacies continue to influence American drinking habits. Soon after, Bill Wilson and Dr. Bob Smith founded Alcoholics Anonymous (AA). The alcohol problem had shifted from being a moral issue during the century to a social, cultural, and political one during the campaign for Prohibition, and finally, to a therapeutic one involving individuals. As drinking returned to pre-Prohibition levels, a Neo-Prohibition emerged, led by groups such as Mothers against Drunk Driving, and ultimately resulted in a higher legal drinking age and other legislative measures. With his unparalleled expertise regarding American drinking patterns, W. J. Rorabaugh provides an accessible synthesis of one of the most important topics in US history, a topic that remains relevant today amidst rising concerns over binge-drinking and alcohol culture on college campuses.

What do all these people have in common: the first man to die in the American Revolution, a onetime chief of the Crow Nation, the inventors of peanut butter and the portable X-ray machine, and the first person to make a wooden clock in this country? They were all great African Americans. For parents and teachers interested in fostering cultural awareness among children of all races, this book includes more than 70 hands-on activities, songs, and games that teach kids about the people, experiences, and events that shaped African American history. This expanded edition contains new material throughout, including additional information and biographies. Children will have fun designing an African mask, making a medallion like those worn by early abolitionists, playing the rhyming game "Juba," inventing Brer Rabbit riddles, and creating a unity cup for Kwanzaa. Along the way they will learn about inspiring African American artists, inventors, and heroes like Harriet Tubman, Benjamin Banneker, Rosa Parks, Langston Hughes, and Louis Armstrong, to name a few.

In the Jim Crow era, along with black churches, schools, and newspapers, African Americans also had their own history. *Making Black History* focuses on the engine behind the early black history movement, Carter G. Woodson and his Association for the Study of Negro Life and History (ASNLH). Author Jeffrey Aaron Snyder shows how the study and celebration of black history became an increasingly important part of African American life over the course of the early to mid-twentieth century. It was the glue that held African Americans together as "a people," a weapon to fight racism, and a roadmap to a brighter future. *Making Black History* takes an expansive view of the historical enterprise, covering not just the production of black history but also its circulation, reception, and performance. Woodson, the only professional historian whose parents had been born into slavery, attracted a strong network of devoted members to the ASNLH, including professional and lay historians, teachers, students, "race" leaders, journalists, and artists. They all grappled with a set of interrelated

questions: Who and what is “Negro”? What is the relationship of black history to American history? And what are the purposes of history? Tracking the different answers to these questions, Snyder recovers a rich public discourse about black history that took shape in journals, monographs, and textbooks and sprang to life in the pages of the black press, the classrooms of black schools, and annual celebrations of Negro History Week. By lining up the Negro history movement’s trajectory with the wider arc of African American history, Snyder changes our understanding of such signal aspects of twentieth-century black life as segregated schools, the Harlem Renaissance, and the emerging modern civil rights movement.

A compelling story of agency, survival, struggle and triumph over adversity African Americans: A Concise History illuminates the central place of African-Americans in U.S. history by telling the story of what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. It follows the long and turbulent journey of African-Americans, the rich culture they have nurtured throughout their history and the quest for freedom through which African-Americans have sought to counter oppression and racism. MyHistoryLab is an integral part of the Hine / Hine / Harrold program. Key learning applications include Closer Looks, MyHistoryLibrary, and writing assessment. A better teaching and learning experience This program will provide a better teaching and learning experience—for you and your students. Here’s how: Personalize Learning - MyHistoryLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Improve Critical Thinking - Focus Questions and end-of-chapter Review Questions help students think critically about the chapter content. Engage Students - Voices boxes engage students in the works and words of African Americans. Support Instructors - A full set of supplements, including MyHistory, provides instructors with all the resources and support they need. Note: MyHistoryLab does not come automatically packaged with this text.

Drawn from the acclaimed landmark in reference publishing, this incomparable one-volume encyclopedia of the black world is now within reach of every family, student, and educator. It brings the entire Pan-African experience into sharp focus, with entries ranging from "affirmative action" to "zydeco," from each of the most prominent ethnic groups in Africa to each member of the Congressional Black Caucus. Africana will provide hours of reading pleasure through its longer, interpretive essays on the religion, arts, and cultural life of Africans and of black people everywhere.

Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780205806270. This item is printed on demand.

2021 NAACP Image Award Nominee: Outstanding Literary Work – Non-Fiction
Honorable Mention for the 2021 Organization of American Historians Darlene Clark Hine Award
A vibrant and empowering history that emphasizes the perspectives and stories of African American women to show how they are—and have always been—instrumental in shaping our country In centering Black women’s stories, two award-winning historians seek both to empower African American women and to show their allies that Black women’s unique ability to make their own communities while

combatting centuries of oppression is an essential component in our continued resistance to systemic racism and sexism. Daina Ramey Berry and Kali Nicole Gross offer an examination and celebration of Black womanhood, beginning with the first African women who arrived in what became the United States to African American women of today. *A Black Women's History of the United States* reaches far beyond a single narrative to showcase Black women's lives in all their fraught complexities. Berry and Gross prioritize many voices: enslaved women, freedwomen, religious leaders, artists, queer women, activists, and women who lived outside the law. The result is a starting point for exploring Black women's history and a testament to the beauty, richness, rhythm, tragedy, heartbreak, rage, and enduring love that abounds in the spirit of Black women in communities throughout the nation.
