darkness of time, and its reawakening heralds the start of much darker days still to come. "It began in Ethiopia, hundreds of thousands of years ago. When a handful of genetic mutations caused evolution to split from the primates. And mankind was born. Now, eons later, evidence of more splits from the apes are being unearthed. And with them, a disturbing realization. Ours was only one of many. And yet we survived. But it was not by luck or chance. We survived because humans had something the others did not. A unique ingredient that has only now been rediscovered. First in the mountains of South America, where it was promptly destroyed by the Chinese. And now a second source in Africa. The epicenter of mankind's very inception. A place that John Clay and Alison Shaw must find quickly. Because the Russians already know what we are searching for. And the Chinese want back what is rightfully theirs. The mother of all secrets awaits the world, in Africa. One that will not only explain who we are, but will decipher the very code within our own DNA."--Provided by publisher.

The Impossible reveals prayer's immediate and powerful impact through the true account of a family whose son died and was miraculously resurrected. Through the years and the struggles, when life seemed more about hurt and loss than hope and mercy, God was positioning the Smiths for something extraordinary-the

death and resurrection of their son. When Joyce Smith's fourteen-year-old son John fell through an icy Missouri lake one winter morning, she and her family had seemingly lost everything. At the hospital, John lay lifeless for more than sixty minutes. But Joyce was not ready to give up on her son. She mustered all her faith and strength into one force and cried out to God in a loud voice to save him. Miraculously, her son's heart immediately started beating again. In the coming days, John would defy every expert, every case history, and every scientific prediction. Sixteen days after falling through the ice and being clinically dead for an hour, he walked out of the hospital under his own power, completely healed. The Impossible is about a profound truth: prayer really does work. God uses it to remind us that He is always with us, and when we combine it with unshakable faith, nothing is impossible.

In 1984 a doomsday vault was constructed on a remote island in the Arctic Ocean. Its purpose was to preserve Earth's genetic history in the event of a

global catastrophe. Now, decades later, a second vault has been uncovered. This one resting where no one ever expected. And the problem is...it's not ours. Yet even more curious than the vault itself, is what lies inside. Seeds. Millions of seeds. Each with a genetic embryo untouched and perfectly preserved. Waiting. No one knows who built it. Or when. Now a small group of marine biologists and navy investigators have been assigned to find out. Before anyone else does. Reissued for the first time in decades, this ambitious work of Medieval scholarship by bestselling historians Frances and Joseph Gies traces the stories and fates of women in Medieval Europe over the course of a millennium. Medieval history is often written as a series of battles and territorial shifts. But the essential contributions of women during this period have been too often relegated to the dustbin of history. In *Women in the*

Middle Ages, Frances and Joseph Gies reclaim this lost history, in a lively historical survey that charts the evolution of women's roles throughout the period, and profiles eight individual women in depth. We learn of Hildegarde of Bingen, an abbess who was a noted composer and founded two monasteries; of Eleanor de Montfort, a 13th century Princess of Wales who was captured by Edward I and held as a political prisoner for three years; and women of somewhat more modest means, such as the spouse of an Italian merchant, and a peasant's wife. Drawing upon their various stories, talented historians Frances and Joseph Gies—whose books were used by George R.R. Martin in his research for *Game of Thrones*—offer a kaleidoscopic view of the lives of women throughout this tumultuous period. “A wealth of solid information.” –New York Times
