The fourth volume of the collected papers of the ICLA congress "The Many Languages of Comparative Literature" includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of topoi, which were originally viewed as the 'places' where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of 'undeclared thematology', which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

This enhanced edition features excerpts from the audio edition of *Bossypants*, recently named Audio Book of the Year! Before Liz Lemon, before "Weekend Update," before "Sarah Palin," Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on *Saturday Night Live*; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon -- from the beginning of this paragraph to this final sentence. Tina Fey reveals all, and proves what we've all suspected: you're no one until someone calls you bossy. (Includes Special, Never-Before-Solicited Opinions on Breastfeeding, Princesses, Photoshop, the Electoral Process, and Italian Rum Cake! This Enhanced eBook experience also includes special audio clips from Tina Fey, speculation on what an eBook really is, a bonus section of new-to-you photos, interpretive drawings, and a chapter read by the author!)

Alex Toth's magnum opus contains all three of *The Genius's* stories starring Jesse Bravo, knock-about pilot and reluctant swashbuckler, including the original graphic novel. More than forty years after its creation, *Bravo For Adventure* remains a rollicking pastiche of 1930s high-adventure, replete in the visual trappings of film noir without any of that genre's existential depression. By this point in his career Toth had stripped out all extraneous lines and detail, demonstrating complete command of his staging and *chiaroscuro* technique, and cementing his reputation as the medium's most sophisticated storyteller. Also included are never-before-seen pencil roughs, preliminary drawings, and story fragments, as well as Toth's own coloring samples for an edition that never saw print, and--freed from storage after 40-some-years--the coloring for what was intended to be *Bravo's* original 1975 first printing in France! It's not just a comics collection, it's a capital "E" Event -- the ultimate *Bravo for Adventure*, published by special arrangement with the Toth family!

Audio description is one of the many services available to guarantee accessibility to audiovisual media. It describes and narrates images and sounds and resulting audio is then mixed with the original soundtrack. Audio description is a complex process that touches production, distribution and reception. *Researching Audio Description: New Approaches* gathers academic information and data from the many existing research projects, practices, and training across the world. The book has a telescopic approach, from two introductory chapters where accessibility in general is contextualised as a human right, and the basic concepts of disability and impairment are explored. Research on specific features for audio description script drafting are focused in the second part of the book, with a view to revising existing funded projects and their

outcomes. The book offers a wealth of information on both the practical and philosophical, from different approaches in perception and cognition, and different research methodologies. Project information contained in the contributions identifies trends in current research-funded studies which will be valuable as a pointer towards future proposals. The book shows the dynamic state of audio description practice, training and research, while contributing towards the growing critical mass needed in building the field of accessibility studies.

There are more writers and poets to the hectare on the North Shore - and always have been - than in any other part of New Zealand.' Michael King This collection celebrates the past and the present. Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was "Bond, James Bond." Thus began a cinematic series unlike any other. In November 2012, Skyfall, the 23rd movie in what is seen as the authorized line of Bond films, will be released, with Daniel Craig (the sixth Bond) again in the lead role. The world will once more stream to the theaters for another dose of Bond. LIFE was on the scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs ("The Man from U.N.C.L.E.;" "Get Smart;" "I Spy;" the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Moneypenny-anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it still is. Happy birthday, and welcome back, Commander Bond.

Images of ruins may represent the raw realities created by bombs, natural disasters, or factory closings, but the way we see and understand ruins is not raw or unmediated. Rather, looking at ruins, writing about them, and representing them are acts framed by a long tradition. This unique interdisciplinary collection traces discourses about and representations of ruins from a richly contextualized perspective. In the introduction, Julia Hell and Andreas Schönle discuss how European modernity emerged partly through a confrontation with the ruins of the premodern past. Several contributors discuss ideas about ruins developed by philosophers such as Immanuel Kant, Georg Simmel, and Walter Benjamin. One contributor examines how W. G. Sebald's novel *The Rings of Saturn* betrays the ruins erased or forgotten in the Hegelian philosophy of history. Another analyzes the repressed specter of being bombed out of existence that underpins post-Second World War modernist architecture, especially Le Corbusier's plans for Paris. Still another compares the ways that formerly dominant white populations relate to urban-industrial ruins in Detroit and to colonial ruins in Namibia. Other topics include atomic ruins at a Nevada test site, the connection between the cinema and ruins, the various narratives that have accrued around the Inca ruin of Vilcashuamán, Tolstoy's response in *War and Peace* to the destruction of Moscow in the fire of 1812, the Nazis' obsession with imperial ruins, and the emergence in Mumbai of a new "kinetic city" on what some might consider the ruins of a modernist city. By focusing on the concept of ruin, this collection sheds new light on modernity and its vast ramifications and complexities. Contributors. Kerstin Barndt, Jon Beasley-Murray, Russell A. Berman, Jonathan Bolton, Svetlana Boym, Amir Eshel, Julia Hell, Daniel Herwitz, Andreas Huysen, Rahul Mehrotra, Johannes von Moltke, Vladimir Paperny, Helen Petrovsky, Todd Presner, Helmut Puff, Alexander Regier, Eric Rentschler, Lucia Saks, Andreas Schönle, Tatiana Smoliarova, George Steinmetz, Jonathan Veitch, Gustavo Verdesio, Anthony Vidler

This essay collection examines the theory and history of graphic narrative as one of the most interesting and versatile forms of storytelling in contemporary media culture. Its contributions test the applicability of narratological concepts to graphic

narrative, examine aspects of graphic narrative beyond the 'single work', consider the development of particular narrative strategies within individual genres, and trace the forms and functions of graphic narrative across cultures. Analyzing a wide range of texts, genres, and narrative strategies from both theoretical and historical perspectives, the international group of scholars gathered here offers state-of-the-art research on graphic narrative in the context of an increasingly postclassical and transmedial narratology. This is the revised second edition of *From Comic Strips to Graphic Novels*, which was originally published in the *Narratologia* series.

Set in Cuba's Sierra Maestra in the 1950s, in the days leading up to the Revolution--Manchette's unfinished masterpiece with a fearless female protagonist. Out of the wreckage of World War II swaggers Ivory Pearl, so named (rhymes with girl) by some British soldiers who made her their mascot, a mere kid, orphaned, survivor of God knows what, but fluent in French, English, smoking, and drinking. In Berlin, Ivy meets Samuel Farakhan, a rich closeted intelligence officer. Farakhan proposes to adopt her and help her to become the photographer she wants to be; his relationship to her will provide a certain cover for him. And she is an asset. The deal is struck... 1956: Ivy has seen every conflict the postwar world has on offer, from Vietnam to East Berlin, and has published her photographs in slick periodicals, but she is sick to death of death and bored with life and love. It's time for a break. Ivy heads to Cuba, the Sierra Maestra. History, however, doesn't take vacations. Ivory Pearl was Jean-Patrick Manchette's last book, representing a new turn in his writing. It was to be the first of a series of ambitious historical thrillers about the "wrong times" we live in. Though left unfinished when Manchette died, the book, whose full plot has been filled in here from the author's notes, is a masterpiece of bold suspense and black comedy: chilling, caustic, and perfectly choreographed.

Composer, folklorist, and performer Béla Bartók (1881–1945) is internationally renowned as one of the most important and influential musicians of the twentieth century. Throughout his life he wrote lectures and essays that dealt with virtually every aspect of East European folk music. Many of those essays, previously scattered in specialist journals in four different languages, are collected here for the first time. All are concerned with that branch of musicology within which Bartók was most influential, and for which he is best known: research into folk music, or ethnomusicology. The volume includes a preface by editor Benjamin Suchoff, a leading expert on Bartók's music and writings. Suchoff examines Bartók's developing views on the folk-music traditions of Hungary, Romania, Slovakia, and the Arab world.

Benedict Sheehan's *Liturgy of St. John Chrysostom* is among the first complete choral settings of the Orthodox Divine Liturgy ever to be composed in the English language. Sheehan's *Liturgy* builds on the mighty legacy of Russian sacred choral music laid down by Rachmaninoff, Tchaikovsky, Gretchaninoff and others, enriching that legacy with a 21st-century American voice. Commissioned in 2015 by the Patriarch Tikhon Russian-American Music Institute (PaTRAM) as part of their ongoing efforts to bolster the tradition of Orthodox sacred music in America, Sheehan's richly-scored 75-minute piece breaks new ground for English-language Orthodox repertoire. According to the composer, the work, while staying "rooted in the Russian style? venture(s) into sounds at once reminiscent of medieval Eastern chant and of 20th century Minimalism, of American folk singing and the high tradition of Western church music" as a way of echoing the diversity of the American religious landscape today.

A collection of thirty-four interviews with the innovative soprano saxophonist and jazz composer Steve Lacy (1934–2004).
