Introduction to Business Management 11e offers an overview of business management within the South African context. The textbook is written for undergraduate students who are doing a course in introductory business management as part of their degree or diploma at a university or university of technology.

"Written with enthusiasm and dedication, Analysis for Financial Management, 9th edition, presents Financial Management in a clear and conversational style that both business students and non-financial executives comprehend." --Book Jacket.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach.

Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
