McPherson; Chapter 29: The Way Home—Final Leg: Ft. McPherson to Camilla, Georgia; Chapter 30: Initial Reentry Into Civilian Life Issues; Chapter 31: War Hangover Issues; Chapter 32: The Dream War. First Edition (January 2012). 1 photo.

*Making Sense of World History* is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical “episodes” that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. The Open Access version of this book, available at <https://www.taylorfrancis.com/books/9781003013518>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

"An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one." —Carlos Lozada, *The Washington Post* "The *Free World* sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, *The New York Times Book Review* | Editors' Choice Named a most anticipated book of April by *The New York Times* | *The Washington Post* | *Oprah Daily* In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of “freedom” applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt’s Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage’s residencies at North Carolina’s Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg’s friendship with Lionel Trilling, James Baldwin’s transformation into a Civil Right spokesman, Susan Sontag’s challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America’s once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The American Journey McGraw-Hill The Cold War in the Third World Oxford University Press

Examines the history of the Cold War, reflecting Soviet, East European, Chinese, American, and West European viewpoints, and offering new insights and solutions to long-standing puzzles

REA's Crash Course® for the AP® World History Exam - Gets You a Higher Advanced Placement® Score in Less Time 2nd Edition - Updated for the 2017 Exam Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement® World History exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP® World History is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Written by an AP® World History teacher, the targeted review chapters prepare students for the test by only focusing on the important topics and themes tested on the new 2017 AP® World History exam. The easy-to-read review chapters in outline format cover everything AP® students need to know for the exam: The Ancient Near East, The Middle Ages, Early Modern Europe, Asia, World War I & II, The Cold War, and more. The author also includes must-know key terms all AP® students should know before test day. Expert Test-taking Strategies Our experienced AP® World History teacher shares detailed question-level strategies and explains the best way to answer the multiple-choice and essay questions you'll encounter on test day. By following our expert tips and advice, you can boost your overall point score! Take REA's FREE Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our free practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP® exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP® World History student must have. When it's crucial crunch time and your Advanced Placement® exam is just around the corner, you need REA's Crash Course for AP® World History!

A resource book for teachers of world history at all levels. The text contains individual sections on art, gender, religion, philosophy, literature, trade and technology. Lesson plans, reading and multi-media recommendations and suggestions for classroom activities are also provided.

"A history of the relationship between Iran and America from the 1700s through the current day"--

A DRAMATIC AND REVEALING ACCOUNT, FROM INSIDE THE GOVERNMENT, OF THE MOMENTOUS DAYS IN WHICH AMERICA ASSUMED THE RESPONSIBILITY OF WORLD LEADERSHIP. First published in 1955, Joseph M. Jones' memoirs *The Fifteen Weeks* chronicle his role in the development of the Truman Doctrine and the Marshall Plan. "The fifteen weeks which form the title and subject of this book comprise the period in 1947 when the United States stepped out irrevocably and wholeheartedly as leader upon the world stage.... "The greatness of a nation, like the greatness of an individual, is in the last analysis a mystery. We do not know why at one time immense exertions and far-reaching vision are more prevalent than at others. Yet to look within, to account for the obvious factors in the situation is highly useful. That function is performed in a book which for readability and for responsible narration would be hard to surpass."—August Heckscher in the *New York Herald Tribune*.

*Crossroads and Cultures: A History of the World's Peoples* incorporates the best current cultural history into a fresh and original narrative that connects global patterns of development with life on the ground. As the title, "Crossroads," suggests, this new synthesis highlights the places and times where people exchanged goods and commodities, shared innovations and ideas, waged war and spread disease, and in doing so joined their lives to the broad sweep of global history. Students benefit from a strong pedagogical design, abundant maps and images, and special features that heighten the narrative's attention to the lives and voices of the world's peoples. Test drive a chapter today. Find out how.

This wide-ranging volume presents the most complete appraisal of modern African history to date. It assembles dozens of new and established scholars to tackle the questions and subjects that define the field, ranging from the economy, the two world wars, nationalism, decolonization, and postcolonial politics to religion, development, sexuality, and the African youth experience. Contributors are drawn from numerous fields in African studies, including art, music, literature, education, and anthropology. The themes they cover illustrate the depth of modern African history and the diversity and originality of lenses available for examining it. Older themes in the field have been treated to an engaging re-assessment, while new and emerging themes are situated as the book's core strength. The result is a comprehensive, vital picture of where the field of modern African history stands today.

*Civilization in the West* blends social and political history with a myriad of maps and images that bring history to life. The authors tell a compelling story of Western Civilization that is enhanced by images and maps. "The Visual Record" chapter openers draw readers in by using illustrations that underscore a dominant theme of the chapter. New "Image Discovery" features guide readers to interrogate images, understand their contexts, and unpack their multiple meanings. The dramatic, changing contours of the West are explored through Map Discovery features and Geographical Tours of Europe.

A classic Pharmacology book trusted equally by students and practicing physicians for its up-to-date, accurate and reliable text, which has always placed before the readers an integrated approach intertwining current knowledge of pathophysiology of the disease, pharmacology of available drugs and strategies for medical management of diseases. • Trusted Pharmacology book with emphasis on pathophysiology, clinical pharmacology and therapeutics, presenting information in integrated manner. • Up-to-date information supplemented with tables and diagrams, having: - therapy of important diseases presented in boxes. - current guidelines to support therapeutic decisions - tips for practising physicians. • Uses integrated approach intertwining current knowledge of pathophysiology of the disease, pharmacology of available drugs and strategies for medical management of diseases. • Balances the complexity and simplicity of scientific content to provide students of medicine and/or pharmacy an insight into rational therapeutics.

*World History: A Concise Thematic Analysis* presents the highly anticipated second edition of the most affordable and accessible survey of world history designed for use at the college level. An engaging narrative that contextualizes history and does not drown students in a sea of facts Offers a comparative analysis of the great civilizations of Eurasia, Africa, and the Americas Addresses themes of population dynamics, food production challenges, disease history, warfare, and other major issues for civilizations Features new interior design and organization to enhance user experience Instructor's test bank available online at [www.wiley.com/go/wallech](http://www.wiley.com/go/wallech)

Defines the current status of research in the genetics, anatomy, and development of the nematode *C. elegans*, providing a detailed molecular explanation of how development is regulated and how the nervous system specifies varied aspects of behavior. Contains sections on the genome, development, neural networks and behavior, and life history and evolution. Appendices offer genetic nomenclature, a list of laboratory strain and allele designations, skeleton genetic maps, a list of characterized genes, a table of neurotransmitter assignments for specific neurons, and

information on codon usage. Includes bandw photos. For researchers in worm studies, as well as the wider community of researchers in cell and molecular biology. Annotation copyrighted by Book News, Inc., Portland, OR

In 1955, a conference was held in Bandung, Indonesia that was attended by representatives from twenty-nine nations. Against the backdrop of crumbling European empires, Asian and African leaders forged new alliances and established anti-imperial principles for a new world order. The conference came to capture popular imaginations across the Global South and, as counterpoint to the dominant world order, it became both an act of collective imagination and a practical political project for decolonization that inspired a range of social movements, diplomatic efforts, institutional experiments and heterodox visions of the history and future of the world. In this book, leading international scholars explore what the spirit of Bandung has meant to people across the world over the past decades and what it means today. It analyzes Bandung's complicated and pivotal impact on global history, international law and, most of all, justice struggles after the end of formal colonialism.

Each unit includes guided reading, vocabulary building, skillbuilder practice, geography applications, primary sources, literature selections, reteaching activities, enrichment activities for gifted and talented students, history workshop resources and answer key.

The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler's account that highlights the book's main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students' interest and draw them into the stories of the people, places, and events crucial to understanding world history. Special features highlight connections across chapters, societies, and periods, helping students understand historical events in a global context. Available in the following split options: VOYAGES IN WORLD HISTORY, Third Edition Complete, Volume 1: To 1600, and Volume 2: Since 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Explore world history in a brief, balanced, highly readable overview that examines common challenges and experiences that unite the human past and identify key global regional patterns over time with THE ESSENTIAL WORLD HISTORY. This brief overview of world history covers political, economic, social, religious, intellectual, cultural, and military history integrated into a chronologically ordered synthesis to help you gain an appreciation and understanding of the distinctive character and development of individual cultures in society. You can use the book's global approach and its emphasis on analytical comparisons between cultures to link events together in a broad comparative and global framework that places the contemporary world in a more meaningful historical context. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

If you only have enough money to buy one book about American history, this better be that book. Whether you're a confused student, a stressed teacher or just a regular yahoo wanting to finally understand the history of the United States, your search for knowledge needs go no further. Want to know who was the true first president of the United States? Curious about what those early Jamestowners dug their teeth into when the food ran out? Wonder why Israel and the Palestinians just can't seem to get along? It's all in here. Written and edited by top students at one of the most respected high schools, *The Best American History Book in the World* is packed full of valuable charts, original illustrations, and clear summaries that will help you become a U.S. history expert. All royalties from the sale of this book will be given to a student chosen charity dedicated to improving the health and welfare of children.

ADAMANT AGGRESSORS is a practical guide to help scholars, political scientists, policy-makers and laymen understand and apply specific lessons that history has for the present time. It takes a business-case look at five adamant aggressors - Mehmed the Conqueror, James K. Polk, Adolph Hitler, Chaim Weizmann/David Ben-Gurion, Joseph Stalin - and what they teach about recognizing and dealing with adamant aggressors who may be threatening America today. While these lessons may not ensure that the best choices will be made today, understanding them will help readers to reject demonstrated bad choices and, thus, more likely arrive at better choices. This unique approach allows readers to quickly peruse a 2-3 page Executive Summary at the beginning of each case study, or to examine a thoroughly researched and documented narrative of the aggressor's action and the reactions of his targets. Analysis then details how each aggressor is identified as adamant (and might have been while there was time to react effectively), and how targets violated or sometimes conformed to guidelines for dealing with adamant aggressors. The final chapter draws from the five cases to validate the lessons for how to recognize and deal with adamant aggressors, and urges application by America's leaders. USA "Best Books 2011" awards - Finalist in the "Current Events: Political/Social" category.

Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach, with organization around seven major themes (Science and Technology, Art and Ideas, Family and Society, Politics and Government, Earth and the Environment, Religion and Philosophy, and Interaction and Exchange), helps students link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Available in the following options: WORLD HISTORY, Eighth Edition (Chapters 1—30); Volume I: To 1800 (Chapters 1—18); Volume II: Since 1500 (Chapters 14—30). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Winston Churchill was one of the giants of the twentieth century. As Britain's prime minister from 1940 to 1945, he courageously led his nation and the world away from appeasement, into war, and on to

triumph over the Axis dictators. His classic six-volume account of those years, *The Second World War*, has shaped our perceptions of the conflict and secured Churchill's place as its most important chronicler. Now, for the first time, a book explains how Churchill wrote this masterwork, and in the process enhances and often revises our understanding of one of history's most complex, vivid, and eloquent leaders. In *Command of History* sheds new light on Churchill in his multiple, often overlapping roles as warrior, statesman, politician, and historian. Citing excerpts from the drafts and correspondence for Churchill's magnum opus, David Reynolds opens our eyes to the myriad forces that shaped its final form. We see how Churchill's manuscripts were vetted by Whitehall to conceal secrets such as the breaking of the Enigma code by British spymasters at Bletchley Park, and how Churchill himself edited the volumes to avoid offending postwar statesmen such as Tito, Charles de Gaulle, and Dwight D. Eisenhower. We explore his confusions about the true story of the atomic bomb, learn of his second thoughts about Stalin, and watch him repackage himself as a consistent advocate of the D-Day landings. In *Command of History* is a major work that forces us to reconsider much received wisdom about World War II. It also peels back the covers from an unjustly neglected period of Churchill's life, his "second wilderness" years, 1945—1951. During this time Churchill, now over seventy, wrote himself into history, politicked himself back into 10 Downing Street, and delivered some of the most vital oratory of his career, including his pivotal "iron curtain" speech. Exhaustively researched and dazzlingly written, this is a revelatory portrait of one of the world's most profiled figures, a work by a historian in full command of his craft. "A fascinating account that accomplishes the impossible: [Reynolds] actually finds something new and interesting to say about one of the most chronicled characters of all time." —The New York Times Book Review A New York Times NOTABLE BOOK OF THE YEAR A BEST HISTORY OF THE YEAR SELECTION —The New York Sun NOTE: This edition does not include photographs.

Sugar chains (glycans) are often attached to proteins and lipids and have multiple roles in the organization and function of all organisms. "Essentials of Glycobiology" describes their biogenesis and function and offers a useful gateway to the understanding of glycans.

The 25th revised edition of *Pharmacology and Pharmacotherapeutics* continues to maintain its status as an up-to-date, accurate and reliable text for medical students as well as practicing physicians. The advances in molecular biology have significantly influenced the understanding of pathogenesis of diseases and development of newer drugs. The real challenge, however, remains in application of the available information while treating a patient. This book has always placed before the readers an integrated approach intertwining current knowledge of pathophysiology of the disease, pharmacology of available drugs and strategies for medical management of diseases. The current edition balances the complexity and simplicity of scientific content to provide students of medicine and/or pharmacy an insight into rational therapeutics. It gives several practical tips which empowers the physician to treat patients effectively and confidently. Written in an integrated fashion, *Pharmacology and Pharmacotherapeutics* builds up a strong foundation of scientific knowledge to guide decision making and to promote a holistic approach towards patient care in clinical practice. Emphasis on Clinical Pharmacology in each chapter Current guidelines for therapeutic decisions Newer sedatives-hypnotics Hypertension management: Updates Advances in treatment of obesity and hyperlipidemia Newer antiepileptics Antiviral agents for hepatitis C Rheumatoid arthritis: pharmacotherapy Management of pulmonary hypertension Newer antidiabetic drugs Advances in immunotherapeutics Vitamin D and calcium: Updates Therapeutic advances for infectious diseases

Respected Christian educator, Dr. James Stobaugh, offers an entire year of high school American history curriculum in an easy to teach and comprehensive volume. *American History: Observations & Assessments from Early Settlement to Today* employs clear objectives and challenging assignments for the tenth grade student. From before the birth of our republic to the principles of liberty, American history trends, philosophies, and events are thoroughly explored. The following components are covered for the student: Critical thinking Examinations of historical theories, terms, and concepts History makers who changed the course of America Overviews and insights into world views. Students will complete this course knowing the Christian influences that created a beacon of hope and opportunity that still draws millions to the United States of America. This 384-page student resource should be used in conjunction with the *American History: Observations & Assessments from Early Settlement to Today for the Teacher*. British History and World History are included in this comprehensive high school history curriculum for 10th, 11th, and 12th grades offered by Dr. James Stobaugh and Master Books.

Students of Western civilization need more than facts. They need to understand the cross-cultural, global exchanges that shaped Western history; to be able to draw connections between the social, cultural, political, economic, and intellectual happenings in a given era; and to see the West not as a fixed region, but a living, evolving construct. These needs have long been central to *The Making of the West*. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.

Argues that the Cold War helped speed and facilitate such key reforms as desegregation due to international pressure and the obstacle American racism created in attaining Cold War goals. A collection of essays by Jean-Paul Sartre that touch upon the subject of existentialism by looking at aesthetics, emotions, writing, phenomenology, and perception *The Philosophy of Existentialism* collects representative essays on Jean-Paul Sartre's pioneering subject: existentialism. Beginning with a thoughtful introduction by fellow French philosopher Jean Wahl, this work looks at existentialism through several lenses, exploring topics such as the emotions, imagination, nothingness, freedom, responsibility, and the desire to be God. By providing exposition on a variety of subjects, *The Philosophy of Existentialism* is a valuable introduction to Sartre's ideas.

This collection explores the complex interrelationships between the Soviet-American struggle for global preeminence and the rise of the Third World. Featuring original essays by twelve leading scholars, it examines the influence of Third World actors on the course of the Cold War.
