

Chapter 9 Baye

Throughout his career, Singapore's bestselling author Neil Humphreys has successfully mixed biting wit with pitch-black satire to highlight the hypocrisy that lies beneath Asia's sanitized, swinging city. In both fiction and non-fiction, he has shone a light into Singapore's darkest corners to create riveting stories that both captivate the reader and provoke the conscience. Now, in his new novel Marina Bay Sins, he has taken a parang to some of Asia's most sacred cows. Detective Inspector Stanley Low is having a really bad day. His bipolar condition is already ruining another therapy session.

This title contains an Access Code along with instructions to access the Online Tests. The thoroughly revised & updated 12th edition of 25 years CAT Topic-wise Solved Papers (2018-1994) with 6 Online Practice Sets consists of past years solved papers of CAT from 1994 to 2018 distributed into 3 Units, which are further divided into 24 topics. The CAT 2018 paper with detailed solutions has been added in the book. The book contains more than 3100+ Milestone Problems for CAT with detailed solutions. Alternative solutions are provided at various places. The focus of the book is to provide shortcuts and techniques which are a must to Crack CAT. Finally the book provides 6 Online tests - 3 Sectional and 3 Full Practice Sets based on the latest pattern with Solutions.

Front Cover; Practical Introduction to Pumping Technology; Copyright Page; Chapter 1. Parameters; Chapter 2. Pump Calculations; Chapter 3. Required Data for Specifying Pumps; Chapter 4. Pump Types; Chapter 5. Specifications; Chapter 6. Pump Curves; Chapter 7. Effects of Viscosity on Pump Performance; Chapter 8. Vibration; Chapter 9. Net Positive Suction Head (NPSH); Chapter 10. Pump Shaft Sealing; Chapter 11. Pump Bearings; Chapter 12. Metallurgy; Chapter 13. Pump Drivers; Chapter 14. Gears; Chapter 15. Couplings; Chapter 16. Pump Controls; Chapter 17. Instrumentation.

This book is about strategic thinking in Hispanic marketing. The size and economic importance of the Hispanic market in the US are attracting enormous attention. The buying power of the US Hispanic market is now larger than the GDP of the entire country of Mexico, and it is the second largest Hispanic market in the world. Businesses and institutions have launched major initiatives to reach this important segment. Yet, the number of qualified individuals who understand the market is small; and many of those already catering to the market still struggle to learn about its intricacies. This book is a cultural approach to Hispanic marketing. Each of the chapters describes and explains the cultural principles of Latino marketing. Recent case studies help marketers relate to the material pragmatically. The book integrates concepts and practical examples and provides critical guidance to discern between alternative courses of action. This book is not about repeating well-known statistics, but about the Hispanic market as a cultural target. It takes a profound look at the values, beliefs, and emotions of US Hispanics, which impact consumer behaviour. Each of the chapters has been the subject of public presentations and lectures to marketing professionals. It is their positive reactions as well as the authors' dedication to Hispanic consumers which motivated this book. Chapter 1: The Role of Culture in Cross-Cultural Marketing Chapter 2: Characteristics of the Hispanic Market Chapter 3: What Makes Hispanics "Hispanic" Chapter 4: The Role of Language in Hispanic Marketing Chapter 5: The Processes of Enculturation, Acculturation, and Assimilation Chapter 6 Cultural Dimensions and Archetypes Chapter 7: Culturally Informed Strategy Based on Grounded Research Chapter 8: US. Hispanic Media Environment and Strategy Chapter 9: The Evolution of Hispanic Marketing Chapter 10: The Future

Edition 48 for 2016. The app links to charts, aerial photos, embedded videos, every marina, email support group, all port authorities, the wind charts, every anchorage, worldwide harbors, the tides, engine troubleshooting, all the weather, local knowledge, every dive site, every seabird, every pelagic fish, how to catch fish, animated knots, tips, Cruisers Forum, suggested itineraries, the nav rules, the ocean currents, all safety information, USCG, outboard engines, vessel traffic services, the radio frequencies, videos, every dock, every fuel supply, food, restaurants & supermarkets, every lighthouse, repairs, marine parks, general knowledge, your safety & security, sightseeing, the dive sites, all necessary books, USCG accident reports, safety check, Facebook group, Pinterest, Instagram, the nightlife, Crewfinder, Tumblr, Scuttlebutt, Snapchat group, Tripadvisor, environmental issues, all warnings, Chatbot, Live cams, Livestream, Events, Regulations, Wikipedia, put up your photos & videos, email group, Cruisers Forum, BoatBuzz, Top 20 sailing blogs, Links to all Gov agencies, official alerts & warnings and more... +The app on your phone, tablet and computer ready for any situation. + Link to First Aid and Sea Survival. + Phone and email out of the app. + Your screen can become a full screen weather radar. + See the surrounding ships in real time on your screen with a link to AIS. + View updated charts using online chart viewer. + Before departure download and print current charts in booklet form. Topics in this Pilot include channel descriptions, piracy, safety, anchorages, cloud cover, local winds, humidity, temperatures, bridge and cable clearances, dangerous waves, currents, tide and water levels, prominent features, visibility, cyclones, storms, fog, precipitation, pilotage, towage, weather, ice conditions, wharf descriptions, dangers, routes, traffic separation schemes, small-craft facilities, and Federal regulations applicable to navigation. GENERAL INFORMATION This is a huge resource on the app with hundreds of useful links to Government, USCG, Wikipedia etc. Chapter 2. NAVIGATION REGULATIONS The complete online updated Code of Federal Regulations is linked in the app. Chapter 3. California, Oregon, and Washington Chapter 4. San Diego to Point Arguello, California Chapter 5. CHANNEL ISLANDS. This chapter describes the eight Channel Islands They include the four islands of the southern group-San Clemente, Santa Catalina, San Nicolas, and Santa Barbara; Chapter 6. Point Arguello to San Francisco Bay, California Chapter 7. San Francisco Bay, California. Chapter 8. San Francisco Bay to Point St. George, California. This chapter describes Bodega Bay, Tomales Bay, Noyo River and Anchorage, Shelter Cove, Humboldt Bay. Chapter 9. Chetco River to Columbia River, Oregon This chapter describes 200 miles of the Oregon coast from the mouth of the Chetco River to the mouth of the Columbia River. Chapter 10. Columbia River, Oregon and Washington This chapter describes the Columbia River from its mouth at the Pacific Ocean to the head of navigation above Richland, Chapter 11. Columbia River to Strait of Juan De Fuca, Washington This chapter describes the Pacific coast of the State of Washington from the Washington-Oregon border at the mouth of the Columbia River Chapter 12. Strait of Juan De Fuca and Georgia, Washington. This chapter includes the Strait of Juan de Fuca, Sequim Bay, Port Discovery, the San Juan Islands and its various passages and straits, Deception Pass, Fidalgo Island, Chapter 13. Puget Sound, Washington This chapter describes Puget Sound and its numerous inlets, bays, and passages, and the waters of Hood Canal, Chapter 14. HAWAII The Hawai'ian Islands an archipelago, consist of eight large islands, plus many islets, reefs, and shoals, strung out from SE to NW for 1,400 nautical miles in the north-central Pacific Ocean. Chapter 15. PACIFIC ISLANDS

The magic and suspense of Graceling meet the political intrigue and unrest of Game of Thrones in this riveting fantasy debut. Your greatest enemy isn't what you fight, but what you fear. Elizabeth Grey is one of the king's best witch hunters, devoted to rooting out witchcraft and doling out justice. But when she's accused of being a witch herself, Elizabeth is arrested and sentenced to burn at the stake. Salvation comes from a man she thought was her enemy. Nicholas Perevil, the most powerful and dangerous wizard in the kingdom, offers her a deal: he will save her from execution if she can break the deadly curse that's been laid upon him. But Nicholas and his followers know nothing of Elizabeth's witch hunting past--if they find out, the stake will be the least of her worries. And as she's thrust into the magical world of witches, ghosts, pirates, and one all-too-handsome healer, Elizabeth is forced to redefine her ideas of right and wrong, of friends and enemies, and of love and hate. Virginia Boecker weaves a riveting tale of magic, betrayal, and sacrifice in this unforgettable fantasy debut.

Rational exploitation and utilization of natural and environmental resources is more difficult in cross-border areas than in areas under the jurisdiction of a single authority. Moreover, cross-border resource management is constrained by the number of independent stakeholders involved. The primary reasons for this come from the uneven spatial distribution of production factors as well as the non-cooperative

cross-border mechanism resulting from two or more political regimes. Faced with cross-border pollution, policymakers tend to be shortsighted, emphasizing the direct costs and benefits of their own regional development at the expenses of their neighbors. In addition, research institutions and international donor agencies have not paid full attention to the problems common in cross-border areas. Consequently, cross-border area studies remain a marginalized, easily forgotten topic. The main objectives of this book are to clarify how natural and human systems interact in cross-border areas under conditions of uncertain, imperfect information and, in some circumstances, irreversibility; to identify and, where possible, quantify the various impacts of the 'border' on the environmental activities in cross-border areas; to evaluate the costs and benefits of cross-border cooperation in the exploitation and utilization of natural and environmental resources; and to recommend measures in improving national and international legal and regulatory mechanisms for resource exploitation and environmental protection in cross-border areas. * Examines various types of cross-border areas at both international and sub-national levels throughout the world as well as their geographical, political, economic and cultural influences on the cross-border resource management * Uses the latest international and area data, resulting in new findings for cross-border environmental activities * Contains numerous case studies throughout the world including in-depth case studies of cross-border resource management

In this captivating prequel to the New York Times bestsellers *The Cowboy* and *The Texan*, Joan Johnston tells the story of a woman kidnapped by Comanches—and the proud warrior who vows to make her love him. Living as a Comanche, the son of a white father and his Indian bride, Long Quiet secretly dreams of making Bayleigh Stewart, daughter of the richest cotton planter in Texas, his wife. When Bay is stolen from her home by marauding Indians, she seems lost to Long Quiet forever . . . until a twist of fate brings her back to him—a gift from the Comanche whose life he saved. Bay has lived among the Indians for three long years when a stranger who looks like a Comanche—but speaks perfect English—awakens a passion that burns hot and true. Bay yearns for home, but Long Quiet is determined to convince Bay that her home is with him. As they soon discover, they must both give up something of themselves while fighting for a love strong enough to bridge two worlds.

After a risky physics experiment transports the island University of Halcyon to a new world, engineer Dave Schuster and his fellow students struggle to survive in this alien, hostile environment. As tyrannical forces within the University use the catastrophe to strengthen their power and control, Dave encounters an even greater menace which threatens the very existence of their fledgling colony.

This title contains an Access Code along with instructions to access the Online Material. 23 years CAT Topic-wise Solved Papers (1994-2016) with 6 Online Practice Sets 10th edition is the thoroughly revised & enlarged edition. The book consists of past years solved papers of CAT from 1994 to 2016 distributed into 3 Units, which are further divided into 24 topics. The book contains more than 3000+ Milestone Problems for CAT with 1400+ in Quantitative Aptitude & Data Interpretation Unit (15 Topics) and 1600+ in Verbal Ability & Logical Reasoning Unit (9 Topics). The book provides detailed solutions to each and every question. Alternative solutions are provided at various places. The focus of the book is to provide shortcuts and techniques which are a must to Crack CAT. Finally the book provides 6 Online tests - 3 sectional and 3 Full Practice Sets based on the latest pattern with Solutions.

Considerable poverty and food insecurity in Ethiopia, combined with the overwhelming majority of Ethiopians who depend on agriculture for their livelihoods, make agricultural transformation a crucial development goal for the country. One promising improvement is to increase production of teff, the calorie- and nutrient-rich but low-yielding staple. *The Economics of Teff: Exploring Ethiopia's Biggest Cash Crop* examines key aspects of teff production, marketing, and consumption, with a focus on opportunities for and challenges to further growth. The authors identify ways to realize teff's potential, including improving productivity and resilience, selecting and scaling up new technologies, establishing distribution systems adapted to different areas' needs, managing labor demand and postharvest operations, and increasing access to larger and more diverse markets. The book's analysis and policy conclusions should be useful to policy makers, researchers, and others concerned with Ethiopia's economic development.

Lake Erie Fishing Guide Book Over 445 full 8 ½ x 11 sized pages of information with maps and aerial photographs available. Fishing information is included for ALL of the Ohio portion of Lake Erie listing types of fish for each area, average sizes, and exact locations with GPS coordinates and directions. Also included is fishing information and maps for most of the tributary streams and rivers. NEW NEW Now with a complete set of 36 full sized U.S.G.S. Topographical Maps for the entire area that normally cost from \$12.00 to \$14.00 each but are included on the disk for FREE. These maps are complete full sized 7.5 minute series quadrangle maps in 1:24,000 scale maps. Contains complete information on CHAPTER 1 SHORELINE ACCESS IN THE WESTERN BASIN: All of the areas open to the public from Toledo to Sandusky Bay. CHAPTER 2 PRIVATE MARINAS AND ADDITIONAL SERVICES IN THE WESTERN BASIN: The complete list of all private marinas and the services they provide and directions to them. CHAPTER 3 WESTERN BASIN LAKE FISHING: All of the current information on fishing in the Western Basin along the shoreline and around the reefs and islands in the lake from Toledo Ohio east to Sandusky, Ohio. CHAPTER 4 SHORELINE ACCESS AROUND THE LAKE ERIE ISLANDS All of the areas open to the public on all of the Lake Erie Islands CHAPTER 5 FISHING IN SANDUSKY BAY: Boat and shoreline fishing in the Bay. CHAPTER 6 PRIVATE MARINAS AND ADDITIONAL SERVICES IN SANDUSKY BAY: The complete list of all private marinas and the services they provide and directions to them. CHAPTER 7 SHORELINE ACCESS IN THE CENTRAL BASIN: All of the areas open to the public from Vermillion and east to Painesville Ohio. CHAPTER 8 PRIVATE MARINAS AND ADDITIONAL SERVICES IN THE CENTRAL BASIN: The complete list of all private marinas in the central basin area and the services they provide and directions to them. CHAPTER 9 SHORELINE ACCESS ON THE EASTERN PART OF LAKE ERIE: Access areas on the lake from Painesville and east to the Pennsylvania State Line east of Conneaut. CHAPTER 10 CENTRAL BASIN LAKE FISHING: All of the current information on fishing in the Central Basin along the shoreline, and out in the lake from Huron Ohio east to Conneaut Ohio.

COAST PILOT 3 by NOAA. 2016 - 2017. .Edition 49..SANDY HOOK to CAPE HENRY. The included code links to the free app which links to charts, aerial photos, embedded videos, every marina, email support group, all port authorities, the wind charts, every anchorage, worldwide harbors, the tides, engine troubleshooting, all the weather, local knowledge, every dive site, every seabird, every pelagic fish, how to catch fish, animated knots, tips, suggested itineraries, the nav rules, the ocean currents, all safety information, USCG, outboard engines, vessel traffic services, the radio frequencies, videos, every dock, every fuel supply, food, restaurants & supermarkets, every lighthouse, repairs, marine parks, general knowledge, your safety & security, sightseeing, the dive sites, all necessary books, USCG accident reports, safety check, Facebook group, Pinterest, Instagram, the nightlife, Crewfinder, Tumblr, Scuttlebutt, Snapchat group, Tripadvisor, environmental issues, all warnings, Chatbot, Live cams, Livestream, Events, Regulations, Wikipedia, put up your photos & videos, email group, Cruisers Forum, BoatBuzz, Top 20 sailing blogs, Links to all Gov agencies, official alerts & warnings and more... + Your screen can become a full screen weather radar. + See the surrounding ships in real time on your screen with a link to AIS. + View updated charts using online chart viewer. + Before departure download and print current charts in booklet form. With the suspicious death of Tad Halston, Detective Darek Blake finds walking the line between NYPD detective and Zodiac member a more daunting task than ever. Hannah Halston, Tad's sister, refuses to believe the official story that her brother went on a vengeful killing spree. She's doing her best to clear his name, which brings Darek's partner, Special Agent Lizzy McNamara, even closer to his criminal past. Meanwhile, whoever is targeting the Zodiacs has their sights on Logan Miller. His life is complicated enough already, with his struggling career and bitter relationship with an older woman, but when he meets Hannah Halston at her brother's funeral, lending a sympathetic shoulder turns into so much more. He's determined to end things with the older woman until she tells him she's dying. Stuck between a rock and hard place, does he continue his relationship, or go where his heart tells him? Will the killer choose for him? Sometimes everything that you want is right in front of you Kelly has always been a wild child. She travels the world partying, competing in sports and hooking up – and not necessarily in that order. She's never had an interest in living in one place, having a steady boyfriend, or getting a job. Until she meets a guy who changes her mind about everything. Of course, Kelly has her band of college friends that compel her to keep coming back to Silicon Valley; dubbed The Princesses from their freshman year Halloween costumes. This is a stand-alone book, but much more fun if read along with the other Princess stories.

In this breathtaking novel, New York Times bestselling author Joan Johnston weaves a beguiling tale of two feuding families—the Blackthornes and the Creeds—and of two extraordinary people: loner Owen Blackthorne and beautiful, headstrong Bayleigh Creed, irresistibly drawn to each other despite the desperate odds against their love. Owen Blackthorne is a lone wolf, a man who doesn't need anyone. Then Bayleigh Creed appears on his doorstep, demanding his help in locating her missing brother. Together they head into the desolate West Texas wilderness, a Blackthorne and a Creed, mortal enemies obliged to join forces to survive. Neither counts on the unwanted attraction that draws them together, or the bitter truths that will force them apart—until the ruthless wilderness compels them to make life-and-death choices between family and duty and love.

There is a small and growing literature that explores the impact of digitization in a variety of contexts, but its economic consequences, surprisingly, remain poorly understood. This volume aims to set the agenda for research in the economics of digitization, with each chapter identifying a promising area of research. Economics of Digitization identifies urgent topics with research already underway that warrant further exploration from economists. In addition to the growing importance of digitization itself, digital technologies have some features that suggest that many well-studied economic models may not apply and, indeed, so many aspects of the digital economy throw normal economics in a loop. Economics of Digitization will be one of the first to focus on the economic implications of digitization and to bring together leading scholars in the economics of digitization to explore emerging research.

Edition 49 for 2017. This book contains the 2017 text from the official U.S. Coast Pilot. It also contains masses of extra information accessible by using a code embedded in the print book. The app links to charts, aerial photos, embedded videos, every marina, email support group, all port authorities, the wind charts, every anchorage, worldwide harbors, the tides, engine troubleshooting, all the weather, local knowledge, every dive site, every seabird, every pelagic fish, how to catch fish, animated knots, tips, Cruisers Forum, suggested itineraries, the nav rules, the ocean currents, all safety information, USCG, outboard engines, vessel traffic services, the radio frequencies, videos, every dock, every fuel supply, food, restaurants & supermarkets, every lighthouse, repairs, marine parks, general knowledge, your safety & security, sightseeing, the dive sites, all necessary books, USCG accident reports, safety check, Facebook group, Pinterest, Instagram, the nightlife, Crewfinder, Tumblr, Scuttlebutt, Snapchat group, Tripadvisor, environmental issues, all warnings, Chatbot, Live cams, Livestream, Events, Regulations, Wikipedia, put up your photos & videos, email group, Cruisers Forum, BoatBuzz, Top 20 sailing blogs, Links to all Gov agencies, official alerts & warnings and more... +The app on your phone, tablet and computer ready for any situation. + Link to First Aid and Sea Survival. + Phone and email out of the app. + Your screen can become a full screen weather radar. + See the surrounding ships in real time on your screen with a link to AIS. + View updated charts using online chart viewer. + Before departure download and print current charts in booklet form. Principles of Microeconomics for AP Courses

This edited collection explores key human rights themes and situates them in the context of developments on the African continent. It examines critical debates in human rights bringing together conceptually and empirically rich contributions from leading thinkers in human rights and African studies. Drawing on scholarly insights from the fields of constitutional law, human rights, development, feminist studies, public health, and media studies, the volume contributes to scholarly debates on constitutionalism, the right to water, securitization of development, environmental and transitional justice, sexual rights, conflict and gender-based violence, the right to development, and China's deepening role in Africa. Consequently, it makes an important scholarly intervention on timely issues pertaining to the African continent and beyond.

Just how did he do it? How did Pierre LeMoyne d'Iberville—alone, outgunned, and outnumbered—defy what should have been a rout for the English! Instead, he sinks a Royal Navy vessel with all hands onboard, captures a second ship, and chases off a third! Few Canadians know of this classic 17th century encounter on Hudson Bay. How did geography, distance, and a final ironic historical twist of fate leave everyone shaking their heads in disbelief, make tatters of his victory, and deny Iberville super hero status in France? All the answers to these and other life-altering questions are explained through the eyes and experiences of two twelve-year-old boys on opposite sides of this epic battle.

- For M.Com., MBA, MFC, MBE, M.A(Eco.),MCA, B.Com(H), B.Com(P),B.A.(H)Eco,BBA,BBS,BBE, B.A., etc. of all Indian Universities. Also for CA., ICWA, IAS, and other Equivalent Competitive Examinations.
- Presents a clear, simple, systematic and comprehensive exposition of the methods, principles and techniques of statistics in various disciplines with special reference of commerce, management, economics and business.
- A large number of solved (about 1500) problems and unsolved (nearly 3000) problems have been included to enable the user of statistical techniques and methods in commerce, economics, management and other related areas.

Globally, deltas often contain major oil and gas reservoirs. The geometry, size, and internal architecture of deltas are functions of many variables related to the delta's mode of formation. A tripartite classification of deltas, into river-, wave-, and tide-dominated deltas, has been a standard for many years. However, even within each of these delta types, the distribution of properties can vary considerably depending on the delta's depositional history and the relative influence of rivers, waves, and tides. With regard to reservoir performance and optimization, perhaps the most significant difference in delta properties is in orientation and continuity of sand (reservoir) and shale (barrier) trends. Reservoir quality also varies according to the facies within the delta. To maximize hydrocarbon production, it is not sufficient to merely classify the reservoir as a delta. A complete understanding of the characteristics and variations of an individual delta's reservoir is required for proper well placement and reservoir management.

Through a series of recent breakthroughs, deep learning has boosted the entire field of machine learning. Now, even programmers who know close to nothing about this technology can use simple, efficient tools to implement programs capable of learning from data. This practical book shows you how. By using concrete examples, minimal theory, and two production-ready Python frameworks—Scikit-Learn and TensorFlow—author Aurélien Géron helps you gain an intuitive understanding of the concepts and tools for building intelligent systems. You'll learn a range of techniques, starting with simple linear regression and progressing to deep neural networks. With exercises in each chapter to help you apply what you've learned, all you need is programming experience to get started. Explore the machine learning landscape, particularly neural nets Use Scikit-Learn to track an example machine-learning project end-to-end Explore several training models, including support vector machines, decision trees, random forests, and ensemble methods Use the TensorFlow library to build and train neural nets Dive into neural net architectures, including convolutional nets, recurrent nets, and deep reinforcement learning Learn techniques for training and scaling deep neural nets

Principles of Microeconomics for AP(R) Courses covers scope and sequence requirements for an Advanced Placement(R) microeconomics course and is listed on the College Board's AP(R) example textbook list. The text includes many current examples, which are presented in a politically equitable way. The outcome is a balanced approach to the theory and application of economics concepts. The images in this textbook are grayscale. Advanced Placement(R) and AP(R) are trademarks registered and/or owned by the College Board, which was not involved in the production of, and does not endorse, this product.

- Connects the metaphor of home that runs through the stories of our faith – the Prodigal Son, the Son of Man has nowhere to call home, heaven as home – with the deep desire to belong and to feel wanted
- Author of Keeping the Feast turns discussions about food and faith into what it means to live in community, to create home, and to feel at home

The author writes, "One of the characters in Robert Frost's 'Death of a Hired Man' says, 'Home is that place where, when you go there, they have to let you in.' I have found that place in my marriage, around our dining room table for Thursday Night Dinners, with friends who have helped me make a mosaic out of the shards of my fractured past. Home, for me, means to belong, to feel wanted."

The latest entry in the multiple New York Times best-selling Ring of Fire series created by Eric Flint. After carving a free state for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia go on a quest for the makings of medicines that have yet to be invented in 17th century Europe. The United States of Europe, the new nation formed by an alliance between the Swedish king Gustavus Adolphus and the West Virginians hurled back in time by a cosmic accident—the Ring of Fire—is beset by enemies on all sides. The U.S.E. needs a reliable source of opiates for those

wounded in action, as well as other goods not available in Europe. The Prime Minister of the U.S.E., Mike Stearns, sends a mission to the Mughal Empire of India with the aim of securing a trade deal with the Mughal emperor, Shah Jahan. The mission consists of a mixed group of up-timers and down-timers, including paramedics, a squad of soldiers with railroad-building experience, a spy and a pair of swindlers. On reaching India the mission finds a grieving emperor obsessed with building the Taj Mahal, harem-bound princesses, warrior princes, and an Afghan adventurer embroiled in the many plots of the Mughal court. The emperor's sons are plotting against each other and war is brewing with the newly risen Sikh faith. But in the midst of these intrigues, the U.S.E. mission finds an ally: the brilliant and beautiful Jahanara Begum, the eldest daughter of Shah Jahan. She is the mistress of her father's harem and a power in her own right, who wishes to learn more of these women who are free in a way she can scarcely comprehend. When the Emperor learns of what befalls his empire and children in the time that was, he makes every effort to change their fate. But emperors, princesses, and princes are no more immune to the inexorable waves of change created by the Ring of Fire than are the Americans themselves. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Eric Flint's groundbreaking Ring of Fire series: "This alternate history series is . . . a landmark..."—Booklist About Eric Flint's best-selling Jao Empire series coauthored with K.D. Wentworth and David Carrico: "The action is fast and furious . . . a triumphant story . . ."—The Midwest Book Review "Building to an exhilarating conclusion, this book cries out for a sequel."—Publishers Weekly About Eric Flint's Boundary series, coauthored with Ryk E. Spoor: ". . . fast-paced sci-fi espionage thriller . . . light in tone and hard on science . . ." —Publishers Weekly on Boundary "The whole crew from Flint and Spoor's Boundary are back . . . Tensions run high throughout the Ceres mission . . . a fine choice for any collection." —Publishers Weekly on Threshold "[P]aleontology, engineering, and space flight, puzzles in linguistics, biology, physics, and evolution further the story, as well as wacky humor, academic rivalries, and even some sweet romances." —School Library Journal on Boundary

Being a suspect in a murder case never happens at a good time, but for Capricorn, Tad Halston, a recovering addict and former male escort who is on the verge of reclaiming his place as an in-demand male model, the timing couldn't be worse. With bodies piling up and more evidence pointing to him for the murders, the last thing he needs is a series of anonymous messages demanding he make the next kill for vengeance. Can he murder the uncle who abused him and sent his life hurtling down this dark path, or will his sister become the real killer's next victim? For Tad, time is running out. Now that Darek Blake has hired Bay "The Slayer" Collins as his divorce attorney, he realizes the man's help will come at a much higher price. Becoming an informant was never part of the deal, but with new evidence hitting too close to home, Darek is left with no other choice. With the killer targeting Darek's old friends, he has to decide which side is most important, his role as a detective, or his past as part of the Zodiac Society. Jim O'Brien lived a hard life. He had to bury his father, his mother, his step-mother, his two sisters his 2 brothers and his one brother, Bob, goes missing and was presumed to be dead. Bob "comes back from the dead" 30 years later, a millionaire. About 15 years later he was found dead in his penthouse. No investigation was ever done. At his funeral, there was a closed coffin. Questions upon questions were asked by his next of kin. His nieces; who were minors; and their mom; sick, and was unable to help. Cousin Sal was there to help Betsy and the girls. What is the true story behind this? Who was he really helping? What really happened? Not a picture to remember him by. Nothing! Sal and his family spoke the good word, but did they do the devil's deed? Was it a conspiracy to cover up millions of dollars? Leaving the next of kin without anything, just questions that led to more questions, without answers. Read what the family discovered about Uncle Bob's money, which led to the final question... What really happened to Uncle Bob? You be the judge.
