Since Donald Trump's first day in office, a large and energetic grassroots "Resistance" has taken to the streets to protest his administration's plans for the United States. Millions marched in pussy hats on the day after the inauguration; outraged citizens flocked to airports to declare that America must be open to immigrants; masses of demonstrators circled the White House to demand action on climate change; and that was only the beginning. Who are the millions of people marching against the Trump administration, how are they connected to the Blue Wave that washed over the U.S. Congress in 2018—and what does it all mean for the future of American democracy? American Resistance traces activists from the streets back to the communities and congressional districts around the country where they live, work, and vote. Using innovative survey data and interviews with key players, Dana R. Fisher analyzes how Resistance groups have channeled outrage into activism, using distributed organizing to make activism possible by anyone from anywhere, whenever and wherever it is needed most. Beginning with the first Women's March and following the movement through the 2018 midterms, Fisher demonstrates how the energy and enthusiasm of the Resistance paid off in a wave of Democratic victories. She reveals how the Left rebounded from the devastating 2016 election, the lessons for turning grassroots passion into electoral gains, and what comes next. American Resistance explains the organizing that is revitalizing democracy to counter Trump's presidency.

'A landmark in the process of decolonizing imperial Western knowledge.' Walter D. Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

Celebrating the Arthur Miller centennial year, an eye-catching new Penguin Plays edition of the work that established him as a leading voice in the American theater In 1947, Arthur Miller exploded onto Broadway with his first major work, All My Sons, winning both the New York Drama Critics' Circle Award for Best New Play and the Tony for Best Author. The play introduced themes that would preoccupy Miller throughout his career: the relationships between fathers and sons and the

conflict between business and personal ethics. This striking new edition adds *All My Sons* to the elegant Penguin Plays series—now in beautifully redesigned covers. Joe Keller and Steve Deever, partners in a machine shop during World War II, turned out defective airplane parts, causing the deaths of many men. Deever was sent to prison while Keller escaped punishment and went back to business, making himself very wealthy in the ensuing years. A love affair between Keller's son, Chris, and Ann Deever, Steve's daughter; the bitterness of George Deever, who returns from the war to find his father in prison and his father's partner free; and the reaction of Chris Keller to his father's guilt escalate toward a climax of electrifying intensity.

The Navajo Nation court system is the largest and most established tribal legal system in the world. Since the landmark 1959 U.S. Supreme Court decision in *Williams v. Lee* that affirmed tribal court authority over reservation-based claims, the Navajo Nation has been at the vanguard of a far-reaching, transformative jurisprudential movement among Indian tribes in North America and indigenous peoples around the world to retrieve and use traditional values to address contemporary legal issues. A justice on the Navajo Nation Supreme Court for sixteen years, Justice Raymond D. Austin has been deeply involved in the movement to develop tribal courts and tribal law as effective means of modern self-government. He has written foundational opinions that have established Navajo common law and, throughout his legal career, has recognized the benefit of tribal customs and traditions as tools of restorative justice. In *Navajo Courts and Navajo Common Law*, Justice Austin considers the history and implications of how the Navajo Nation courts apply foundational Navajo doctrines to modern legal issues. He explains key Navajo foundational concepts like *Hózhó* (harmony), *K'é* (peacefulness and solidarity), and *K'éí* (kinship) both within the Navajo cultural context and, using the case method of legal analysis, as they are adapted and applied by Navajo judges in virtually every important area of legal life in the tribe. In addition to detailed case studies, Justice Austin provides a broad view of tribal law, documenting the development of tribal courts as important institutions of indigenous self-governance and outlining how other indigenous peoples, both in North America and elsewhere around the world, can draw on traditional precepts to achieve self-determination and self-government, solve community problems, and control their own futures.

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times *Angela Davis* provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many

women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

This Book describes the application of the Conception of Reality uncovered by the author in that the vyvaharika mode (the living Reality) consists of guna-consciousness in sattvic, rajasic and tamasic attributes that explains the interactions between all living beings on the planet and the way to live is to navigate oneself through this complexity to arrive at the destination of liberty and peace of mind that generates 'ananda'. The Book elaborates this by describing the author's personal experiences of living his life within the Constitution of the United Kingdom. The book details the experiences of the author in navigating Nature that he describes as being Brahma-Nature generating interactions through which living beings have to chart their way towards survival and prosperity in liberty.

In a shocking, never-before-told story from the vaults of American history, *Tonight We Bombed the US Capitol* takes a close look at the explosive hidden history of M19--the first and only domestic terrorist group founded and led by women--and their violent fight against racism, sexism, and what they viewed as Ronald Reagan's imperialistic vision for America. In 1981, President Ronald Reagan announced that it was "morning in America." He declared that the American dream wasn't over, but the United States needed to lower taxes, shrink government control, and flex its military muscles abroad to herald what some called "the Reagan Revolution." At the same time, a tiny band of American-born, well-educated extremists were working for a very different kind of revolution. By the end of the 1970s, many radicals had called it quits, but six veteran women extremists came together to finish the fight. These women had spent their entire adult lives embroiled in political struggles: protesting the Vietnam War, fighting for black and Native American liberation, and confronting US imperialism. They created a new organization to wage their war: The May 19th Communist Organization, or "M19," a name derived from the birthday shared by Malcolm X and Ho Chi Minh, two of their revolutionary idols. Together, these six women carried out some of the most daring operations in the history of domestic terrorism--from prison breakouts and murderous armed robberies, to a bombing campaign that wreaked havoc on the nation's capital. Three decades later, M19's actions and shocking tactics still reverberate for many reasons, but one truly sets them apart: unlike any other American terrorist group before or since, M19 was created and led by women. *Tonight We Bombed the US Capitol* tells the full story of M19 for the first time, alongside original photos and declassified FBI documents. Through the group's history, intelligence and counterterrorism expert William Rosenau helps us understand

how homegrown extremism--a threat that still looms over us today--is born.

This Book describes the conception of the eternal law of the vyavarika reality in that one charts needs to chart one's future nonchalantly, spontaneously and unpremeditatedly each moment of the day without aims, objectives, missions, anticipations, expectations, desires, and relinquishing all other attachments including ones ego to do ones work or actions as karma in sanatan dharma, the idea being that if in this manner the person finds his destiny in accordance with the perception that one is accepting the Reality that one faces, one is surrendering to Sri Krishna and thereby conducting santan dharma that is the basis of Hinduism, for that is realised from the proof finally that Dharma Rakshati Rakshita and Satyamev Jayate. The author provides the religious/spiritual framework for actions that are necessarily applications within the Conception of Reality enunciated by the author.

In 1867 forty Irish-Americans sailed for Ireland to fight against British rule. Claiming that emigrants to America remained British citizens, authorities arrested the men for treason, sparking a crisis and trial that dragged the U.S. and Britain to the brink of war. Lucy Salyer recounts this gripping tale, a prelude to today's immigration battles.

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

First published in 1971, *Rules for Radicals* is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know “the difference between being a realistic radical and being a rhetorical one.” Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on

rational political discourse and adherence to the American democratic tradition.

Governor General Charles Poulett Thomson is in a hurry. In response to the Rebellion of 1837-38, he has been urgently tasked by his masters in England to modernize and improve the governments in the Canadian colonies. In just three months in Toronto, the governor general has managed to pass all the legislation he wants, but with politics heating up in Quebec and his bosses in England dangling a peerage over his head, now he must get to Montreal as fast as he can to do the same thing there. Enter "The Stagecoach King," William Weller, who is famous for operating the Royal Mail Line of stages between Toronto and Montreal. Weller utilizes a complex system of stage stops staffed with experienced workers and is confident he can take the governor general to Montreal in under thirty-eight hours. Driving a very unique sleigh, specially modified for this trip, Weller pilots the governor general and his aid-de-camp Captain Thomas Le Marchant over 370 miles of snowy and muddy roads, avoiding dangerous obstacles and constantly moving forward. In a meticulously researched account of this epic trek, author Dan Buchanan brings the reader along on a breathlessly exciting journey that intricately explores Canadian history through the people, places, and buildings that existed along those treacherous roads in 1840.

This book is the first national history of the building of some of Ireland's most important historic public buildings. Focusing on the former assize courthouses and county gaols, it tells a political history of how they were built, who paid for them, and the effects they had on urban development in Ireland. Using extensive archival sources, it delves in unprecedented detail into the politics and personalities of county grand jurors, Protestant landed society, government prison inspectors, charities, architects, and engineers, who together oversaw a wave of courthouse and prison construction in Ireland in an era of turbulent domestic and international change. It investigates the extent to which these buildings can be seen as the legacy of the British or imperial state, especially after the Act of Union, and thus contributes to ongoing debates within post-colonial studies regarding the built environment. Richly illustrated with over 300 historic drawings, photographs and maps, this book analyses how and why these historic buildings came to exist. It discusses crime, violence and political and agrarian unrest in Ireland during the years when Protestant elites commissioned such extensive new public architecture. The book will be of interest to academic and popular audiences curious to learn more about Irish politics, culture, society and especially its rich architectural heritage.

It was the most brutal murder in the history of Coffey County, Kansas. On May 30, 1925, Florence Knoblock, a farmer's wife and the mother of a young boy, was found slaughtered on her kitchen floor. Several innocent men were taken into custody before the victim's husband, John, was accused of the crime. He would endure two sensational trials before being acquitted. Eighty years later, local historian Diana Staresinic-Deane studied the investigation, which was doomed by destroyed evidence, inexperienced lawmen, disappearing witnesses, and a community more desperate for an arrest than justice. She would also discover a witness who may have seen the murderer that fateful morning.

In 2015, New Madrid County Missouri celebrated its courthouse centennial. To mark the occasion, the classical Greek revival courthouse gained a spruced-up stained glass dome over the rotunda, a resurrected 1821 County Seal, new portraits of founding fathers, festive banners surrounding the building and branching down Main Street, and special events for the citizens. This book recounts tales, old and new, of the courthouse. The reader begins in the frontier world of early judges sitting in unheated or stifling log cabins as they sort out justice and bring the law to a wilderness area. Hear how in the old days, the all-male jurors were sequestered in the attic overnight. A sheriff tells how he reluctantly hung two men convicted of murder. He had to do it; he had

asked for the office. One official found himself running for office against his own son. This story made news all around the state. Come inside the distinguished courthouse building today, as county officials talk candidly about their current roles as well as recall a few tall tales.

"The author of *The Butler* presents a revelatory biography of the first African-American Supreme Court justice--one of the giants of the civil rights movement, and one of the most transforming Supreme Court justices of the 20th century, "--Novelist.

Acts and Monuments by John Foxe, popularly abridged as *Foxe's Book of Martyrs*, is a celebrated work of church history and martyrology, first published in English in 1563 by John Day. Published early in the reign of Queen Elizabeth I and only five years after the death of the Roman Catholic Queen Mary I, Foxe's *Acts and Monuments* was an affirmation of the Protestant Reformation in England during a period of religious conflict between Catholics and Protestants. Foxe's account of church history asserted a historical justification that was intended to establish the Church of England as a continuation of the true Christian church rather than as a modern innovation, and it contributed significantly to a nationalistic repudiation of the Roman Catholic Church. The sequence of the work, initially in five books, covered first early Christian martyrs, a brief history of the medieval church, including the Inquisitions, and a history of the Wycliffite or Lollard movement. It then dealt with the reigns of Henry VIII and Edward VI, during which the dispute with Rome had led to the separation of the English Church from papal authority and the issuance of the Book of Common Prayer. The final book treated the reign of Queen Mary and the Marian Persecutions. (courtesy of wikipedia.com)

The Civil War placed the U.S. Constitution under unprecedented--and, to this day, still unmatched--strain. Neely examines for the first time in one book the U.S. Constitution and its often overlooked cousin, the Confederate Constitution, and the ways the documents shaped the struggle for national survival.

About the practices and politics of place and identity formation – the slippery ways in which who we are becomes wrapped up with where we are – this book exposes the relations of place to power. It links everyday aspects of place experience to the social theories of Deleuze and Bourdieu in a very readable manner. This is a book that takes the social critique of built form another step through detailed fieldwork and analysis in particular case studies. Through a broad range of case studies from nationalist monuments and new urbanist suburbs to urban laneways and avant garde interiors, questions are explored such as: What is neighborhood character? How do squatter settlements work and does it matter what they look like? Can architecture liberate? How do monuments and public spaces shape or stabilize national identity?

Roland Smith makes his Scholastic debut with a middle-grade adventure novel about the search for a mysterious creature--the giant squid--in this sequel to *CRYPTID HUNTERS*. Marty and Grace O'Hara's globe-trotting parents

disappeared while on assignment for a nature magazine, and now they're living with their Uncle Wolfe, a scientist fascinated by cryptids--creatures that appear in myths but haven't been proven to exist, such as the Loch Ness Monster. Wolfe is planning an expedition to New Zealand to track a giant squid, and he's rented a huge (and possibly haunted) freighter for the trip. But someone on board is determined to sabotage their mission--and if Marty and Grace keep poking their noses into things, they might end up the saboteur's next victims!

Resilient Downtowns provides a guide to communities in reviving and redeveloping their core districts into resilient, thriving neighborhoods. While the National Main Street program's four-point approach of organization, promotion, economic restructuring, and design has been standard practice for cities seeking to rejuvenate their downtowns for decades there is disquiet among downtown managers and civic leaders about the versatility of the program. Resilient Downtowns provides communities with the "en-RICHED" approach, a four-step process for downtown development, which focuses on residential development, immigration strategies, civic functionality, heritage tourism, and good design practice. Examples from fourteen small cities across the US show how this process can revitalize downtowns in any city. From celebrated storyteller "Sean of the South" comes an unforgettable memoir of love, loss, the friction of family memories, and the unlikely hope that you're gonna be alright. Sean Dietrich was twelve years old when he scattered his father's ashes from the mountain range. His father was a man who lived for baseball, a steel worker with a ready wink, who once scaled a fifty-foot tree just to hang a tire swing for his son. He was also the stranger who tried to kidnap and kill Sean's mother before pulling the trigger on himself. He was a childhood hero, now reduced to a man in a box. Will the Circle Be Unbroken? is the story of what happens after the unthinkable, and the journey we all must make in finding the courage to stop the cycles of the past from laying claim to our future. Sean was a seventh-grade drop-out, a dishwasher then a construction worker to help his mother and sister scrape by, and a self-described "nobody with a sad story behind him." Yet he cannot deny the glimmers of life's goodness even amid its rough edges. Such goodness becomes even harder to deny when Sean meets the love of his life at a fried chicken church potluck, and harder still when his lifelong love of storytelling leads him to stages across the southeast, where he is known and loved as "Sean of the South." A story that will stay with you long after the final page, Will the Circle Be Unbroken? testifies to the strength that lives within us all to make our peace with the past and look to the future with renewed hope and wonder.

A guy walks into a bar car and... From here the story could take many turns. When this guy is David Sedaris, the

possibilities are endless, but the result is always the same: he will both delight you with twists of humor and intelligence and leave you deeply moved. Sedaris remembers his father's dinnertime attire (shirtsleeves and underpants), his first colonoscopy (remarkably pleasant), and the time he considered buying the skeleton of a murdered Pygmy. With *Let's Explore Diabetes with Owls*, David Sedaris shows once again why his work has been called "hilarious, elegant, and surprisingly moving" (Washington Post).

50th Anniversary Edition With a New Preface and Two Bonus Essays The most influential critique of psychiatry ever written, Thomas Szasz's classic book revolutionized thinking about the nature of the psychiatric profession and the moral implications of its practices. By diagnosing unwanted behavior as mental illness, psychiatrists, Szasz argues, absolve individuals of responsibility for their actions and instead blame their alleged illness. He also critiques Freudian psychology as a pseudoscience and warns against the dangerous overreach of psychiatry into all aspects of modern life.

This book remembers one hundred years since Black Wall Street and it reflects on the 1921 Tulsa Race Massacre. Black Wall Street was the most successful Black business district in the United States; yet, it was isolated from the blooming white oil town of Tulsa, Oklahoma, because of racism. During the early twentieth century African-Americans lived in the constant threat of extreme violence by white supremacy, lynching, and Jim and Jane Crow laws. The text explores, through a Womanist lens, the moral dilemma of Black ontology and the existential crisis of living in America as equal human beings to white Americans. This prosperous Black business district and residential community was lynched by white terror, hate, jealousy, and hegemonic power, using unjust laws and a legally sanctioned white mob. Terrorism operated historically based on the lies of Black inferiority with the support of law and white supremacy. Today this same precedence continues to terrorize the life experiences of African-Americans. The research examines Native Americans and African-Americans, the Black migration west, the role of religion, Black women's contributions, lynching, and the continued resilience of Black Americans.
