The Individuals with Disabilities Education Act (IDEA) of 2004 has placed a renewed emphasis on the importance of the regular classroom, the regular classroom teacher and the general curriculum as the primary focus of special education. This book contains over 100 topics that deal with real issues and concerns regarding the regular classroom and the special education process. These concerns range from requirements for referring a child for an individual evaluation, school discipline, classroom-based assessment, IEP meetings, inclusion and mainstreaming, and various legal requirements relating to IDEA, Section 504 of the Rehabilitation Act of 1973, and the No Child Left Behind act. It stresses the importance that every child with a disability must have goals to enable the child to be involved in and make progress in the general education curriculum. Other issues interspersed within this text include classroom needs, the planning of individualized education programs, and participation in all aspects of the general curriculum. In order to achieve these goals, support for the regular classroom teacher must be provided so that children with disabilities can be involved in, and make progress in, the curriculum and participate in nonacademic activities."

The NYSTCE pedagogical exams are designed according to the Constructivist Learning Theory. Although many teachers have studied aspects of Constructivism in their college programs, including Piaget, Bloom, Vygotsky and Gardner, the connection between these theorists is not always clarified. This book teaches you the correct approach for deconstructing the questions on the exam in order to pick the correct answer. This study guide is designed to help prospective teachers understand this theory and how it applies to learning. The strategies are easy to understand and are the key to passing these State exams. The book covers strategies for decoding the questions and outlines for writing a strong essay as well as common mistakes that teachers make when taking the exams. This time, pass the exam!
