**#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK** The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease.

"Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to

be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Well known for his sketches, paintings, and sculptures of the Old West, Charles M. Russell (1864-1926) was also an accomplished author in the humorous genre known as "local color." Raphael Cristy sorts Russell's writings into four general categories: serious Indian stories, men encountering wildlife, cattle range characters, and nineteenth-century westerners facing twentieth-century challenges. Russell's art is often misinterpreted as mere longing for a fading open-range west, but his writings tell a different story. Cristy shows how Russell amused his peers with stories that also delivered sharp observations of Euro-American suppression of Indians and humorous treatment of wilderness and range issues plus the emergence of women and urbanization as bewildering agents of change in the modern West. "A welcome departure from the usual biographies and coffee table volumes on Russell and his art. . . . [Cristy] deals with an important, yet relatively unexplored, aspect of the career of one of the most influential interpreters of the American West."--Byron Price, Director, C. M. Russell Center for the Study of Art

This 1921 volume offers a collection of works by the prolific poet and journalist, including "The

Comprising contributions from Australia, China, Hong Kong, India, Indonesia, Malaysia, Philippines, Singapore and Vietnam, the collection addresses the diversity of learners in different national, cultural and teaching contexts. In doing so, it provides insights into historical and current trends in literature education, foregrounds specific issues and challenges in policymaking and implementation, presents practical matters concerning text selection, use of literature in the language classroom, innovative practices in literature education, and raises pressing and important questions about the nature, purpose and importance of literature education in global times.

In Paris's Père-Lachaise cemetery, Jim Morrison's graffiti-scrawled tombstone is a place of pilgrimage for local devotees, adolescent hedonists and wayward backpackers alike. Found dead in his bathtub aged only 27 having achieved worldwide stardom as lead singer of The Doors, Morrison was quickly immortalised amongst the rock and roll deity such as Hendrix and Joplin. In death, however, this debauched 'rock poet' remained more stubbornly enigmatic than ever. Who was the real Jim Morrison? Nihilist, egoist, shaman: he was a master of self-creation. A mosaic mythology of new-age hippy rhetoric, French poetry and Nietzschean symbolism obscured a man trapped by the mythology that he had so carefully constructed around himself. In this colourful and intimate biography, Dylan Jones strips bare the skin-tight leather suit of Jim Morrison's Lizard King persona, and offers a frank and honest appraisal of a much beloved and often-romanticised counter-cultural icon. Mr Mojo is littered with little-known anecdotes from fellow stars, spurned lovers and industry moguls. It is a refreshingly honest portrait of a self-indulgent artist with a penchant for pageantry

and public self-destruction.

The New York Times bestselling, darkly funny memoir of a young New Yorker's daring dual life—advertising art director by day, glitter-dripping drag queen and nightclub beauty-pageant hopeful by night—was a smash literary debut for Josh Kilmer-Purcell, now known for his popular PlanetGreen television series *The Fabulous Beekman Boys*. His story begins here—before the homemade goat milk soaps and hand-gathered honeys, before his memoir of the city mouse's move to the country, *The Bucolic Plague*—in *I Am Not Myself These Days*, with “plenty of dishy anecdotes and moments of tragi-camp delight” (*Washington Post*).

Nations are built by narrating their past. Threads of common memories weave the fabric of the national culture, integrating the heterogeneous communities into the idea of a single nation. In multicultural societies, the process is a messy one. Different communities remember the past from perspectives that often clash with

each other. Multiple memories of a multicultural nation challenge the idea of a singular national identity and call for multiple forms of belonging. *Memory and Nation-Building* explores the contemporary images of World War II in Malaysian literature and the continuing significance of the conflict in the collective memory and nation-building in Malaysia. Given the multicultural nature of the nation, the War memories of Malaysia are multiple and often contradictory. In the contemporary Malaysian literature, these memories embody the search for a historical narrative that would accommodate the cultural and ethnic diversity of the country.

In *Sight Map* Brian Teare blends the speculative poetics of the San Francisco Renaissance with a postconfessional candor to embody the "open field" tradition of such poets as Robin Blaser and Robert Duncan. Teare provides us with poems that insist on the simultaneous physical embodiment of tactile pleasure—that which is found in the textures of thought and language—as well as the action of syntax. Partly informed by an ecological imagination that leads him back to Emerson and Thoreau, Teare's method and fragmented style are nevertheless up to the moment. Remarkable in its range, *Sight Map* serves at once as a cross-country travelogue, a pilgrim's gnostic progress, an improvised field guide, and a postmodern "pillowbook," recording the erotic conflation of

lover and beloved, deity and doubter.

Bang. Of course, Batman, Jim Morrison and the sharp-shooting Doc Holliday. But who is the real Val Kilmer? With *I'm Your Huckleberry*—published ahead of next summer's highly anticipated sequel *Top Gun: Maverick*, in which Kilmer returns to the big screen as Tom "Iceman" Kazansky—the enigmatic actor at last steps out of character and reveals his true self. In this uniquely assembled memoir—featuring vivid prose, snippets of poetry and rarely-seen photos—Kilmer reflects on his acclaimed career, including becoming the youngest actor ever admitted to the Juilliard School's famed drama department, determinedly campaigning to win the lead part in *The Doors*, and realizing a years-long dream of performing a one-man show as his hero Mark Twain. He shares candid stories of working with screen legends Marlon Brando, Tom Cruise, Robert Downey Jr. and Robert De Niro, and recounts high-profile romances with Cher, Cindy Crawford, Daryl Hannah, and former wife Joanne Whalley. He chronicles his spiritual journey and lifelong belief in Christian Science, and describes travels to far-flung locales such as a scarcely inhabited island in the Indian Ocean where he suffered from delirium and was cared for by the resident tribe. And he reveals details of his recent throat cancer diagnosis and recovery—about which he has disclosed little until now. While containing plenty of tantalizing celebrity anecdotes, *I'm Your Huckleberry*—taken from the famous line Kilmer delivers as

Holliday in Tombstone—is ultimately a singularly written and deeply moving reflection on mortality and the mysteries of life.

From Thomas Jefferson to John Rawls, justice has been at the center of America's self-image and national creed. At the same time, for many of its peoples—from African slaves and European immigrants to women and the poor—the American experience has been defined by injustice: oppression, disenfranchisement, violence, and prejudice. In *Identity and the Failure of America*, John Michael explores the contradictions between a mythic national identity promising justice to all and the realities of a divided, hierarchical, and frequently iniquitous history and social order. Through a series of insightful readings, Michael analyzes such cultural moments as the epic dramatization of the tension between individual ambition and communal complicity in *Moby-Dick*, "attempts to effect social change through sympathy in the novels of Lydia Marie Child and Harriet Beecher Stowe, Ralph Waldo Emerson's antislavery activism and Frederick Douglass's long fight for racial equity, and the divisive figures of John Brown and Nat Turner in American letters and memory. Focusing on exemplary instances when the nature of the United States as an essentially conflicted nation turned to force, Michael ultimately posits the development of a more cosmopolitan American identity, one that is more fully and justly imagined in response to the nation's ethical failings at home and abroad. John Michael is professor of English and of visual and cultural studies at the University of

Rochester. He is the author of *Anxious Intellectuals: Academic Professionals, Public Intellectuals, and Enlightenment Values* and *Emerson "and Skepticism: The Cipher of the World."*
