We all want to believe we can drive responsibly and monitor distractions. But our attention is limited by nature, and we are often very subtly distracted from noticing things right in front of us. Depending on what you're doing while you're driving, you could literally miss seeing a giraffe grazing on the roadside. Because of distractions, many people have failed to see a gorilla beating its chest right in front of them, and this is no joke. We really are not good multi-taskers when our attention is spread over tasks that require dedicated attention. That's why conversations on cellphones turn out to be a serious distraction to drivers. Read this book and see what you think. And then see what you think about whether it's fair to the rest of the people in your car or on the road when you allow yourself to be distracted in the special way that cellphones can distract.

But no! For every device designed to take the act of driving out of our hands, the desire to actively participate in the control of a car becomes even stronger for driving enthusiasts. The Structure of Digital Computing takes a fifty year perspective on computing and discusses what is significant, what is novel, what endures, and why it is all so confusing. The book tries to balance two point of views: digital computing as viewed from a business perspective, where the focus is on marketing and selling, and digital computing from a research perspective, where the focus is on developing fundamentally new technology.

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

In this revised and expanded edition of Bloodball, J. G. Van Tine probes the mind-set that dominates media sport. By uncovering covert games, tactics and payoffs, he redefines the hero worship that vaunts a tiny minority while luring the majority into conflicted passivity. As the sporting audience rarely glimpses those who run the corporations and own the teams, Bloodball attempts to ease this relation by revealing how and why the media disguise corporate control and power plays, among them the History Fob, Getting Wa-Wa, Branding, and Your Heart Belongs to Daddy.

Acclaim: "The language is understated, but quietly beautiful, and I find myself invested in Jabonkah as she's portrayed on the page, not only because of what happens to her, but because of her view of the world, sometimes sweet and sometimes shrewd, and always strong." Rebecca, agent "The story is compelling and the writing is extremely strong--some of the metaphors are wonderfully original. Moreover, the author manages to capture the child's voice perfectly." Valerie, professor Description: Jabonkah Sackey's only desire in life was to be like her mother and to be left alone. However, being born deep in the African bush in 1948, her desires didn't really matter. Cursed with an abusive father, Jabonkah was saddled with the plans he had for her. Instead of being a "stupid bush woman" like her mother, she was going to learn to obey. But after repeatedly disappointing and rebelling against her father, he sets forth on a rampage targeting her mother and nearly beats her to death. After stepping in to save her mother and scolding her father with boiling water in the skirmish, Jabonkah's fate is unfortunately sealed. She is sent to the Society as punishment, where women from her own tribe perform the ritual of female circumcision. Six weeks later, Jabonkah returns home to the continued beatings until she is eventually disowned and sent away to live with a missionary by the name of Mother

Stevens. Unfortunately, it's with Mother Stevens that her real struggle begins. Will Jabonkah escape the oppression and misery that is ruling her life, or will she succumb to her depression? Set against the harsh setting of mid-century Africa, *Driving the Birds* takes readers on a journey from small villages in Liberia to African missions, and eventually the United States. With this particular backdrop, Jabonkah's story brings many issues to light that affect countless women around the world. By documenting the horrible genital mutilation that she suffers in detail, *Driving the Birds* aims to bring about further awareness to an issue that is still prevalent today. Though the subject matter can be intense and discouraging at times, Jabonkah uses her faith and an uncommon personal resiliency to keep the story from setting into a despondent manner. With true personal freedom as her goal, Jabonkah is able to overcome numerous obstacles and a lifetime of hardships in route to achieving her dreams and ensuring her happiness. *Driving the Birds* by Russell Traugber is the uplifting true story of one woman's courageous journey from a small village in Liberia to the freedom that America offers. With unmistakable charm, unwavering determination, and a truly unique worldview, Jabonkah enthralls readers with each passing chapter. Her personal journey and repeated injustices are equal parts heartbreaking and infuriating. From repeated abuses at the hands of others and the subjection to female genital mutilation, Jabonkah's plight provides a window to the sufferings of less fortunate women around the world. However, where parts of her story enrage and discourage, it's her spirit and determination that ultimately leave readers feeling like they have taken part in Jabonkah's triumphs as well.

Vanderbilt explains why traffic jams form, outlines the unintended consequences of our attempts to engineer safety and even identifies the most common mistakes drivers make in parking lots. Based on exhaustive research and interviews with driving experts and traffic officials around the globe, Traffic gets under the hood of the quotidian activity of driving to uncover the surprisingly complex web of physical, psychological and technical factors that explain how traffic works.

'Feinstein's triumph is to write so well that she makes Lena's predicament not only moving, in a perfunctory dismissive way, but also painful ... [she has] an accurate and acute feeling for language, and pauses, and silence.' Guardian Lena's seemingly contented family life is coming apart at the seams. Her husband Ben has been having an affair with the au pair, and as their relationship slides he retreats more and more into his work in a science lab. Sons Alan and Michael may appear happy enough, but this is far from the case - both are responding to a physical world which they alone inhabit. And Lena - desperately lost and seeking an identity of her own, both inside and outside of her family unit - increasingly finds solace at the bottom of a bottle. An exploration of just how lonely - and how magic - a marriage can be, The Circle is a poignant, poetic and incredibly assured debut novel.
