From the single-cylinder bikes of the 1950s to the high-performance sportbikes of today, The Complete Book of Ducati Motorcycles showcases the entire spectrum of Ducati. Legendary Ducati motorcycles have something of a rags-to-riches story. This Italian motorcycle manufacturer began by selling motorized bicycles to impoverished residents of post-World War II Italy. Today, Ducati is the world's premier manufacturer of street motorcycles whose sales continue to rise year after year. Its svelte, hyper-accelerating motorcycles are two-wheeled wonders that are fluent in the language of speed. The Complete Book of Ducati Motorcycles traces the stunning chronology of the motorcycles dreamed up by Ducati, from the 1950s to present day. Laid out for the first time in encyclopedia form with gorgeous photography and insights from Ducati expert Ian Falloon, this book offers motorcycle enthusiasts a closer look at the craftsmanship, power, and beauty of these extraordinary motorcycles. The book features all of the motorcycles from Ducati's storied history, including the groundbreaking Desmodromic 750 Super Sport, the Mike Hailwood Replica, the Superbike-dominating 916, and the epic Panigale. From the street bikes that gave birth to the very notion of the modern superbike to the racing motorcycles that dominated tracks in Great Britain, Europe, and North America since the latter part of the twentieth century, The Complete Book of Ducati Motorcycles runs the full gamut of sportbikes. It's a collection that demands shelf space in the library of any true motorcycle collector or fan.

What happens to gender at 120mph? Are Harley-Davidsons more masculine than Yamahas? The Gendered Motorcycle answers such questions through a critical examination of motorcycles in film, advertising and television. Whilst bikers and biker cultures have been explored previously, the motorcycle itself has remained largely under-theorised, especially in relation to gender.

Esperanza Miyake reveals how representations of motorcycles can produce different gendered bodies, identities, spaces and practices. This interdisciplinary book offers new and critical ways to think about gender and motorcycles, and will interest scholars and students of gender, technology and visual cultures, as well as motorcycle industry practitioners and motorcycle enthusiasts.

Three years ago, Heather Kennedy left the Metropolitan police under a shadow that has followed her ever since. Now she has been called in to advise on a supposed burglary in the now-defunct British Museum reading room. Kennedy soon establishes that rather than steal anything, someone has broken into the stacks in order to photograph pages from books about Johann Toller, a crazed prophet of 17th century Europe. Toller believed that the end of days was at hand, and he made a number of prophecies relating to the Apocalypse and the events that would precede it. None of them came true. Until now. One after another, the grotesque signs and wonders Toller predicted come to pass, no matter how unlikely they seem. The river Rhine runs bright red, the towers of London bow to kiss the ground, and an angel with a fiery sword is seen over Jerusalem. With the help of a nineteen-year-old girl from a secretive tribe and ex-mercenary Leo Tillman, Kennedy must work to stop the next prophecy coming true - the destruction of an unnamed city...
