9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization. This immensely bankable book is specially published for the aspirants of IBPS-Specialist Officer Preliminary & Main Exams for the recruitment of Marketing Officers (Scale-I). The book comprises, along with the Latest Study and Practice Material, Previous Year's Solved Paper to make you well-conversant with the exam pattern and the type of questions asked with their answers. Detailed Explanatory Answers have also been provided for the Selected Questions for Better Understanding.
