

## First Aid Cpr Aed Instructor Toolkit Sdelc

The student workbook for the credentialed Heartsaver Pediatric First Aid course. Provides information on how to manage illness and injuries in a child during the first few minutes of an emergency until professional help arrives. Includes four core modules: First Aid Basics, Injuries and Illnesses, Life-Threatening Emergencies and the Chain of Survival, and CPR and AED. Also includes optional modules, such as Use of a Nebulizer, to meet regulations for day-care centers in certain states. Workbook comes shrink-wrapped with the Heartsaver Pediatric First Aid Quick Reference Guide (#80-1002), the Adult CPR And AED Reminder Card, the Child And Infant CPR And AED Reminder Card, and a CD containing supplemental information and video clips on CPR and AED skills. An ideal resource for first responders, child-care workers, teachers, foster-care workers, camp counselors, youth organizations, coaches/Little League organizations, as well as parents, grandparents, and baby sitters.

First Aid, CPR, and AED Standard, Fifth Edition is the center of an integrated teaching and learning system that offers instructor, student, and technology resources to better support instructors and prepare students. The text includes: Coverage of the 2005 CPR and ECC Guidelines. Current information on injured and illnesses: Core information for first aiders presented in a clear and straightforward format. Skill Drills: Offer step-by-step explanations and visual summaries of important skills. Flowcharts: Reinforce the decision-making process and appropriate procedures. Decision Tables: Provide a concise summary of what signs first aiders should look for and what treatment steps they should take.

"The Heartsaver First Aid CPR AED DVD set is to be used by AHA BLS and Heartsaver instructors to teach the DVD-driven Heartsaver First Aid, Heartsaver CPR AED, and Heartsaver First Aid CPR AED courses. The Heartsaver DVD navigation and menu options have been designed to support the various Heartsaver portfolio course formats, including instructor-led and blended learning courses. Updated to reflect new science in the 2015 American Heart Association Guidelines for CPR & ECC"--WorldPoint.com.

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include

adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

Teaches lay rescuers how to recognize the most common life-threatening emergencies in the workplace, when to call for help, and how to perform lifesaving skills until professional help arrives.

Rev. ed. of: First aid/CPR/AED for schools and the community. 3rd ed. c2006.

"The primary purpose of the American Red Cross First Aid/CPR/AED program is to help participants recognize and respond appropriately to cardiac, breathing and first aid emergencies"--Publisher's description.

20-1122

1 copy of the Basic Life Support (BLS) For Healthcare Providers Instructor Manual (90-1036), 1 Basic Life Support (BLS) For Healthcare Providers Course And Renewal Course DVD (90-1035), 1 copy of the Basic Life Support (BLS) For Healthcare Providers Student Manual (90-1038), and 1 American Heart Association Stopwatch (90-1509).

Product 90-1071

20-1126

A student manual for CPR and first-aid for choking.

Product 15-2113JP
