

Focus On Nursing Pharmacology 6th Edition

Effectively learning pharmacology requires students to clearly see the connection between pharmacology, disease and patient care. Pharmacology for Nurses, 3e (this is the standalone book) is structured to present pharmacology and pathology together, so students can more easily grasp the interrelationship between these subjects and provide a holistic perspective to patient care. A prototype approach, easy to follow presentation and extensive pedagogical aids enable students to understand key concepts and apply essential components of nursing care to drug therapy. If you want the book and access code you need to order: 0131392468 / 9780131392465 Pharmacology for Nurses: A Pathophysiologic Approach and MyNursingLab Student Access Code Card Package Package consists of 0135089816 / 9780135089811 Pharmacology for Nurses: A Pathophysiologic Approach 0135104319 / 9780135104316 MyNursingLab Student Access Code Card Pharmacology for Nurses: A Pathophysiologic Approach

Amy Karch has found that students learn best when concepts are built upon each other, growing from simple to complex, building on a foundation of understanding. Organized by body systems, this heavily illustrated book

Where To Download Focus On Nursing Pharmacology 6th Edition

organizes essential nursing pharmacology information into focused, easy-to-learn steps. Building key concepts upon each other, the text gives students a solid foundation of understanding. Easy to understand drug prototype boxes are integrated throughout the book as well as integrated content summaries. It includes the popular and proven "Focus on" theme for drug use across the lifespan, cultural and gender considerations, evidence-based practice, patient teaching, herbal and alternative therapies and dosage calculation, with "Focus on Safe Medication Administration" and a "Drugs in Focus" table for each classification of drugs. Drug discussions include therapeutic actions and indications, pharmacokinetics, contraindications and cautions and adverse effects. Detailed rationales are presented throughout. Each chapter opens with Learning Objectives and a Glossary of Key Terms, and ends with NCLEX-style questions, and contains a case study-based critical thinking exercise with a discussion and case-based nursing care guide. Included in this package is Lippincott's Photo Atlas of Medication Administration (ISBN 9781451112481) which uses the nursing process format to provide step-by-step nursing skills. PrepU is an adaptive quizzing engine built by teachers and tested in the classroom. PrepU's personalized quizzes help each student learn more, while giving instructors a window into their students' progress-highlighting

Memorize the pharmacology facts you need to know — in a flash! Featuring more than 100 colorful 4 x 6 note cards, Mosby's Pharmacology Memory NoteCards: Visual, Mnemonic, & Memory Aids for Nurses, 6th Edition uses illustrations and humor to make studying easier and more fun. This unique pharmacology review may be used as either a spiral-bound notebook or as individual flashcards, so it's perfect for studying while on the go. Created by nursing educators JoAnn Zerwekh and Ashley Garneau, these durable note cards will help you prepare for class, clinicals, or the NCLEX® examination. There's no other study tool like it! UNIQUE! Color-highlighted monographs emphasize important nursing implications, frequent side effects, serious or life-threatening implications, and patient teaching, making it easier to identify nursing priorities on common medications. UNIQUE! Mnemonics and other proven memory aids help you grasp and remember even the most complex concepts. UNIQUE! More than 100 colorful cartoons offer humorous and memorable presentations of key drugs, and are ideal for visual learners. What You Need to Know sections on each card cover the most essential information in a quick and easy-to-review format. Thick pages and a spiral-bound format create a portable tool that is durable enough for use in the clinical environment. Colored thumb tabs at the bottom of the page allow you to find topics quickly. NEW! 8 brand-new cards are added on these topics: Pre-Exposure Prophylaxis (PrEP), Azoles, Mupirocin, Cyanocobalamin, Gabapentin, Corticosteroids, Clobetasol, and Folic Acid. NEW! Updated content is thoroughly reviewed and included throughout
