Sasha Grey, rising adult film and pop-culture star, takes control in her new monograph "neu sex," moving out from in front of the camera to behind it, turning the lens on the wild world she inhabits. "When I first got into the adult industry, I decided to take my photography much more seriously. I started taking a camera with me to capture my experiences on set, so it was a moment in time, a memory for myself--not the video that would be seen by thousands of people. On days where I was physically unable to capture an image, Ian, my fiance, became my third arm. He understands my aesthetic, or lack thereof. Ian is a photographer, yet the work in this book is quite different from his usual style. When you are so close with someone, there is a shorthand and true understanding of what the other person is trying to accomplish. If there's something I am physically unable to photograph, I can say one word and Ian can assist me with my vision. Ian can capture intimate moments with me that nobody can fabricate, because of our relationship. The strong sense of familiarity eliminates all boundaries between the subject and the photographer. "Documenting myself has almost become a necessity. "There are so many photos of me, taken by other people, that aesthetically I have no control over.

Documenting myself allows me to reflect on the day, on the feelings I am having at that second. When you work in the entertainment industry, there are always surprises; there certainly isn't one day that is similar to the last. Personally, it's important to embrace this and appreciate it every day. "Still images vividly capture emotion, a second in time that can be left open for interpretation by the viewer and the creator. I am inspired by the work of Cindy Sherman and Nan Goldin. Sherman's work continues to inspire me to develop certain characters. I figured if I am on set I might as well take advantage of my surroundings, and document my life in an exciting, untraditional manner. I look back at photos, and see how much I've grown, how my opinions have changed, and how they will continue to change." --Sasha Grey

I am Lakshmi Prasad, native of Bihar. I am doing PhD on a very important subject "Mating habits of gay chimpanzees in West Africa" at PANU University, the best University in India and possibly the best University in the world. My idols are

“Faizal Guru”, “Janab Kasab Sahib”, “Focus Carat”, “Baba Badkar”, “Zakir Nalayak”, “Gharkha Dutt”, “Dr. Kana Ayyub” and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y ,etc.

The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other. Herb Johnson believes that we are meant to live abundantly. We are designed to live the good life, with the freedom and creativity to follow our passions. What will defeat us is an attitude of impoverishment—the belief that we are undeserving, so why should we try. In *Engineering Business Success*, Johnson explores the structure of success. Many books overflow with detail about business systems—important, yes, but they don't reveal the big picture of what it takes to succeed. What fundamentally must be in place to open and effectively operate a successful business? As an engineer and as a businessperson, Johnson has written an important resource for both. But his book is for anyone who wants to make something of himself or herself, because the themes here are central to winning. Business opportunities abound in our society, and Johnson shows you what you should be looking for, and what needs to be in place if you are to win. So many businesses fail right out of the gate, and Johnson has the antidote so that it won't happen to you. Foremost, he says, you need to seize the responsibility to serve—to serve your industry, your clients, and your stakeholders. That is the underpinning of success. In *Engineering Business Success*, Herb Johnson shares what he has learned in his 28 years at the helm of the thriving company that he founded. And he shares what he has learned in life, since his boyhood rural upbringing, through his years as a young engineer, and as he has worked to make the most of his business. Johnson's story demonstrates the trajectory of following one's passion—and doing so with the spirit of service and with the business savvy that he has learned along the way. “Herb embraces an attitude of abundance, a dedication to discipline, and commitment for lifetime learning, all of which pour forth from this story of his entrepreneurial journey. Business owners, and those wishing to experience the freedoms Herb has enjoyed, will get a dose of enthusiasm and pick up some helpful hints from reading this book.” —VERNE HARNISH, FOUNDER, ENTREPRENEURS' ORGANIZATION AND GAZELLES AUTHOR OF SCALING UP AND MASTERING THE ROCKEFELLER HABITS

"The perceptions of the role of women and men in families have changed over the past few decades. Men are no longer perceived as the economic providers to families. The role of men in the family has undergone many "diverse demographic, socio-economic and cultural transformations" impacting the formation, stability and overall well-being of families. In light of this development, DESA's Division for Social Policy and Development (DSPD) launched a new publication on "Men in Families and Family Policy in a Changing World" on 17 February focusing on the shifting roles and views of men in families."--Provided by publisher.

'Raat baaki, baat baaki... Hona hai jo, ho jaane do...' Sensuous, glamorous and bold, Parveen Babi set the Hindi cinema screen ablaze during the 1970s and '80s, breaking the 'pious, nice girl' mould of the film heroine and redefining it after her own style. On screen, she sizzled in unforgettable roles in blockbusters like *Deewaar*, *Shaan*, *Kaalida* and *Amar Akbar Anthony* – while, off-screen, her bohemian and unabashed lifestyle lit up gossip columns, and her appearance on the cover of *Time* magazine, a first for an Indian, created a stir nationwide. Yet, for all the sensational rumours and films her life inspired, Parveen has remained something of an enigma to generations of fans. In *Parveen Babi: A Life*, Karishma Upadhyay traces the journey of a shy but ambitious girl from an aristocratic family in Junagadh, Gujarat, to a life of merciless scrutiny that comes with being in the Bollywood spotlight. Exploring with depth and sensitivity the myriad facets of the actress's life, she lays bare little-known details about Parveen's doomed romances, her obsession with the spiritual guide who advised her to quit films, the tumultuous years of battling mental illness and her tragic, untimely demise. Rich with insights from the star's friends, former lovers and colleagues, this compelling narrative captures the nuances of an extraordinary life – the highs and lows of finding fame, love and solace, and then, in the end, losing it all.

During the early decades of the twentieth century, Thailand's capital, Bangkok, took on an increasingly cosmopolitan character—a development fueled both by global economic forces and a local revolution in communications. The 1920s were a particularly dynamic period of social and cultural transformation that had a profound impact on the development of Thai modernity. This book examines the growth of a polyphonic and often vociferous Thai public, a public that used a range of new media outlets to express themselves and clamor for a more just and equitable social order. Scot BarmZ mines a rich lode of previously ignored cultural ephemera found in popular newspapers, magazines, novels, short stories, film booklets, and cartoons to create a vibrant cultural history of early modern Thailand that moves beyond conventional, elite-based historical studies of the period. By focusing on such controversies and conflicts as the status of women, relations between the sexes, class antagonisms, and the growth of a commercial mass culture, this book offers a new interpretation of the key decade of the 1920s and its significance for contemporary Thailand.

Inspired by and responding to Jack Kerouac's *Dharma Bums*, this memoir details the psychological and spiritual triumph over severe psychological difficulties caused by a series of traumas endured in the Peace Corps in West Africa in 1978. Surveying the spiritual landscape

of America through the seventies to the present in Zen, Tibetan Buddhist, New Age and Christian movements, this memoir describes the journey of author Philip A. Bralich's life, beginning as a twenty-something, leftist, married, seventies idealist in the Peace Corps in West Africa, through an accident in the bush that cost his wife her life and himself much of the use of his left leg, and through the growing and debilitating psychological difficulties that were finally resolved through wide reading and personal experience of many of the spiritual and psychological movements of those four decades. The book commences in West Africa in 1978 but also goes back to as early as 1973, just four years after Jack Kerouac died.
