Everything you need to know about making your own beautiful bamboo flutes. Models covered in the book are Side Blown Flute, Shakuhachi, Native American Flute and Bamboo Recorder. And now the Bamboo Sax. If you want to know how to Make Bamboo Flutes, then this is the Book. When I started to make bamboo flutes 30 years ago there was virtually no information on this amazing topic anywhere. By following the methods described in this E-Book you'll save a lot of time stuffing around, stabbing in the dark and wasted bamboo! You'll have an incredible head start that I did not have when I embarked on Bamboo Flute making.

There is nothing more delicious than spreading your own home-made jam onto a hot slice of buttered toast, and nothing more satisfying than presenting someone with a jar of something you have made with your fair hand. Whether you want to do away with supermarket preservatives or try your hand at making thoughtful and elegant gifts for friends and family, this is the book for you. Make Your Own: Jams, Chutneys and Pickles contains a wide range of easily navigable recipes, from rhubarb and apple jam to tomato and apple chutney, that will take you back to the good old days of traditional home-made fare.

Chocolate bars or chocolate treats at the store and do not mull over it. Yet, have made custom made chocolate for many years. A few people feel that hand crafted chocolate tastes much superior to business chocolate. What's more, what does it mean?

This book aims at enriching your knowledge and putting the power back into your hands when it comes to cleaning your home and inevitably controlling what harmful contents you and your family get exposed to in the home environment. The really great thing about making your own cleaning products at home is the fact that most recipes are versatile and can be used for many different purposes, eliminating the problem of having too many different cleaning products, but you will find target specific ideas here to help you clean effectively and eco-friendly. The recipes have been placed in categories such as kitchen cleaning and bathroom cleaning so if you are looking for something specific, just have a look at what area you need to clean and then cross reference with the index. There are some great tips on general cleaning and upkeep in and around the house too. It's safe to say that when in doubt, always try using vinegar or baking soda or a mix of the two first to see if that helps. For everything else, use this book as a reference on how to get the job done.

Lloyd Kaufman, the writer/producer/director of such cult-classic films as The Toxic Avenger, Class of Nuke 'Em High, and Tromeo and Juliet, offers a guide to movie-making unlike any other available anywhere. In 25 years, Kaufman, along with partner Michael Herz, has built Troma Studios up from a company struggling to find its voice in a field crowded with competitors to its current--and legendary--status as a lone survivor, a bastion of true cinematic independence, and the world's greatest collection of camp on film. As entertaining and funny as it is informative and insightful, Make Your Own Damn Movie! places Kaufman's radically low-budget, independent-studio style of filmmaking directly in the reader's hands. Thus we learn how to: develop and write a knock-out screenplay; raise funding; find locations and cast actors; hire a crew; obtain equipment, permits, and music rights (all for little or no money); make incredible special effects for \$0.79 each; charm, schmooze, and network while on the film-festival circuit; and, finally, make a bad actor act so bad it's actually good. From scriptwriting and directing to financing and marketing, this book is brimming with utterly off-the-wall, decidedly maverick, yet consistently proven advice on how to fully develop one's idea for an independent film.

Includes eight separate projects with clear, easy to follow instructions with attractive photographs accompanying each step. This

The full cost of filing and receiving a patent can be anywhere from \$2,000 to \$10,000 depending on what you need to complete the process. For those who have spent their entire lives developing an idea and a patentable process it can be incredibly frustrating to know you have to wait just that much longer to pay for the applications, legal forms, and most of all, the patent drawings necessary to move forward. But, if you have the right tools and the right knowledge of everything the government needs from you in a patent drawing, you can bypass much of what has plagued companies and inventors everywhere for decades. This book has been designed to guide you in the process of developing and producing your own patent drawings in a manner that ensures you can skip over an entire overly expensive step in the process, designing your own drawings and moving that much closer to your patents. You will learn the basics of drawing and using various perspectives to capture real world objects. Learn perspective foreshortening and how to effectively use a pen, ruler, and other drawing instruments. Learn the basics of drawing with a computer and how to use a camera to supplement your drawings. Learn what tools you need for your drawings and

how to trace things to speed up the process. Learn how to draw from your imagination and how to draw to scale effectively. You will learn how to use graphical symbols and how to practice enough to get the process correct.
