Freight Forwarder Business Startup How to Start, Run & Grow a Successful Freight Forwarding Business The global freight forwarding market has been seeing a steady growth of around 5% for last four years in a row now. This trend is expected to continue and grow bigger. With all the new trade deals like TPP (Trans-Pacific Partnership), TAP (Trans-Atlantic Partnership) and many other similar trade deals between countries are bringing the whole world into one marketplace. According to Transportation Intelligence, a leading logistics research firm, in 2013 the freight forwarding industry was at 129 Billion, but as of today, it has grown by another 16-20 billion more. This is an industry that in my opinion still in its infancy, with TPP, TAP and many other global trade agreements, the need for such services will grow higher every year. Another rapid growth I see in this business is from all the Amazon FBA(Fulfilled By Amazon) business owners, most of who buy their merchandise from China. Now Amazon never accepts merchandise directly from a foreign country, so each and every piece of merchandise has to come through a freight forwarder/broker. This way the merchandise can get relabeled and shipped to various Amazon warehouses. In This Book You Will Learn: What is a Freight Forwarder What Is Freight Forwarding Business Types of Freight Forwarders Steps To Becoming A Freight Forwarder How to get started How and Where to Get Trained What Courses You Should Take How To Setup Your Business Legal Factors Freight Forwarder Licenses Steps to FMCSA Registration Insurance Requirements Running a Freight Forwarding Business Trading Condition and Limiting Liability How To Promote & Grow Your Business The Elements of Price Quote Links to all forms and applications But one word of caution, please don't think reading this book will be enough to get started as a freight forwarder, it takes some training either on the job (like I did) or formal school or online training to get started in this business. In this book, I shared some of the resources that are available for you to get started. If you are thinking about getting into this business, trust me when I say this, there is not a better time than now to get started. Do your research, get educated, get started. Good luck!

Bakery Business Startup How to Start, Run & Grow a Trendy Bakery Business Up until about 25-30 years ago, there was something called the "Neighborhood Bakery." Everybody went there almost daily to pick up a fresh loaf of bread, or to buy some freshly baked chocolate chip cookies and even a few cupcakes. But the big grocery chains and their cheap machine-made full of additive bakery items took over our lives and ran the locally owned bakeries out of business. If you haven't, I urge you to take a look at the expiration date on any store-bought bread, what you see will shock you. I have seen breads with 30-day expiration dates. If you are like me, you would wonder how that could even be possible. People, in general, are getting more and more health conscious, and generation X & Y are into trendy, healthy, gluten-free, all-natural and organic food. And that is the very reason you may see more and more upscale; trendy bakeries are opening up around every city now. If you have a passion for a food-related business, this is THE time to get into it before someone else does it. You don't have to be a pastry chef or have a degree in culinary arts to be a bakery owner. Most successful bakeries are not owned by chefs or people who are into baking. But if you are into cooking and baking, sure that is always a huge plus. But remember a long-term success in any business comes from being dedicated, motivated and having some basic understanding of how small business and marketing works. Before you say, "oh I don't have that kind of money to start a bakery business" I think you should at least give my ideas a chance, I outlined every step of opening and running a successful bakery business including how to get funding when you are low on cash. I started my first bakery business six years ago on a very limited budget, and in just three years I opened up four more locations. If I wasn't making money, I sure wouldn't have expanded. But I will admit, it was a lot of work. I was glad when I had a great offer to sell all my locations. It was a great offer that I could not say no to. Anyway, this is not about my business success; it is about you and your success. This is not a book where I teach you how to bake bread or make delicious butter pound cakes, but it is about how to start, run and grow a successful bakery business and thrive. But Wait! Oh! I did share two of my secret recipes. First one is an all-butter pound cake, and the other is the delicious yummy Tres Leches (everyone's favorite). You will see how I used these two recipes as my secret marketing weapon and saw overnight success at the beginning. Here Is What I Show You In This Book. Who & Why You Should Open A Trendy Bakery Profitability & Break-Even Point Of A Bakery Business How To Find Money To Open A Bakery Estimated Cost And Expenses Estimated Monthly Income Knowing The Market And Setting A Trend Naming Your Bakery Business Plan Incorporating Your Business Licensing, Permits, EIN & Bank Account How To Find A Bakery To Buy Or Lease How To Find A Suitable

Big Rig Business Startup How to Start, Run & Grow a Successful Trucking Company After losing my corporate job in 2008, I went through the toughest time of my life. At the time my wife pregnant with our third child, and my monthly unemployment check wasn't enough to cover our house and two car notes. In desperation, I decided to go to a local trucking school and get my CDL. I found my first driving job a week after I got out of school. I still remember my first paycheck was just \$55 shy of what I was making at my corporate desk job. I was hysteric, I was happy, I knew this was my new found life and freedom, and no one was going to take it away from me. Long story short, after two years of working for other companies, I decided to start my own trucking company, and I started out as an owner-operator. In 2013, I decided it was time for me to grow and time for me to get off the road and spend some time with my kids. This was when I entered the second phase of my business life. I started to buy one tractor every three months as I was hiring great drivers that are professional, family oriented and serious about making money. By 2016 I had 12 trucks on the road, and this is also the year when my net earning passed \$350,000 mark. To me, the 350K mark was always a benchmark, why? Because I knew that was the salary of the CEO of the company, I used to work for. Last year, I received a call from a business broker, who asked me for a 10-minute meeting. He had brought an offer from a big trucking company, to buy my company. But I didn't even remotely think about selling my company. Instead, I was talking to the bank and was in the process of finalizing a loan for four new tractors with trailers. Once again, long story short, after I refused their initial offer, they came back with an offer that no reasonable man can refuse, and I consider myself a very reasonable man. The income potential is truly amazing and yes, if you can hire the right people, you will not only see significant growth, high net income but the satisfaction that you don't get from many other jobs and businesses. What I shared in this book, are the steps I went through myself, I wrote from my own experience and shared a step by step process that is easy and simple to follow, and best of all you can get started with very little funding. How to Start, Run and Grow a Successful Residential & Commercial Cleaning Business Hello, my name is Maria, and I have something important to tell you. I know you've probably heard these types of success stories before and are a little skeptical, but I'm telling you this is true and can really happen for you. Ten years ago, after my divorce, I needed to find a way to support myself. I was one of those individuals that never went to college or had a trade skill, so there weren't a lot of job choices for me. What was I to do? I started looking into entry level jobs that didn't require specialized training or skills. Unfortunately, I wasn't keen on the idea of working at a fast food restaurant for minimum wage with limited potential for advancement or better pay. Then I learned about house cleaning from a friend of mine. She used house cleaning as a way to supplement their family income. However, I realized the potential to grow this into something more. So I started taking on a few residential cleaning jobs, getting my name out there and increasing my client list. I took the time to do some research and found a way to offer some specialized services that got me paid a little extra. Before I knew it, my client list was growing beyond what I could do by myself. So I started hiring employees. Then I realized the importance of branching out and started to take on commercial contracts. Commercial cleaning turned out to be even more beneficial to my income than residential cleaning. Not only was I able to support myself with this work, but I was able to grow and thrive. Today, I have a company of my own with 22 employees. We take on both residential and commercial cleaning contracts. My income has grown to over \$250,000 a year now. I never dreamed a simple job to help pay the bills would grow into this, but it has. It takes a little bit of work, but the benefits are there to be had if you know what to do. I'm here to tell you what you need to do so you can have success just like I did. In this book, I show you: How to start on a budget Should you go with Franchise or independent The basics of residential cleaning business The basics of commercial cleaning business Skill you will need Income potential for residential cleaning Income potential for commercial cleaning Specialized cleaning income potential 12 guided steps to get started with residential cleaning 10 guided steps to get started with commercial cleaning Equipment you will need Safety first consideration 11 steps to choosing the right cleaning products 5 type sod cleaners to use Where to buy your cleaning supplies How to form a legal entity for your new business How to get certified How to set rate structure How to offer competitive pricing How to bid and win job contracts How to write a commercial job proposal How to get your first client How to market your new business 6 quickest way to get new contracts Top 10 safety concerns How to run and grow your business A day in life inside a cleaning business Important Forms and Formats Included in This Book: A Sample Cleaning service agreement contract Sample LLC Operating agreement A Sample Business Plan Sample Employee Warning Letter Good luck!

Pet Bakery Business Startup How to Start, Run & Grow a Trendy Pet Bakery Business Inspired by that British (BBC) television program called The Great British Bake Off and love, more pet owners are making homemade treats for their furry companions. Fueled by the rapid spread of information on the internet, there are what seems like an unending array of pet recipes. It's never been easier to treat Fido and King homemade artisan dog treats. And for those dog owners who haven't yet jumped into baking for their pets but are more than willing to buy gourmet treats, some of the best options can be found at places often called pet bakeries. Whether the bakery is online or in a physical retail establishment across town, pet owners, especially those who own dogs, are willing to spend a reasonable amount of money so their pet can enjoy a delicious treat. More pet owners are developing the tendency to treat their four-legged friends with the same attention and appreciation as their children, for they have chosen to not have any of their own or are waiting for the right circumstances to have or adopt some. Another reason for the rise in homemade treats is a growing realization that commercially bought treats contain dubiously healthy-if not shockingly dangerous-ingredients. For those owners who want to ensure their pets have nothing but food and treat with the healthiest ingredients, it's really not a long jump to creating homemade treats. After all, you can easily see this as a natural extension of food-buying if you're already dedicated to organic and natural ingredients in your own diet and that of your family. I started making various dog treats at home out of necessity and to make sure our dog always had something healthy to eat. But my hobby quickly grew into a passion and soon I saw a demand for dog treats from extended family, friends and neighbors. The next step came almost naturally, after my husband suggested that I look into opening my own pet bakery, I started looking and researching the idea and soon enough the concept turned into reality and I never looked back.
