to personalize its features to work with the habits and activities of individual users and offer helpful apps and information at the right time. It also has many useful default apps and a large selection of additional apps which add to the user's experience. An enhanced user interface, which runs on the latest version of Android, also makes the phone simpler to use than its predecessors. One of the top advantages of the phone over its competitors is the large storage capacity and it is a favorite among music lovers who want to listen to quality audio and be able to save more of their music on a mobile device.

Tracing the cultural, material, and discursive history of an early manifestation of media culture in the making. Beginning in the late eighteenth century, huge circular panoramas presented their audiences with resplendent representations that ranged from historic battles to exotic locations. Such panoramas were immersive but static. There were other panoramas that moved—hundreds, and probably thousands of them. Their history has been largely forgotten. In *Illusions*

in Motion, Erkki Huhtamo excavates this neglected early manifestation of media culture in the making. The moving panorama was a long painting that unscrolled behind a “window” by means of a mechanical cranking system, accompanied by a lecture, music, and sometimes sound and light effects. Showmen exhibited such panoramas in venues that ranged from opera houses to church halls, creating a market for mediated realities in both city and country. In the first history of this phenomenon, Huhtamo analyzes the moving panorama in all its complexity, investigating its relationship to other media and its role in the culture of its time. In his telling, the panorama becomes a window for observing media in operation. Huhtamo explores such topics as cultural forms that anticipated the moving panorama; theatrical panoramas; the diorama; the "panoromania" of the 1850s and the career of Albert Smith, the most successful showman of that era; competition with magic lantern shows; the final flowering of the panorama in the late nineteenth century; and the panorama's afterlife as a topos, traced through its evocation in literature, journalism, science, philosophy, and propaganda. A sourcebook of contemporary and historical commentary on America's first popular mass entertainment. As the blackface minstrel show evolved from its beginnings in the American Revolution to its peak during the late 1800s, its frenetic dances, low-brow humor, and lively music provided more than mere

entertainment. Indeed, these imitations and parodies shaped society's perceptions of African Americans-and of women-as well as made their mark on national identity, policymaking decisions, and other entertainment forms such as vaudeville, burlesque, the revue, and, eventually, film, radio, and television. Gathered here are rare primary materials-including firsthand accounts of minstrel shows, minstrelsy guides, jokes, sketches, and sheet music-and the best of contemporary scholarship on minstrelsy.

Today, although the tallgrass prairie has been reduced to a tiny percentage of its former expanse, people are working to restore and reconstruct prairie communities. This lavishly illustrated guide to seeds and seedlings, crafted by Tallgrass Prairie Center botanist Dave Williams and illustrator Brent Butler, will insure that everyone from urban gardeners to grassland managers can properly identify and germinate seventy-two species of tallgrass wildflowers and grasses in eastern North Dakota, eastern South Dakota, southwestern Minnesota, southwestern Wisconsin, northern Illinois, northwestern Indiana, Iowa, eastern Nebraska, eastern Kansas, northwestern Missouri, and eastern Oklahoma. Williams has created a brilliant, nearly foolproof system of identification and verification. Two primary keys lead to eleven secondary keys that link to characteristic groups of tallgrass plants: seven groups for wildflowers and four groups for grasses. To identify a seedling, use the primary key to discover its place in the secondary key, then turn to that characteristic group to find your seedling. Circles on each full seedling photograph correspond to close-up photographs; triangles on these close-ups illustrate information in the text to further pinpoint identification. Drawings of leaves illuminate exact identification, and enlarged photographs of each seed

provide yet another way to confirm identification. Thousands of seeds were sprouted in the Tallgrass Prairie Center's greenhouse to provide seedlings close in size and development to those grown in the field near the end of their first season; research and photography took place over four years. Williams's text for each species includes a thorough description, a comparison of similar species, and guidance for germination and growth. A complete glossary supports the text, which is concise but detailed enough to be accessible to beginning prairie enthusiasts. Anyone in the Upper Midwest who wishes to preserve the native vegetation of prairie remnants or reconstruct a tallgrass prairie of whatever size—from home gardens to schoolyards to roadsides to large acreages—will benefit from the hundreds of photographs and drawings and the precise text in this meticulously prepared guide.

The Samsung S6 is an Android smartphone that is manufactured by Samsung Electronics. It was the successor to the Samsung Galaxy S5 and was released in April of 2015. The S6 featured many similarities to the past S5 phone but it also featured some departures from design approaches and the integration of new technologies which made the phone robust and a leader in the smart phone space. The HTC One M9 is another great Android smartphone that is manufactured by HTC and was released in April 2015. This is a third generation smart phone that is intended to be the successor to the M8 that was released in 2014. The HTC One M9 is similar to its predecessor only in that the body is wider and somewhat thicker. They have also made it more advanced and ready to compete in the current smart phone space. This book is intended to look at the differences and compare the specifications of the Samsung Galaxy-S6 and the HTC One-M9.

A Newbery Honor Book An ALA-ALSC Notable Children's Book Winner of the Edgar Allan Poe Award for Best Juvenile Novel “An adventure, a mystery, and a love song to the natural world. . . . Run out and read it. Right now.”—Newbery Medalist Karen Cushman In the town of Placid, Wisconsin, in 1871, Georgie Burkhardt is known for two things: her uncanny aim with a rifle and her habit of speaking her mind plainly. But when Georgie blurts out something she shouldn't, her older sister Agatha flees, running off with a pack of "pigeoners" trailing the passenger pigeon migration. And when the sheriff returns to town with an unidentifiable body—wearing Agatha's blue-green ball gown—everyone assumes the worst. Except Georgie. Refusing to believe the facts that are laid down (and confined) before her, Georgie sets out on a journey to find her sister. She will track every last clue and shred of evidence to bring Agatha home. Yet even with resolute determination and her trusty Springfield single-shot, Georgie is not prepared for what she faces on the western frontier.
