This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. This illustrated book shows how "thinking" systems offer new ways of seeing people which can help us see and do things differently. The authors describe how a theory of living human systems was developed and even recently revised. This major revision led to a theory of the person-as-a-system and its role-systems map that helps us see which system in us and in others is running the show. The authors illustrate how life force energy fuels the hierarchy of living human systems and how theory and practice with role-systems can be useful in everyday life. They begin with describing how they have used the new illustrations as a map to locate the contexts of our roles. Using this map has also enabled the authors to identify the role-systems and explore the territory of ourselves and our groups in new ways that deepened our understanding of roles and role locks. This book illustrates systems-centered therapy and training (SCT) theory by offering a practical theory to guide group psychotherapists, leaders and consultants in working with group dynamics.

Many readers of the Pearl of Great Price give the facsimiles in the book of Abraham only a cursory glance before turning to something more familiar and understandable. That's because the facsimiles are Egyptian in nature and do not seem relevant in our modern world of gospel enlightenment. So what is their worth? It is self-evident that we have received no useless and unneeded revelations, said Elder Bruce R. McConkie. All that the Lord does has a purpose and serves a need. A Study Guide to the Facsimiles of the Book of Abraham shows the meaning of every character in the facsimiles and helps readers comprehend their great value. As translated by the Prophet Joseph Smith, they bear witness of the gospel as had by Adam, Noah, and other ancient patriarchs. Appealing to translation, inspiration, and likening, author Allen J. Fletcher brings to light the more mysterious components of the facsimiles, helping us make sense of them in our day and apply their timeless teachings in our lives.
