In an attempt to undo his magical spells and correct all of the unfortunate events that have occurred, Devo looks for ways to undo the problems caused by his impulsive actions. The mayhem continues as Devo decides he would like to go fishing in the neighbor's pond. Devo seeks advice on fishing from his dog who believes he truly knows everything about fishing after watching one TV episode of Fishing with Fred Wilson. Trying to ensure that there will be fish in the pond, the boy again uses his grandfather's Book of Magic and Incantations to cast a spell to stock the pond. Sadly, the incantations the young boy cast were not what were intended. Undoing the spells with the help of his dog becomes a disaster. This chain of events sets off a ripple effect that challenges Devo's imagination in solving this and other exciting magical adventures.

A NEW YORK TIMES NOTABLE BOOK OF 2020 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a “good college.” Hint: it's not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that “who gets in” is frequently more about the college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about “getting in” and what higher education has become, *Who Gets In and Why* not only provides an usually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

Award-winning author Andrea Warren presents a life-changing story of a young boy's struggle for survival in a Nazi-run concentration camp. In this Robert F. Silbert Honor Book, narrated in the voice of Holocaust survivor Jack Mandelbaum, readers will glimpse the dark reality of life during the Holocaust, and how one boy made it out alive. When twelve-year-old Jack Mandelbaum is separated from his family and shipped off to the Blechhammer concentration camp, his life becomes a never-ending nightmare. With minimal food to eat and harsh living conditions threatening his health, Jack manages to survive by thinking of his family. Supports the Common Core State Standards

James Leininger was just two years old when he began having disturbing nightmares that would not stop. He screamed out in the night: 'Plane on fire! Little man can't get out!' While nightmares are common among children, what happened next shocked those around him... James began to reveal details of planes and war tragedies that no two-year-old boy could know. His desperate parents were at a loss to help him until he said three things: 'Corsair', 'Natoma' and 'Jack Larsen'. From these tantalising clues, James's parents travelled thousands of miles and spent many long years piecing together these facts to try and find an answer that could end his torment. Finally, despite his mother's fears and his father's staunch Christian beliefs, they found only one possibility to the endless coincidences that surrounded every detail in James's life – that their son was reliving the past life of a World War II fighter pilot. Their touching story is one that will challenge sceptics and confirm the beliefs of those who already believe in life after death.

In 1917, Stanford University leased a portion of its land to allow the creation of Camp Fremont, headquartered in present-day Menlo Park. That brought the war into the Bay Area's backyard. Soldiers received a welcome reception, and locals embraced the potential economic opportunities. However, the military presence also revealed the conflict Americans felt over the war. Residents threatened conscientious objectors within their community, while the government mollified fears of the vice that often followed troops in training. Armistice came earlier than expected, and many soldiers trained for combat they never saw. But all contributed to the growth and change that arrived with the modern era. Author Barbara Wilcox tells Camp Fremont's story of adaptability, bravery and extraordinary accomplishment during the Great War.

A #1 NEW YORK TIMES BESTSELLER! Featured in its own episode in the Netflix original show Bookmarks: Celebrating Black Voices! National Book Award winner Jacqueline Woodson and two-time Pura Belpré Illustrator Award winner Rafael López have teamed up to create a poignant, yet heartening book about finding courage to connect, even when you feel scared and alone. There will be times when you walk into a room and no one there is quite like you. There are many reasons to feel different. Jacqueline Woodson's lyrical text and Rafael López's dazzling art reminds us that we all feel like outsiders sometimes-and how brave it is that we go forth anyway. And that sometimes, when we reach out and begin to share our stories, others will be happy to meet us halfway. (This book is also available in Spanish, as *El Día En Que Descubres Quién Eres!*)

The fully updated third edition of this lively and accessible book argues for the central role of media in understanding globalization. Indeed, Jack Lule convincingly shows that globalization could not have occurred without media. From earliest times, humans have used media to explore, settle, and globalize their world. In our day, media has made the world progressively "smaller" as nations and cultures come into increasing contact. Decades ago Marshall McLuhan prophesied that media technology would transform the world into a "global village." Slowly, fitfully, his vision is being fulfilled. The global village, however, is not the blissful utopia that McLuhan predicted. Nor, in a more modern formulation, is the world flat, with playing fields leveled and opportunities for all. Instead, Lule argues, globalization and media are combining to create a divided world of gated communities and ghettos, borders and boundaries, suffering and surfeit, beauty and decay, surveillance and violence. By breaking down the economic, cultural, and political impact of media, and through a rich set of case studies from around the globe, the author describes a global village of Babel—invoking the biblical town punished for its vanity by seeing its citizens scattered, its language confounded, and its destiny shaped by strife.

When unions undertake labor organizing campaigns, they often do so from strong moral positions, contrasting workers' rights to decent pay or better working conditions with the more venal financial motives of management. But how does labor confront management when management itself has moral legitimacy? In *With God on Our Side*, Adam D. Reich tells the story of a five-year campaign to unionize Santa Rosa Memorial Hospital, a Catholic hospital in California. Based on his own work as a volunteer organizer with the Service Employees International Union (SEIU), Reich explores how both union leaders and hospital leaders sought to show they were upholding the Catholic "mission" of the hospital against a market represented by the other. Ultimately, workers and union leaders were able to reinterpret Catholic values in ways that supported their efforts to organize. More generally, Reich argues that unions must weave together economic and cultural power in order to ensure their continued relevancy in the postindustrial world. In addition to advocating for workers' economic interests, unions must engage with workers' emotional investments in their work, must contend with the kind of moral authority that Santa Rosa Hospital leaders exerted to dissuade workers from organizing, and must connect labor's project to broader conceptions of the public good.

Tells story of Irena Sendler who organized the rescue of 2,500 Jewish children during World War II, and the teenagers who started the investigation into Irena's heroism.

The first trade paperback edition of the New York Times best-seller about West Point's Class of 1966, by Pulitzer Prize-winning journalist Rick Atkinson. This is the story of the twenty-five-year adventure of the generation of officers who fought in Vietnam. With novelistic detail, Atkinson tells the story of West Point's Class of 1966 primarily through the experiences of three classmates and the women they loved--from the boisterous cadet years and youthful romances to the fires of Vietnam, where dozens of their classmates died and hundreds more grew disillusioned, to the hard peace and family adjustments that followed. The rich cast of characters includes Douglas MacArthur, William Westmoreland, and a score of other memorable figures. The West Point Class of 1966 straddled a fault line in American history, and Rick Atkinson's masterly book speaks for a generation of American men and women about innocence, patriotism, and the price we pay for our dreams.

"He died so Jewry should suffer no more." These words on a Canadian Jewish soldier's tombstone in Normandy inspired the author to explore the role of Canadian Jews in the war effort. As PM Mackenzie King wrote in 1947, Jewish servicemen faced a "double threat" - they were not only fighting against Fascism but for Jewish survival. At the same time, they encountered widespread antisemitism and the danger of being identified as Jews if captured. Bessner conducted hundreds of interviews and extensive archival research to paint a complex picture of the 17,000 Canadian Jews - about 10 per cent of the Jewish population in wartime Canada - who chose to enlist, including future Cabinet minister Barney Danson, future game-show host Monty Hall, and comedians Wayne and Shuster. Added to this fascinating account are Jews who were among the so-called "Zombies" - Canadians who were drafted, but chose to serve at home - the various perspectives of the Jewish community, and the participation of Canadian Jewish women.

Orphaned siblings create a macabre secret world for themselves in this “irresistibly readable” novel by the New York Times-bestselling author (The New York Review of Books). This “powerful and disconcerting” novel by the Booker Prize-winning author of *The Children Act* and *Atonement* (The Daily Telegraph) tells the story of a dying family who live in a dying part of the city. A father of four children decides, in an effort to make his garden easier to control, to pave it over. In the process, he has a heart attack and dies, leaving the cement garden unfinished and the children to the care of their mother. Soon after, the mother too dies and the children, fearful of being separated by social services, decide to cover up their parents’ deaths: they bury their mother in the cement garden. The story is told from the point of view of Jack, one of the sons, who is entering adolescence with all of its attendant curiosity and appetites. Julie, the eldest, is almost a grown woman. Sue is rather bookish and observes all that goes on around her. And Tom is the youngest and the baby of the lot. The children seem to manage in this perverse setting rather well—until Julie brings home a boyfriend who threatens their secret by asking too many questions. “[A] beautiful but disturbing novel.”—The AV Club “McEwan’s evocative detail and perfect British prose lend a genteel decorum to the death and decay that surround the family.”—The New Yorker

FORBES TOP 10 HIGHER EDUCATION BOOKS OF 2020 The riveting true story behind the Varsity Blues college admissions scandal, a cautionary tale of parenting gone wrong, the system that enabled families to veer so far off course, and the mastermind who made it all happen. When federal prosecutors dropped the bombshell of Operation Varsity Blues, it broke open the crimes of exclusive universities and wealthy families all over the country, shattering the myth of American meritocracy. In *Unacceptable*, veteran Wall Street Journal reporters Melissa Korn and Jennifer Levitz dig deep into how otherwise smart, loving parents became caught up in scandal, led through the side door by one man: college whisperer Rick Singer. *Unacceptable* traces how, over decades, the charismatic Singer easily reeled in parents hoping to guarantee top educations for their children, and exploited a system rigged against regular people. Exploring the status obsession that seduced entitled parents in search of an edge, Korn and Levitz unfurl a scheme that entangled more than fifty conspirators, from wealthy CEOs to famous actresses, leading to imprisonments, ruined careers, and terminated enrollments. An eye-opening account of corruption in America’s most exclusive institutions, *Unacceptable* tells the story of helicopter parenting, coddled teens, and the man who thought he couldn’t be caught. Detailing Singer’s steady rise and dramatic fall, Korn and Levitz expose the ugly underbelly of elite college admissions, and the devastating consequences of buying success.

Four men gather in a London pub. They have taken it upon themselves to carry out the last orders of Jack Dodds, master butcher, and deliver his ashes to the sea. As they drive towards the fulfillment of their mission, their errand becomes an extraordinary journey into their collective and individual pasts. Braiding these men's voices, and that of Jack's widow, into a choir of sorrow and resentment, passion and regret, Swift creates a testament to a changing England and to enduring mortality. "Swift has involved us in real, lived lives...Quietly, but with conviction, he seeks to affirm the values of decency, loyalty, love."--New York Review of Books "A beautiful book...a novel that speaks profoundly of human need and tenderness. Even the most cynical will be warmed by it."--San Francisco Chronicle
