THE INSTANT NEW YORK TIMES BESTSELLER "This year's most erotic novel makes Fifty Shades look like the Bible. . . . Bound to be the It beach book of the summer." -- New York Post By day, Judith Rashleigh is a put-upon assistant at a prestigious London art house. By night, she's a hostess at one of the capital's notorious champagne bars, although her work there pales against her activities on nights off. TO GET WHAT SHE WANTS Desperate to make something of herself, Judith knows she has to play the game. She's transformed her accent and taught herself about wine and the correct use of a dessert fork, not to mention the art of discretion. She's learned to be a good girl. But when Judith is fired for uncovering a dark secret at the heart of the art world--and her honest efforts at a better life are destroyed--she turns to a long-neglected friend. A friend who kept her chin up and back straight through every slight: Rage. SHE WILL CROSS EVERY LINE Feeling reckless, she accompanies one of the champagne bar's biggest clients to the French Riviera, only to find herself alone again after a fatal accident. Tired of striving and the slow crawl to the top, Judith has a realization: If you need to turn yourself into someone else, loneliness is a good place to start. And she's been lonely a long time. Maestra is a glamorous, ferocious thriller and the beginning of a razor-sharp trilogy that introduces the darkly irresistible Judith Rashleigh, a femme fatale for the ages whose vulnerability and ruthlessness will keep you guessing until the last page.

'Two young women plunging into post-war Bosnia like two Alices into Wonderland . . . smart, energetic, passionate, announcing a major talent.' – Aleksandar Hemon Sara hasn't seen or heard from her childhood best-friend, Lejla, in years. She's comfortable with her life in Dublin, with her partner, their avocado plant, and their naturist neighbour. But when Lejla calls and demands she come home to Bosnia, Sara finds that she can't say no. What begins as a road trip becomes a journey through the past, as the two women set off to find Armin, Lejla's brother who disappeared towards the end of the Bosnian War. Presumed dead by everyone else, only Lejla and Sara believed Armin was still alive. Confronted with the limits of memory, Sara is forced to reconsider the things she thought she understood as a girl: the best friend she loved, the first experiences they shared, but also the social and religious lines that separated them, that brought them such different lives. Translated into English by Lana Bastašić, Catch the Rabbit tells the story of how we place the ones we love on pedestals, and then wait for them to fall off, how loss marks us indelibly, and how the traumas of war echo down the years.

“Whether depicting erotically charged harem intrigue or siege warfare, The Book of Saladin is an entertaining feat of revisionist storytelling” —The Sunday Times As victories mount and accolades are showered upon the great warrior Saladin, he is nearly deified. He conquers the infidel Franj, or Crusaders, and reclaims the holy city of Jerusalem while remaining true to his senses of honor, justice, and humor. When it comes time for Saladin to record his own story, he turns to a Jewish scribe. In the interlinking stories of The Book of Saladin, the mighty sultan deftly navigates the deep chasms separating Muslims, Christians, and Jews.

The advice frequently given to chess-players eager to improve their results is straightforward: study tactics! But there is often little useful guidance as to how this is best done. By solving puzzle positions? Or endgame studies? By dissecting the games of great tacticians? Few books present a structured approach to tactics, so this book fills a valuable niche in the ambitious player's library. The authors present each major tactical theme in turn, explaining how it works and providing inspiring examples. They then explain how you can spot the idea in your own games and use it to your advantage. You immediately get a chance to put your knowledge to the test, as there are challenging exercises throughout the whole book, with detailed solutions. The second part of the book offers more advanced material, and takes us inside the professional's tactics laboratory. Here we see how tactical themes are combined, and employed to achieve strategic goals. We are also shown how grandmasters spot the targets for their breathtaking combinations, which we thus come to see not as sheer witchcraft, but as the product of disciplined thought and training.

A brilliant reconstruction of the operatic—and catastrophic—romance of a Hapsburg princess and a lowly cavalryman It was a great European scandal: she was the wife of a prince, the daughter of King Leopold II of the Belgians, and a familiar figure in the court of the aged emperor Franz Joseph. Her lover was Second Lieutenant Géza Mattachich. Ten years younger than the princess, a dashing figure in his fitted tunic and shiny boots, he was an undistinguished subaltern of dubious origin and extravagant ambition. Ahead of them both lay assignations, adultery, flight, the squandering of a fortune (not his; not hers either, as things worked out), a duel, imprisonment, bankruptcy, madness. And, as well, a genuine heroine—in the form of canteen worker Maria Stöger—who was no less ready than the princess and her soldier to risk all for love. With sparkling, satirical prose, *All for Love* moves from one end of pre–World War I Europe to the other. Shuttling between historical fact and fiction, between their time and ours, it evokes a world in which propriety conceals what is predatory, greedy, and corrupt. Long forgotten, Louise and Mattachich have been resurrected and placed, along with their few friends and many enemies, at the center of a drama that is both extravagant and profound.

In the wake of the attacks on New York and Washington many people believe we have entered a new world, but in this thought-provoking and thorough examination of the history of terrorism we can take comfort from the fact that we have been in this new world before - and survived. By drawing on the examples of history from the ancient, mediaeval and early modern worlds, Caleb Carr demonstrates how attempts to control civilian populations with the use of terror grew into a persistent problem in human history. Moving forward into more recent times he then demonstrates how and why such tactics have consistently failed their perpetrators - from the British scorched earth policy during the American War of Independence to terror at sea during WWI to the Japanese rape of China in WWII to the war in Vietnam and, ultimately, to the actions of Islamic extremists today. An important and timely book which throws much needed light on many of the questions being posed today.

One of the world's most beloved and bestselling writers takes his ultimate journey -- into the most intriguing and intractable questions that science seeks to answer. In *A Walk in the Woods*, Bill Bryson trekked the Appalachian Trail -- well, most of it. In *In A Sunburned Country*, he confronted some of the most lethal wildlife Australia has to offer. Now, in his biggest book, he confronts his greatest challenge: to understand -- and, if possible, answer -- the oldest, biggest questions we have posed about the universe and ourselves. Taking as territory everything from the Big Bang to the rise of civilization, Bryson seeks to understand how we got from there being nothing at all to there being us. To that end, he has attached himself to a host of the world's most advanced (and often obsessed) archaeologists, anthropologists, and mathematicians, travelling to their offices, laboratories, and field camps. He has read (or tried to read) their books, pestered them with questions, apprenticed himself to their powerful minds. *A Short History of Nearly Everything* is the record of this quest, and it is a sometimes profound, sometimes funny, and always supremely clear and entertaining adventure in the realms of human knowledge, as only Bill Bryson can render it. Science has never been more involving or entertaining.

*Balkan Holocausts?* compares and contrasts Serbian and Croatian propaganda from 1986 to 1999, analyzing each group's contemporary interpretations of history and current events. It offers a detailed discussion of holocaust imagery and the history of victim-centered writing in nationalism theory, including the links between the comparative genocide debate, the so-called holocaust industry, and Serbian and Croatian nationalism. No studies on Yugoslavia have thus far devoted significant space to such analysis.

"A meditation on yearning, solitude, and self; a soul storm, a mirage of phantom figures . . . a book of deep reckoning." —The New York Times Book Review  
The #1 international bestselling phenomenon—a profound and riveting story of love, loss, and memory. A man at a crossroads in the middle of his life considers the place where he's from, and where his parents have recently died. In the face of enormous personal tumult, he sits down to write. What follows is an audacious chronicle of his childhood and an unsparing account of his life's trials, failures, and triumphs that becomes a moving look at what family gives and takes away. With the intimacy of a diarist, he reckons with the ghosts of his parents and the current specters of his divorce, his children, his career, and his addictions. In unswervingly honest prose, Vilas explores his identity after great loss—what is a person without a marriage or without parents? What is a person when faced with memories alone? Already an acclaimed poet and novelist in Spain, Vilas takes his work to a whole new level with this autobiographical novel; critics have called it "a work of art able to cauterize pain." Elegiac and searching, *Ordesa* is a meditation on loss and a powerful exploration of a person who is both extraordinary and utterly ordinary—at once singular and representing us all—who transforms a time of crisis into something beautiful and redemptive.

We are entering a Space Age, but not the kind President Kennedy originally envisioned. This Space Age is replacing resource wars and redefines planet earth as a "battlespace" in accordance with the military doctrine of "Full-Spectrum Dominance." This book examines how chemtrails and ionospheric heaters like the High-frequency Active Auroral Research Project (HAARP) in Alaska services a full-spectrum dominance. This "Revolution in Military Affairs" needs an atmospheric medium to assure wireless access to the bodies and brains of anyone on Earth—from heat-seeking missiles to a form of mind control. How sinister are these technologies? Are we being prepared for a "global village" lockdown? The recent release of NSA records have reminded Americans that "eyes in the sky" are tracking us as supercomputers record the phone calls, e-mails, internet posts, and even the brain frequencies of millions. Elana M. Freeland's startling book sifts through the confusion surrounding chemtrails-versus-contrails and how extreme weather is being "geo-engineered" to enrich disaster capitalists and intimidate nations. A deconstruction of Bernard J. Eastlund's HAARP patent points to other covert agendas, such as a global Smart Grid infrastructure that enables access to every body and brain on Earth, a "Transhumanist" future that erases lines between human and machine, and Nanobiological hybrids armed with microprocessors that infest and harm human bodies.

In English for the first time, a guide to the true secret structure of the Illuminati and their invisible network made of various power structures, author Leo Lyon Zagami uses their internal documents and reveals confidential and top-secret events. His book contends that the presence of numerous Illuminati brotherhoods and secret societies—just as those inside the most prestigious U.S. universities such as Yale or Harvard—have always been guides to the occult. From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes not only the hidden structure of the New World Order and the occult practices but also their connections to the intelligence community and the infamous Ur-Lodges.

Secret societies have both fascinated and frightened people for hundreds of years. Often the infamous Illuminati is mentioned as the core of conspiracies which span the globe. The Illuminati is actually a historical secret society which had goals of revolutions and world domination dating back to the 1770s. Since then, rumors and conspiracy theories involving the Illuminati continue to spread, sometimes finding their way into popular novels like Dan Brown's Angels & Demons and Hollywood movies like Lara Croft: Tomb Raider. Some men have even come forward claiming to be former members, offering details of what they allege are the inner workings of the organization. When you sift through all of the information available on the subject, you may be surprised that the truth is stranger than fiction. In The Illuminati: Facts & Fiction, conspiracy and occult expert Mark Dice separates history from Hollywood and shows why tales of the secret society won't die. - Original Writings and Documents - Purported Texts - Freemasonry's Connections - The Georgia Guidestones - Alleged Victims and Defectors - Aliens and Reptilians - Activists and Eyewitnesses - Fictional books - Fictional films - TV references - The Music Industry - Mainstream Media Manipulation - Documentary Films - Pre Illuminati Organizations - The Luciferian Doctrine - The Federal Reserve - Skull and Bones - The Bilderberg Group - Bohemian Grove - The Council on Foreign Relations - The Franklin Cover-up - Sex Magic - Election Fraud - The Necronomicon - The Church of Satan - The Secret Doctrine - Emerald Tablet - The Book of Thoth - The Book of Dzyan - The Report From Iron Mountain - Protocols of the Elders of Zion - The Holy Grail - MK-ULTRA Documents - The Satanic Bible - The Secret Doctrine - David Rockefeller's Memoirs - Memoirs Illustrating the History of Jacobinism - Secret Societies and Subversive Movements - Occult Theocracy - Externalization of the Hierarchy - None Dare Call It Conspiracy - Magick: In Theory and Practice - Bloodlines of the Illuminati - The Lexicon of Freemasonry - Morals and Dogma - The Secret Teachings of All Ages - Myron Fagan - Edith Miller - Gary Allen - Abbe Barruel - Nesta Webster - Anthony J. Borislav Pekic's The Houses of Belgrade, first published in 1970, draws a parallel between the unrest culminating in the Belgrade student riots of 1968 and that at two earlier points in the history of Yugoslavia: the riots which immediately preceded Germany's attack on Belgrade in the spring of 1941 and the turmoil of Serbia's entry into World War I. Pekic relates his tale through the character of Arsenie Negovan, one of the prime builders of houses in Belgrade. Although Arsenie is dying, losing his sanity as his life seeps away, his narrative is sustained by his intellectual and aesthetic vision, by his love of buildings and his passionate obsession with the houses of Belgrade. Through this metaphor of the gradual decline of a builder's mind, Pekic gives us a compelling look at the unspoken fear of loss and destruction in a chronically disrupted urban society.
