A compelling biography of a key figure of the French Revolution captures the paradoxical life of Maximilien Robespierre, from his beginnings as a provincial lawyer, to his rise to power as a revolutionary leader, to his eventual end on the guillotine that had taken the lives of so many during the Terror that he had orchestrated. Reprint. Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books.

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the

In *The Atlantic Slave Trade in World History*, Jeremy Black presents a compact yet comprehensive survey of slavery and its impact on the world, primarily centered on the Atlantic trade. Opening with a clear discussion of the problems of defining slavery, the book goes on to investigate the Atlantic slave trade from its origins to abolition, including comparisons to other systems of slavery outside the Atlantic region and the persistence of modern-day slavery. Crucially, the book does not ask readers to abandon their emotional ties to the subject, but puts events in context so that it becomes clear how such an institution not only arose, but flourished. Black shows that slavery and the slave trade were not merely add-ons to the development of Western

civilization, but intimately linked to it. In a vital and accessible narrative, *The Atlantic Slave Trade in World History* enables students to understand this terrible element of human history and how it shaped the modern world.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: an up-to-date assessment of the potential and pitfalls of U.S. and world history education; information to help teachers expect, and get good performance from students of all racial, ethnic, and socioeconomic backgrounds; strategies for incorporating project-oriented self-learning, having students conduct online historical

A “fascinating” look at what students in Russia, France, Iran, and other nations are taught about America (The New York Times Book Review). This “timely and important” book (History News Network) gives us a glimpse into classrooms across the globe, where opinions about the United States are first formed. History Lessons includes selections from textbooks and teaching materials used in Russia, France, Iran, Saudi Arabia, Cuba, Canada, and others, covering such events as the American Revolution, the Cuban Missile Crisis, the Iran hostage crisis, and the Korean War—providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post-Cold War era. By juxtaposing starkly contrasting versions of the historical events we take for granted, History Lessons affords us a sometimes hilarious, often sobering look at what the world thinks about America’s past. “A brilliant idea.” —Foreign Affairs

Latin America in the Modern World covers all regions of Latin America and is the first text to situate modern Latin American history in a global context. While providing in-depth coverage of the history of the three largest Latin American countries - Mexico, Brazil, and Argentina - this text also offers case studies from almost all of the countries and clearly identifies themes, topics, people, and intellectual currents that help to knit the history of modern Latin America into a coherent category of study.
