From Jail to Jail is the political autobiography of Sutan Ibrahim gelar Tan Malaka, an enigmatic and colorful political thinker of twentieth-century Asia, who was one of the most influential figures of the Indonesian Revolution. Variouslly labeled a communist, Trotskyite, and nationalist, Tan Malaka managed to run afoul of nearly every political group and faction involved in the Indonesian struggle for independence. During his decades of political activity, he spent periods of exile and hiding in nearly every country in Southeast Asia. As a Marxist who was expelled from and became a bitter enemy of his country's Communist Party and as a nationalist who was imprisoned and murdered by his own government's forces as a danger to its anticolonial struggle, Tan Malaka was and continues to be soaked in contradiction and controversy. Translated by Helen Javis and with a new introduction from Harry A. Poeze, this edition of From Jail to Jail contextualizes the life and political accomplishments of Tan Malaka in one of the few known autobiographies by a Marxist of this political era and region.

'One of the finest writers of his generation' Financial Times Thousands of islands rise from the rivers' rich silts, crowned with forests of mangrove, rising on stilts. This is the Sundarban, where great rivers give birth; to a vast jungle that joins Ocean and Earth. Jungle Nama is a beautifully illustrated verse adaptation of a legend from the Sundarbans, the world's largest mangrove forest. It tells the story of the avaricious rich merchant Dhona, the poor lad Dukhey, and his mother; it is also the story of Dokkhin Rai, a mighty spirit who appears to humans as a tiger, of Bon Bibi, the benign goddess of the forest, and her warrior brother Shah Jongoli.

Jungle Nama is the story of an ancient legend with urgent relevance to today's climate crisis. Its themes of limiting greed, and of preserving the balance between the needs of humans and nature have never been more timely. Written in Amitav Ghosh's interpretation of the traditional Bengali verse meter, poyar, the poem is coupled with stunning illustrations from internationally renowned artist, Salman Toor.

Peter disobeys his mother by going into Mr. McGregor's garden and almost gets caught.

In the past fifteen years, Ireland has gone from being one of the poorest countries in the EU to one of the richest in the world. Of all the factors in this extraordinary transformation, none has been more prominent than the astonishing boom in construction. In *The Builders*, Frank McDonald and Kathy Sheridan tell the stories of these men and of the changes - physical and psychological - they have brought about. The story of Ireland's property developers has been the great untold story of the boom - until now. 'Essential reading' Sunday Business Post

The National Asset Management Agency (NAMA) was created in 2009 to contain the spiralling fallout from Ireland's property crisis. Its job as Ireland's 'bad bank' was to act impartially to get the maximum return from the sale of assets for the Irish people and help pay down the state's massive debts. Now, after NAMA has presided over the transfer of €70 billion in assets, the Irish economy is once again beginning to recover. But the basic arithmetic of assets valued and assets sold hides a multitude of sins. Beneath NAMA's veneer of impartiality lies a world built on political patronage and nepotism, rife with conflicts of interest and vulnerable to shocking instances of corruption. Here, and for the first time, bestselling investigative journalist, Frank Connolly, unravels the scandal at the heart of NAMA's mission. Based on exclusive interviews with a wide range of interested parties, *NAMA-land* is the shocking story of how the sale of public assets conspired to disinherit the Irish people and enrich a new elite. 'Frank Connolly's careful and penetrating investigative research has exposed critical truths about malfeasance in high places and the often ugly workings of political power generally, actions

Citizen Quinn tells the staggering story of the rise and fall of Ireland's richest man: Sean Quinn. A few years ago, Sean Quinn was ranked among the two hundred richest people in the world, with a personal fortune of some \$6 billion. Today he is bust, and his businesses have been taken from him. How did it all happen? In Citizen Quinn, Ian Kehoe and Gavin Daly trace the remarkable life of the 'simple farmer's son' who made most of his money through guts and graft long before the excesses of the Celtic Tiger, who brought economic vibrancy to a depressed border region, and who then lost it all through a disastrous move into the insurance business and a multi-billion-euro gamble on the shares of the world's most toxic bank. 'Gripping and well-researched ... paints a picture of a man who is delusional about what has happened and the extent to which he is to blame' Irish Times 'For all those intrigued by by a small Cavan farmer's son came to be one of the richest men in the world, and then lost it all, Citizen Quinn is a must-read' Sunday Business Post 'The book chronicles this truly compelling story, and the story of a compelling man' Irish Mail on Sunday 'A gripping story told in language that people without an MBA can follow' Irish Independent 'A great read' Sean O'Rourke, RTE Radio One

Ard? Wir?z N?mag or the Book of the Righteous Wir?z is an outstanding example of Iranian apocalyptic literature. It is in the Middle Persian (Pahlavi) language and was written probably during the later period of the Sasanian dynasty (AD 226-650). The Zoroastrian priests chose a man called Wir?z, the most righteous among them, to go to the spiritual realm to discover the truth of the religion. This book, first published in 1986, contains the observations of Wir?z' divine journey and his description of heaven and hell. The basic MS. is K20 (Royal Library of Copenhagen) which is carefully compared with other MSS. The MS. is printed in facsimile, followed by transliteration and transcription following the MS. closely line by line. A full translation is given, and a commentary is included together with a glossary, bibliography and index.

The Lie of the Land is a novel set against the background of the German colonial wars in Namibia in the early 1900s. The central character is an academic in linguistics who

occasionally acts as a British agent. He is a cynical, private individual who sees himself as a neutral observer but is eventually forced to take sides when he witnesses the atrocities of the Herero and Nama genocide and, above all, meets a young Nama woman who enchants him. The novel explores the shifting nature of the oppressor and the oppressed. Despite the unfolding tragic events, the story is lightened by surprising bursts of humour, and is ultimately a love story.

The 1987 publication of *You Can't Get Lost in Cape Town* won Zo Wicomb an international readership and wide critical acclaim. As richly imagined and stylistically innovative as Wicomb's debut work, *David's Story* is a mesmerizing novel, multilayered and multivoiced, at times elegiac, wry, and expansive. Unfolding in South Africa at the moment of Nelson Mandela's release from prison in 1991, the novel explores the life and vision of David Dirkse, part of the underground world of activists, spies, and saboteurs in the liberation movement a world seldom revealed to outsiders. With "time to think" after the unbanning of the movement, David is researching his roots in the history of the mixed-race "Coloured" people of South Africa and of their antecedents among the indigenous people and early colonial settlers. But David soon learns that he is on a hit list, and, caught in a web of betrayal and surveillance, he is forced to rethink his role in the struggle for "nonracial democracy," the loyalty of his "comrades," and his own conceptions of freedom. Through voices and stories of David and the women who surround him responding to, illuminating, and sometimes contradicting one another Wicomb offers a moving exploration of the nature of political vision, memory, and truth.

As recently as 2007, the Irish economy was still booming and the state coffers overflowing; by the end of 2008, the state faces an unprecedented crisis. The story of the Irish banking collapse is a tawdry tale of collusion, back-scratching and denial among bankers, developers, regulators and politicians. This is the story Shane Ross - independent Senator, long-time champion of citizens against misbehaving corporations, and Journalist of the Year 2009 - tells in *The Bankers*, going behind the scenes and the headlines to explain what happened, how it happened and who made it happen. They're all here: Sean FitzPatrick, Michael Fingleton and the other bank bosses; Patrick Neary and his colleagues in Ireland's failed regulatory apparatus; the property developers, whose borrowings ruined the banks, and many of whom are now personally ruined; and the politicians, whose policies helped inflate the property bubble and who have allowed the banks to dictate the terms of their bail-out. Shane Ross knows the stories of these people and what they got up to, and in *The Bankers* he makes sense of a scandal that will haunt Ireland for years to come.

Routledge International Handbook of Irish Studies begins with the reversal in Irish fortunes after the 2008 global economic crash. The chapters included address not only changes in post-Celtic Tiger Ireland but also changes in disciplinary approaches to Irish Studies that the last decade of political, economic, and cultural unrest have stimulated. Since 2008, Irish Studies has

been directly and indirectly influenced by the crash and its reverberations through the economy, political landscape, and social framework of Ireland and beyond. Approaching Irish pasts, presents, and futures through interdisciplinary and theoretically capacious lenses, the chapters in this volume reflect the myriad ways Irish Studies has responded to the economic precarity in the Republic, renewed instability in the North, the complex European politics of Brexit, global climate and pandemic crises, and the intense social change in Ireland catalyzed by all of these. Just as Irish society has had to dramatically reconceive its economic and global identity after the crash, Irish Studies has had to shift its theoretical modes and its objects of analysis in order to keep pace with these changes and upheavals. This book captures the dynamic ways the discipline has evolved since 2008, exploring how the age of austerity and renewal has transformed both Ireland and scholarly approaches to understanding Ireland. It will appeal to students and scholars of Irish studies, sociology, cultural studies, history, literature, economics, and political science.

A devastating new exposé from the bestselling authors of *The Bankers and Wasters*. In March 2011, the Irish people elected a new government. But how much had really changed? In *The Untouchables*, Shane Ross and Nick Webb shine a light into dark corners of official Ireland to show that the blame for running the country into the ground goes well beyond Fianna Fáil, and that a dismaying number of the people who should share the blame are still in situ: in the civil service, on the boards of the leading companies, and in the banks, law firms, and consultancies that carry so much influence in deciding who wins and who loses. They name names, trace connections, and show how the untouchables managed to do so much damage, how they got away with it, and how so many of them are still in positions of power and influence in Ireland. 'Fascinating ... required reading for anyone interested in how crony capitalism and power work in practice in Ireland' *Irish Times* 'The *Untouchables* is hard to put down. Read it and seethe.' *Irish Independent* Shane Ross is an independent TD for Dublin South, and columnist in the *Sunday Independent*. Nick Webb is business editor of the *Sunday Independent*. They are the authors of *Wasters*, 2010's top-selling Irish current affairs title.

As late as 2007, Anglo Irish Bank was a darling of the markets, internationally recognized as one of the fastest growing financial institutions in the world. By 2008, it was bust. The Irish government's hopeless attempts to save Anglo have led the state to ruin - culminating in a punitive IMF bailout in late 2010 and threatening the future of the euro. Now, for the first time, the full story of the Anglo disaster is being told - by the journalist who has led the way in coverage of the bank and its many secrets. Drawing on his unmatched sources in and around Anglo, Simon Carswell of the Irish Times shows how the business model that brought Anglo twenty years of spectacular growth was also at the heart of its - and Ireland's - downfall. He paints a vivid and disturbing picture of life inside Anglo - the credit committee meetings, the lightning-quick negotiations with property developers, the culture of lavish entertainment for politicians and regulators - and of the men who presided over its dizzying rise and fall: Sean FitzPatrick, David Drumm, Willie McAteer and many others. This is not only the first full account of the Anglo disaster; it will also be the definitive one.

A music loving teen with OCD does everything she can to find her way back to her mother during the historic race riots in 1969 Kuala Lumpur, Malaysia, in this heart-pounding, "stunning" (Publishers Weekly, starred review) debut. Melati Ahmad looks like your typical movie-going, Beatles-obsessed sixteen-year-old. Unlike most other sixteen-year-olds though, Mel also believes that she harbors a djinn inside her, one who threatens her with horrific images of her mother's death unless she adheres to an elaborate ritual of counting and tapping to keep him satisfied. A trip to the movies after school turns into a nightmare when the city erupts into violent race riots between the Chinese and the Malay. When gangsters come into the theater and hold movie-goers hostage, Mel, a Malay, is saved by a Chinese woman, but has to leave her best friend behind to die. On their journey through town, Mel sees for herself the devastation caused by the riots. In her village, a neighbor tells her that her mother, a nurse, was called in to help with the many bodies piling up at the hospital. Mel must survive on her own, with the help of a few kind strangers, until she finds her mother. But the djinn in her mind threatens her ability to cope.

is delicious.” —Kirkus Reviews For fans of *Amélie* and *The Little Paris Bookshop*, a modern fairytale about a French woman whose life is turned upside down when she meets a reclusive bookseller and his young daughter. Juliette leads a perfectly ordinary life in Paris, working a slow office job, dating a string of not-quite-right men, and fighting off melancholy. The only bright spots in her day are her métro rides across the city and the stories she dreams up about the strangers reading books across from her: the old lady, the math student, the amateur ornithologist, the woman in love, the girl who always tears up at page 247. One morning, avoiding the office for as long as she can, Juliette finds herself on a new block, in front of a rusty gate wedged open with a book. Unable to resist, Juliette walks through, into the bizarre and enchanting lives of Soliman and his young daughter, Zaide. Before she realizes entirely what is happening, Juliette agrees to become a passeur, Soliman's name for the booksellers he hires to take stacks of used books out of his store and into the world, using their imagination and intuition to match books with readers. Suddenly, Juliette's daydreaming becomes her reality, and when Soliman asks her to move in to their store to take care of Zaide while he goes away, she has to decide if she is ready to throw herself headfirst into this new life. Big-hearted, funny, and gloriously zany, *The Girl Who Reads on the Métro* is a delayed coming-of-age story about a young woman who dares to change her life, and a celebration of the power of books to unite us all.

Simon Kelly's involvement in property development began when, as a computer-mad child in the 1980s, he started making spreadsheets for his father, the developer Paddy Kelly. By 2008, when the Irish property market crashed, Simon and Paddy owed their creditors nearly a billion euro. In 2009, they were the first big developers to admit they were bust - and they encouraged their fellow developers to face reality in the same way. In 2010, in the pages of a national newspaper, Simon Kelly apologized for his part in the long-term damage created by the property bubble. Until now, the story of Ireland's property boom and bust has been told only by people on the outside. The bankers and the developers have kept quiet. Now, Simon Kelly breaks the silence with this vivid and unsparing account of how it all worked and why it went sour. He brings us to the muddy fields, humble cafés and grand dining rooms where the deals were made; he explains how it was that debt always beget more debt; and he takes us through the hitherto opaque portals of Anglo Irish Bank, the Kellys' main lender. In an account packed with telling and indiscreet detail, Simon Kelly makes no excuses for ending up bust. He simply shows how it happened - to him, to other developers, to the banks, and to the country. In doing so, he courageously breaks ranks with the insiders who created this disaster, and who would prefer to blame 'international forces', bad luck, or one another. *Breakfast with Anglo* is a landmark in our national accounting of the present crisis, an essential read for anyone who wants to know how we got into this mess and how we might begin to think about getting out of it.

"A dreamy and transgressive feminist retelling of the Great Flood from the perspective of Noah's wife as she wrestles with the mysterious metaphysics of womanhood at the end of the world." —O, The Oprah Magazine With the coming of the Great Flood—the mother of all disasters—only one family was spared, drifting on an endless sea, waiting for the waters to subside. We know the story of Noah, moved by divine vision to launch their escape. Now, in a work of astounding invention, acclaimed writer Sarah Blake reclaims the story of his wife, Naamah, the matriarch who kept them alive. Here is the woman torn between faith and fury, lending her strength to her sons and their wives, caring for an unruly menagerie of restless creatures, silently mourning the lover she left behind. Here is the woman escaping into the unreceded waters, where a seductive angel tempts her to join a strange and haunted world. Here is the woman tormented by dreams and questions of her own—questions of service and self-determination, of history and memory, of the kindness or cruelty of fate. In fresh and modern language, Blake revisits the story of the Ark that rescued life on earth, and rediscovers

the agonizing burdens endured by the woman at the heart of the story. Naamah is a parable for our time: a provocative fable of body, spirit, and resilience.

Australian deserts remain dotted with the ruins of old mosques. Beginning with a Bengali poetry collection discovered in a nineteenth-century mosque in the town of Broken Hill, Samia Khatun weaves together the stories of various peoples colonized by the British Empire to chart a history of South Asian diaspora. Australia has long been an outpost of Anglo empires in the Indian Ocean world, today the site of military infrastructure central to the surveillance of 'Muslim-majority' countries across the region. Imperial knowledges from Australian territories contribute significantly to the Islamic-Western binary of the post- Cold War era. In narrating a history of Indian Ocean connections from the perspectives of those colonized by the British, Khatun highlights alternative contexts against which to consider accounts of non-white people. Australianama challenges a central idea that powerfully shapes history books across the Anglophone world: the colonial myth that European knowledge traditions are superior to the epistemologies of the colonized. Arguing that Aboriginal and South Asian language sources are keys to the vast, complex libraries that belie colonized geographies, Khatun shows that stories in colonized tongues can transform the very ground from which we view past, present and future.

The death of the Celtic tiger is not an extinction event to trouble naturalists. There was, in fact nothing natural about this tiger, if it ever really existed. The "Irish Economic miracle" was built on good old-fashioned subsidies (from the European Union) and the simple fact that until the 1980s Ireland was by the standards of the developed world so economically backward that the only way was up. And as it began to catch up to European and American averages, the Irish economy could boast some seemingly remarkable statistics. These lured in investors, the Irish deregulated and all but abandoned financial oversight, and a great Irish financial ceilidh began. It would last for a decade. When the global financial crash of 2008 arrived it struck Ireland harder than anywhere - even Iceland looked like a model of rectitude compared to the fiasco that stretched from Cork to Dublin. There was an avalanche of statistics as toxic as the property-based assets that lay beneath many of them And under all this rubble lay the corpse of the Celtic Tiger. How Ireland managed to achieve such a spectacular implosion is a stunning story of corruption, carelessness and venality, told with passion and fury by one of Ireland's most respected journalists and commentators.

Bryan was born into an "Anglo-Indian" family in 1952. His schooling was completed in 1968, exclusively in "Anglo-Indian" schools, which, up to that point in time at least, were identifiably "Anglo-Indian". Growing up with an "us/them" attitude, the issue was not a real problem until early research work in the field of British Fiction on India brought to Bryan's notice the unchanging negative profiling of the "Anglo-Indian" in books on the theme. Full-fledged research on the "Anglo-Indian" identity (which culminated in a PhD from the University of Madras in 2010) threw up the picture of a minimal human species that combined the worst traits of East and West. Since Kipling's refrain was so blindly accepted in the nineteenth century, and most of the twentieth century, writers--both Indian and Western--blatantly vilified the "Anglo-Indian", in life as in fiction. This book is an attempt to set down an accurate record, by examining some of the latest (and not so new) books on the exclusive subject. It also calls to account the horrendous and often unforgivable errors made by some writers and many critics. Today, more than ever before, "Anglo-Indians" are completely at home, in India, as well as in other parts of the English-speaking world. It is hoped that, in time, a clearer, more humane picture of the real "Anglo-Indian" will emerge, as it must, when understanding erases the dark images of the past.

A gripping royal saga of charmed lives in a changing world. The Jaipurs were India's mid-century golden couple; its answer to the Kennedys, or Queen Elizabeth and Prince Philip. Jai and Ayesha, as they were known to friends like Frank Sinatra, Truman Capote and 'Dickie' Mountbatten, entertained lavishly at their magnificent palaces and hunting lodges in Rajasthan--and in the nightclubs of London, Paris and New York. But as the Raj gave way to the new India, Jaipur--the most glamorous and romantic of the princely states--had to find its place. The House of Jaipur charts a dynasty's determination to remain relevant in a democracy set on crushing its privileges. Against the odds, they secured their place at the height of Indian society; but Ayesha would pay for her criticism of Indira Gandhi during the Emergency. From the polo field and politics to imprisonment and personal tragedy, the Jaipurs' extraordinary journey of transformation mirrors the story of a rapidly changing country.

A successful property developer in England, the Sligo-born Tom Gilmartin had ambitious plans for major retail developments in Dublin in the late 1980s. Little did he know that in order to do business in the city, senior politicians and public officials would want a slice of the action ... in the form of large amounts of cash. Gilmartin blew the whistle on corruption at the heart of government and the city's planning system, and the fallout from his claims ultimately led to the resignation

of the Taoiseach Bertie Ahern in 2008. Written by Ireland's leading investigative journalists, Tom Gilmartin is a compelling narrative of official wrong-doing and abuse of office; it lifts the lid on the corruption and financial mismanagement that blighted Irish society in latter decades of the twentieth century. The product of two decades' research, it's a must-read for anyone seeking to uncover the roots of Ireland's financial catastrophe.
