Since leaving home for Europe alone at age seventeen, Karen Gershowitz has traveled to more than ninety countries. In pursuit of her passion for travel, she lost and gained friends and lovers and made a radical career change. She learned courage and risk taking and succeeded at things she didn't think she could do: She climbed Mt. Kilimanjaro. She visited remote areas of Indonesia on her own and became a translator, though only fluent in English. She conquered her fear of falling while on an elephant trek in Thailand. And she made friends across the globe, including a Japanese family who taught her to make sushi and a West Berliner who gave her an insider's look at the city shortly after the wall came down. An example that will inspire armchair travelers to become explorers and embolden everyone to be more courageous, *Travel Mania* is a vivid story of how one woman found her strength, power, and passion. Travel is Karen's addiction—and she doesn't want treatment.

At twenty-three, William Simon Baekeland was well on his way to becoming the world's best traveled person. The “billionaire” heir to a great plastics fortune had already visited 163 countries, but his real passion was finding ways to visit the world's most challenging destinations—war torn cities, disputed territories, and remote or officially off-limits islands at the margins of the map. He earned rock-star status in the world of extreme travel by finding ingenious ways to bring the world's most widely traveled people to difficult-to-reach and forbidden places. But when his story began to unravel, an eccentric group of hyper-well-traveled country collectors were left wondering how they had allowed their obsession to blind them to the warning signs that William Baekeland wasn't who they thought he was. *Mad Travelers: A Tale of Wanderlust, Greed and the Quest to Reach the Ends of the Earth* delves deep inside the subculture of country collecting, taking readers to danger zones like Mogadishu and geographical oddities like Norway's nearly impossible-to-reach Bouvet Island. Along the way, this raucous tale of adventure and international intrigue illuminates the perils and pleasures of wanderlust while examining a fundamental question: why are some people compelled to travel, while others are content to stay home? *Mad Travelers* is a perceptive and at times hilarious account of how the pursuit of everywhere put the world's greatest travelers at the mercy of a brilliant young con man. Soon to be an HBO documentary.

Spanning 15 years of travel, beginning when she is a sophomore in college, *Wanderlust* documents Elisabeth Eaves's insatiable hunger for the rush of the unfamiliar and the experience of encountering new people and cultures. Young and independent, she crisscrosses five continents and chases the exotic, both in culture and in romance. In the jungles of Papua New Guinea, she loses herself—literally—to an Australian tour guide; in Cairo, she reconnects with her high school sweetheart, only to discover the beginning of a pattern that will characterize her life over the long-term: while long-distance relationships work well for her, traditional relationships do not. *Wanderlust*, however, is more than a chronological conquest of men and countries: at its core, it's a journey of self-discovery. In the course of her travels, Eaves finds herself and the sense of home she's been lacking since childhood—and she sheds light on a growing culture of young women who have the freedom and inclination to define their own, increasingly global, lifestyles, unfettered by traditional roles and conventions of past generations of women.

As many places around the world confront issues of globalization, migration and postcoloniality, travel writing has become a serious genre of study, reflecting some of the greatest concerns of our time. Encompassing forms as diverse as field journals, investigative reports, guidebooks, memoirs, comic sketches and lyrical reveries; travel writing is now a crucial focus for discussion across many subjects within the humanities and social sciences. An ideal starting point for beginners, but also offering new perspectives for those familiar with the field, *The Routledge Companion to Travel Writing* examines: Key debates within the field, including postcolonial studies, gender, sexuality and visual culture Historical and cultural contexts, tracing the evolution of travel writing across time and over cultures Different styles,

modes and themes of travel writing, from pilgrimage to tourism Imagined geographies, and the relationship between travel writing and the social, ideological and occasionally fictional constructs through which we view the different regions of the world. Covering all of the major topics and debates, this is an essential overview of the field, which will also encourage new and exciting directions for study. A charming British hero, the woman who tempts him, and a hands-off arrangement that's oh-so-hard to maintain... My bags are packed and I'm ready to go. All I have to do is board a plane, and I'll be on my way to fulfilling a promise I made long ago. Bonus points -- my last week in Paris looks to be even better when I meet a gorgeous, clever American woman and make plans to take her back to my flat that night. But before we can get together for what would surely be a fantastic final fling, my boss hits me with a double whammy. My previous client didn't pay, so the trip's postponed, and the new client I now desperately need is none other than the tempting American I'm about to take home. Time to keep my hands to myself. And as I do, we get to know each other while we wander the streets of Paris together, where I discover she's witty, kind and has a delicious zest for life. Trouble is, I'm taking off for the other side of the world any day now. What could go wrong with falling in love in Paris? Everything, if one of you is leaving...

THE NEW YORK OBSERVER: ONE OF THE TOP 10 BOOKS FOR FALL It's no wonder that New York has always been a magnet city for writers. Manhattan is one of the most walkable cities in the world. While many novelists, poets, and essayists have enjoyed long walks in New York, not all of them have had favorable impressions. Addressing an endlessly appealing subject, *Walking New York* is a study of twelve American writers and several British writers who walked the streets of New York and wrote about their impressions of the city in fiction, nonfiction, and poetry. Seen through the eyes of Walt Whitman, Herman Melville, William Dean Howells, Jacob Riis, Henry James, Stephen Crane, Theodore Dreiser, James Weldon Johnson, Alfred Kazin, Elizabeth Hardwick, Colson Whitehead, and Teju Cole, almost all the works in *Walking New York* are about Manhattan, with only Whitman and Kazin writing about Brooklyn. Though the writers were often irritated, disturbed, and occasionally shocked by what they saw on their walks, they were still fascinated by the city William Dean Howells called "splendidly and sordidly commercial" and Cynthia Ozick called "faithfully inconstant, magnetic, man-made, unnatural—the synthetic sublime." In this idiosyncratic guidebook to New York, celebrated writers ruminate on questions that are still hotly debated to this day: the pros and cons of capitalism and the impact of immigration. Many imply that New York is a bewildering text that is hard to make sense of. Returning to New York after an absence of two decades, Henry James loathed many things about "bristling" New York, while native New Yorker Walt Whitman both celebrated and criticized "Mannahatta" in his writings. Combining literary scholarship with urban studies, *Walking New York* reveals how this crowded, dirty, noisy, and sometimes ugly city gave these "restless analysts" plenty of fodder for their craft.

A passionate, thought provoking exploration of walking as a political and cultural activity, from the author of the memoir *Recollections of My Nonexistence* Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.
