

Ob Questions For Nursing Students

An official publication of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN), *Perinatal Nursing, Fourth Edition* presents up-to-date information based on the most rigorous evidence and offers suggestions for best practices. This new edition of the authoritative, comprehensive text used by perinatal nurses worldwide features a wealth of new content to keep practice current. New chapters related to patient safety and the development of a highly reliable perinatal unit, inform nurses how to conduct team training and drills for obstetric emergencies, create checklists, and effectively handoff patients. It features expanded coverage of high-risk pregnancy, from bleeding in pregnancy to preterm labor and birth, diabetes, cardiac disease, pulmonary complications, multiple gestation, and maternal-fetal transport. An all-new chapter on obesity in pregnancy covers risks to the mother and fetus, care from preconception to postpartum, as well as bariatric surgery. An expanded chapter on newborn nutrition includes new sections on the infant feeding decision, benefits of breastfeeding, nutritional components, and preterm milk and lactation. Revised to meet the latest Board of Nurse Examiners criteria for the NCLEX-RN®, this book uses the well-known *Incredibly Easy!* approach to make NCLEX® review effective and enjoyable. In a light-hearted manner that reduces anxiety and aids retention, the book thoroughly reviews every area of nursing—adult care, psychiatric care, maternal-neonatal care, care of the child, leadership and management, and law and ethics. This edition includes a new chapter on how to prepare for the NCLEX®, plus 200 alternate-format questions and answers added to the appendix and accompanying CD-ROM. The book also includes an entertaining graphic novel depicting the NCLEX® process from application to license and valuable strategies for successfully passing the exam.

For fundamentals of nursing courses in the nursing curriculum. KOZIER & ERB'S FUNDAMENTALS OF NURSING, 9/e thoroughly addresses the key concepts of contemporary professional nursing, helping nurses grow and evolve to meet the demands of a dramatically changing health care system. The Ninth Edition's content has been systematically revised to reflect new evidence, and a stronger emphasis on aging, wellness, safety, and home- and community-based care. Its objectives have been updated and mapped to support QSEN Competencies, AACN Essentials, the NCLEX-RN(r) 2010 test plan, and the 2010 ANA Scope and Standards of Practice.

LIPPINCOTT Q&A REVIEW FOR NCLEX-RN, 13E is designed to help pre-licensure nursing students prepare to take the licensing examination. The book has more than 6,000 questions reviewing the four major content areas of pre-licensure programs: obstetrics, pediatrics, medical-surgical, and mental health nursing. The textbook also includes six comprehensive examinations to provide students a realistic example of the NCLEX-RN test, in which items are randomized by subject area and difficulty, and an additional new examination focused specifically on the challenging content area of pharmacology. The questions align with the 2019 National Council of State Boards of Nursing (NCSBN) test plan and are written in the style used on the licensing examination, with heavy emphasis on alignment of content with the NCSBN's Practice Analysis and associated Activity Statements. Other features include the use of all the types of alternate-format questions found on the licensing examination, detailed rationales for both correct and incorrect answers, information about the NCLEX-RN, study tips, and a Content Mastery and Test-Taking Self Analysis grid by which students can chart their own progress and modify study as needed. For courses in Pediatric Nursing. A comprehensive survey of family-centered

pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020.
