be especially useful for practitioners who have not undertaken this work before and are looking to expand their service offering. Part One of the book describes common beauty treatments with a brief explanation as to how they should be performed by a competent practitioner. Key practice notes are provided. This section also addresses the common problems and how to help your client pursue a claim for compensation while avoiding the common pitfalls. Part Two is intended to be a practical guide for practitioners and includes a sample client questionnaire and risk assessment checklist. It also considers patch tests, claims involving children, disclosure and public liability insurance issues. There is also a chapter discussing cosmetic surgery claims. This guide will assist as a useful resource to personal injury practitioners when dealing with beauty negligence claims.

ABOUT THE AUTHOR Greg Almond, is a specialist claimant personal injury Solicitor. He is Head of Personal Injury at Aticus Law in Manchester, Wilmslow and London. He has specialised in Personal injury throughout his career as a solicitor. Greg qualified as a solicitor in 2006 and has specialised in Personal Injury for more than 11 years, dealing with high value and niche personal injury claims, often acting for clients who have suffered life changing injuries following serious accidents. Having championed a campaign to highlight the dangers of home hair dye products, Greg met with MPs and posed questions direct to Ministers, resulting in a greater awareness of the potential dangers of some products. The Law of Personal Injury explores the area of law that involves "tortious conduct" -- that is, conduct which is wrongful. This handy guide examines three general aspects of liability in personal injury law -- negligence, intentional tort, and strict liability. Medical malpractice and products liability are also covered. A useful appendix provides sample documents, applicable statutes, and other pertinent information and data. A glossary is also included. The Legal Almanac series serves to educate the general public on a variety of legal issues pertinent to everyday life and to keep readers informed of their rights and remedies under the law. Each volume in the series presents an explanation of a specific legal issue in simple, clearly written text, making the Almanac a concise and perfect desktop reference tool. All volumes provide state-by-state coverage. Selected state statutes are included, as are important case law and legislation, charts and tables for comparison.

Whether you have been injured in an accident and need direction about your next steps or if you would simply like to arm yourself with knowledge should an accident ever occur, this small book is a treasure trove of solid advice based on the author's years of experience in personal injury law. Doug Zanes, attorney at law and author of this book, is a practicing attorney in Arizona and founder of Zanes Law, a Personal Injury Law Firm with offices in Phoenix, Glendale, and Tucson.

Everyone has an opinion about personal injury litigation. Many people feel that the right to sue for injuries should be severely limited in hopes that insurance costs will decrease. Others fear that legislation enacted to restrict the right to sue will make big business, the insurance industry, and medical practitioners less accountable to the public. They also fear the loss of financial compensation for injuries caused by a negligent or careless act. In this book, I examine every aspect of personal injury litigation, from attracting new clients to jury trials, and beyond. The personal injury laws vary from state to state and between state and federal court. Since 1983, I have been a trial lawyer in Pennsylvania and New Jersey. Much of the information presented involves those experiences. The law in your state may be different. Nevertheless, there is much uniformity throughout the states. The information in this book can be used by personal injury litigants and their counsel in any state. You may have to refer to local sources for the law or practice that applies to your situation. The law is

dynamic and ever-changing. It is flexible enough to accommodate a changing world. When the first automobile accident lawsuit was filed, the judge was not deterred by the fact that there were no automobile laws for guidance. The judge simply looked to the legal logic of horse-and-buggy cases. Similarly, when new technologies cause injuries in the future, the law will evolve to accommodate this. The federal and state legislatures constantly pass new laws. The courts rule every day on disputes that require interpretation of new laws and old. When a court decides a dispute, the court's ruling becomes precedent for the future. In other words, the interpretations that the judges dispense become the laws by which future litigants can be guided. This concept is known by the Latin term *stare decisis*. Sample Forms and Worksheets A book like this one cannot possibly include every procedural requirement of every jurisdiction in our country. The sample forms provided are general in nature, but are designed to give you a good idea of the types of forms that are used in most locations. Your state, county, and/or judge will have rules and forms that are not included in this book. Check with the court clerk and/or court website for your case to review any local rules and forms that apply. Often, such forms require the same information as the forms in this book, and are merely laid out differently or use slightly different language. You must follow the court's rules and use its forms. When those forms conflict with mine, use theirs.
