Lawyers, You Can Revitalize Your Career Starting Today. Whether you are in law school or a senior partner at an Am Law 100 firm, this book can help you revitalize your career to find the perfect job and create your ideal career. Benjamin Barton, a law professor at the University of Tennessee, in his recent book on the legal profession, stated that only "44 percent of BigLaw lawyers report satisfaction with their careers." According to a 2014 Gallup poll, only 32.4% of

professionals in the United States were engaged with their jobs. And over 15% were actively disengaged. There is a disconnect between lawyer's passions and their work. Some lawyers detest their jobs. Others tolerate their work for the paycheck. Either way, these lawyers are detached and dissatisfied with their jobs. They desire something deeper and more meaningful in their work and career. This book can help you revitalize your career and achieve success, prosperity, and personal fulfillment. Success, prosperity, and personal fulfillment as you, and only you, define those terms. The Professional Prosperity For Lawyers System Through the career revitalization system in this book, you will use your strengths to achieve goals reflecting your personal vision of an ideal career. You will explore jobs aligned with who you are and create a career path you have only dreamed of pursuing. Your career revitalization is based on two central premises. First, lawyers must view their career as a business. Whether you are a lawyer at the largest law firm in the world or are a sole practitioner, you are a business. Your career should be run like a business. Second, run your business as an entrepreneur if you want to be successful, prosperous, and personally fulfilled. If you want to realize your dreams of a perfect job and ideal career, the career revitalization process provides the framework. Use the framework, follow the process, and take the actions. You will get your perfect job and create your ideal career. A career giving you the freedom to do the work you what you want to do. When you want to do it. And, with the people you want to do it with. Imagine getting up in the morning looking forward to your day. Being rested and full of energy. Controlling your schedule. Working on projects that interest and excite you. Collaborating with people you like and respect. Taking time off to spend with family and friends. Having time for leisure activities or working on projects outside your job. This career revitalization system is grounded in the

practices, processes and actions of many lawyers who are successful, prosperous and personally fulfilled. You will live your dreams by implementing the career revitalization process. Why I Can Help You Revitalize Your Career I had a successful legal career, developed a book of business over \$3.5 million, was an equity partner at two Am Law 100 firms, was an in-house counsel at a publicly traded investment bank, went from in-house counsel to a law firm partner and left the law on several occasions. Most importantly, I know how you can achieve success, prosperity and personal fulfillment, and I have a strong desire to help you discover the path to your ideal career and life. I also endured decades of boredom and stress as a practicing lawyer. I disliked much of my work and was frequently disengagement from it. Substance abuse, bouts of depression, divorce, and financial issues are part of my career story. And, consideration of suicide on more than one occasion. I could not enjoy the fruits of my career "success" story. I am now on a mission. A mission to help you create an epic career of success, prosperity and personal fulfillment. Now is the time to take action. Start today by buying and reading this book.

Debunks nine myths about effective money management and describes the principles that lead to true financial success and prosperity.

I had always suspected the geographical authorities did not know what they were talking about when they located the battlefield of Munda in the county of the Bastuli-Poeni, close to the modern Monda, some two leagues north of Marbella. According to my own surmise, founded on the text of the anonymous author of the *Bellum Hispaniense*, and on certain information culled from the excellent library owned by the Duke of Ossuna, I believed the site of the memorable struggle in which Caesar played double or quits, once and for all, with the champions of the Republic, should be sought in the neighbourhood of Montilla. Happening to be in Andalusia during the autumn of 1830, I made a somewhat lengthy excursion, with the object of clearing up certain doubts which still oppressed me. A paper which I shall shortly publish will, I trust,

remove any hesitation that may still exist in the minds of all honest archaeologists. But before that dissertation of mine finally settles the geographical problem on the solution of which the whole of learned Europe hangs, I desire to relate a little tale. It will do no prejudice to the interesting question of the correct locality of Monda. I had hired a guide and a couple of horses at Cordova, and had started on my way with no luggage save a few shirts, and Caesar's Commentaries. As I wandered, one day, across the higher lands of the Cachena plain, worn with fatigue, parched with thirst, scorched by a burning sun, cursing Caesar and Pompey's sons alike, most heartily, my eye lighted, at some distance from the path I was following, on a little stretch of green sward dotted with reeds and rushes. That betokened the neighbourhood of some spring, and, indeed, as I drew nearer I perceived that what had looked like sward was a marsh, into which a stream, which seemed to issue from a narrow gorge between two high spurs of the Sierra di Cabra, ran and disappeared.

number one "stated" reason for divorce. So, what is this powerful force that shakes and shapes this planet that can even break strong emotional bonds? The answer is "money". This guidebook is about the mechanics of making and investing your money wisely. You will also receive 197 specific tips and rules-of-thumb to help you evaluate any stock investment. This section alone could easily be worth much more than the asking price of the book. In researching this book the author was extremely surprised that most Americans receive little, if any formal education during their lives about the actual mechanics of money itself. This guidebook will teach you how to accumulate money via careful investments without denting your normal lifestyle too much. It will also teach you about the amazing miracle of compound interest resulting in your secure and happy retirement. You will receive razor sharp insight on creating real wealth. The guidebooks many subjects include: Using Internet meta-searchers to extract wealth-building information, How to "mine-the-miners instead of the investment, Legal and insurance protection, Moonlight money, Creating a "prosperity mind", Using technology not for technologies sake, The ins and outs of borrowing money, Secrets of appearances, Proven wealth building and social status techniques of prosperous people, Common denominators of millionaires and billionaires, Alternate forms of money other than currency, Tips on how to reduce

your debt and improve your credit score, How to effectively deal with collection agencies, How to immediately negotiate and reduce your credit card APR's, How to save on energy costs, Making better buying decisions, The ins and outs of car buying finances, taking a closer look at your housing expenses, Risks verses rewards thinking, Government T-Bills and Bonds, Moonlight and day trading, and a look at non-traditional incomes. Make no mistake about it. Most Americans, no matter how smart they are in general, will sadly retire with such small savings that they will certainly be provided for only by Social Security or Social Services Agencies. There will be a daunting situation coming in the not so distant future. Millions of "baby boomers" will create a historical strain on the Social Security retirement system. This mass retirement will bring the largest redirection and exchange of money ever known in any economy in the history of mankind! Not even the best financial experts can predict the consequences at this time. Will the system go broke? Will the retirement age be moved up to 70 years old? Will benefits be reduced to a pittance? The author, Jeff Springfield believes that the answer to a wealth creation and a secure retirement is to begin a financial plan immediately which does not rely on financial aid from the government or other agencies. Among other things he strongly encourages everyone to start by having multiple streams of income. For example, he strongly urges his readers to

create their own home-based business in addition to their regular job no matter how small the initial profit is. Jeff Springfield openly states that he is not a financial Guru with all the answers. He, like many others, has in fact endured financial hardships in the past and knows the stress it causes all to well. Therefore he is also willing to share his own education from the "school of hard" knocks so you don't have to repeat the same mistakes. The author has spent over thirty years studying the insight and investment moves made by America's wealthiest people. He shares with you timeless advice in how to create wealth from the greats such as billionaire J. Paul Getty. This book is about making more money, not about being mean to other people. The author's approach is to teach you about ethical ways in which to improve your financial status. If you are seeking ruthless or dirty tricks wealth accumulation techniques, you will be deeply disappointed. This book is written in the style of the great Napoleon Hill. Think about this. With all of the success books out there, why don't we have more successful people? Too many success books simply rehash conventional wisdom. The truly great success books,

such as Napoleon Hill's "Think and Grow Rich", instead enable life-challenging success breakthroughs because they identify and describe in powerful detail the thinking patterns and principles of the world's most successful individuals. The only way to do this is to study the world's most successful individuals, as Napoleon Hill has done. And as I have done as well. For over two decades, I have devoted myself to studying and interviewing the most successful individuals across varying fields so that I could see and learn for myself the principles which sets them apart in terms of their success. And that is what I share with you here. Get ready to throw out many of the things that you thought you knew about success. Let's start at the beginning with a simple truth. Success is hard. Very Hard. Very very very hard. We all know that, once we have had a little bit of experience and are honest with ourselves. We all want to be more successful, but let's face it, sometimes we just don't know how. It's because, as they say, "We don't know what we don't know." So we make the same mistakes over and over again (often without fully realizing it until later). And then we blame ourselves (or others) in regard to why things didn't turn out as we had hoped, or planned. It's this simple. If you want to increase your level of success, read this book. We all go through the same struggles. This book - simply but powerfully - is your instruction manual on how to overcome them. Read this book and in 60 days you won't even recognize the person you used to be. And neither will your family and friends. This is the type of change that allows you to get the things you really want in life. The things previously outside your

reach. The things you saw others gain and achieve, but never seemed to be able to get for yourself. That can change today. We all know that a few better ideas can accelerate one's success substantially. Successful people take their better ideas and know how to leverage them further - and execute them better than other people do. Once you understand the processes that successful people utilize to do this, you can very quickly ramp up your own success as well. Everybody struggles. Successful people struggle just like unsuccessful people but they learn and use the success principles to overcome the difficulties in their lives to reach their goals. Success breeds confidence, making it easier overtime. If you don't want to keep making the same mistakes over and over again, you need to understand and understand well what these success principles are. That is what this book provides to you.

Tiffany Luong shares her magical moments of childhood including eye opening revelations of heart wrenching adventures with her family. toward life. What you think, that you become. Think straight and life becomes straight for you. It's as simple as that.
