That market forces drive the news is not news. Whether a story appears in print, on television,

or on the Internet depends on who is interested, its value to advertisers, the costs of assembling the details, and competitors' products. But in *All the News That's Fit to Sell*, economist James Hamilton shows just how this happens. Furthermore, many complaints about journalism--media bias, soft news, and pundits as celebrities--arise from the impact of this economic logic on news judgments. This is the first book to develop an economic theory of news, analyze evidence across a wide range of media markets on how incentives affect news content, and offer policy conclusions. Media bias, for instance, was long a staple of the news. Hamilton's analysis of newspapers from 1870 to 1900 reveals how nonpartisan reporting became the norm. A hundred years later, some partisan elements reemerged as, for example, evening news broadcasts tried to retain young female viewers with stories aimed at their (Democratic) political interests. Examination of story selection on the network evening news programs from 1969 to 1998 shows how cable competition, deregulation, and ownership changes encouraged a shift from hard news about politics toward more soft news about entertainers. Hamilton concludes by calling for lower costs of access to government information, a greater role for nonprofits in funding journalism, the development of norms that stress hard news reporting, and the defining of digital and Internet property rights to encourage the flow of news. Ultimately, this book shows that by more fully understanding the economics behind the news, we will be better positioned to ensure that the news serves the public good. "This work represents decades of research and television's entire history. While documentation regarding cast and personnel is now often found online, descriptions of the shows from authoritative sources are still not widely available. Terrace fills that gap with this work, which covers more than 9,350 shows and constitutes the most comprehensive documentation of TV

Who says a vamp can't have it all? Darcy Newhart thought it was a stroke of genius—the first—ever reality TV show where mortals vie with vampires for the title of The Sexiest Man on Earth. As the show's director, Darcy's career would be on track again. And she can finally have a life apart from the vampire harem. Okay, so she's still technically dead, but two out of three's not bad. Now she just has to make sure that a mortal doesn't win. If only she wasn't so distracted by a super—sexy and live contestant named Austin... But Darcy doesn't know the worst of it. Austin Erickson is actually a vampire slayer! And he's got his eye on the show's leggy blond director. Only problem is, he's never wanted any woman—living or dead—as badly. But if he wins her heart, will he lose his soul? And if it means an eternity of hot, passionate loving with Darcy, does that really matter anyway?

Celebrity culture today teems with stars who challenge long-held ideas about a "normal" body. Plus-size and older actresses are rebelling against the cultural obsession with slender bodies and youth. Physically disabled actors and actresses are moving beyond the stock roles and stereotypes that once constrained their opportunities. Stars of various races and ethnicities are crafting new narratives about cultural belonging, while transgender performers are challenging our culture's assumptions about gender and identity. But do these new players in contemporary entertainment media truly signal a new acceptance of body diversity in popular culture? Focusing on six key examples—Melissa McCarthy, Gabourey Sidibe, Peter Dinklage, Danny Trejo, Betty White, and Laverne Cox—*Rebellious Bodies* examines the new body politics of stardom, situating each star against a prominent cultural anxiety about bodies and inclusion, evoking issues ranging from the obesity epidemic and the rise of postracial rhetoric to disability rights, Latino/a immigration, an aging population, and transgender activism. Using a wide

variety of sources featuring these celebrities—films, TV shows, entertainment journalism, and more—to analyze each one's media persona, Russell Meeuf demonstrates that while these stars are promoted as examples of a supposedly more inclusive industry, the reality is far more complex. Revealing how their bodies have become sites for negotiating the still-contested boundaries of cultural citizenship, he uncovers the stark limitations of inclusion in a deeply unequal world.

Instead of advancing women's social and professional empowerment, popular culture trends appear to be backsliding into the blatant sexual exploitation of women and girls at younger and younger ages. This study investigates the effects of mass marketed sexual images and cultural trends on the behaviors and attitudes of young girls and describes many ways in which young girls are increasingly taught to go to outrageous lengths in seeking male attention. Topics include the powerful effects of cultural phenomena such as revealing fashions, plastic surgery, and beauty pageants in influencing teen and preteen girls to willingly participate in and promote their own sexualization. These chapters also explore other cultural factors contributing to this early sexualization of young girls, including absentee parenting and material overindulgence. Later chapters focus on the sexual representations of females in the mass entertainment media, focusing specifically on how popular magazines, television programs, films, and the Internet prey upon, promote, and reinforce young girls' physical and sexual insecurities.

This book explores television's efforts to remain culturally relevant, socially significant, and commercially viable in a changing media environment. It traces its adaptation to the digital era and television's attempts to appeal to its audience by using televisual strategies to simulate

Nearly every night on every major network, “unscripted” (but carefully crafted) “reality” TV shows routinely glorify retrograde stereotypes that most people would assume got left behind 35 years ago. In *Reality Bites Back*, media critic Jennifer L. Pozner aims a critical, analytical lens at a trend most people dismiss as harmless fluff. She deconstructs reality TV’s twisted fairytales to demonstrate that far from being simple “guilty pleasures,” these programs are actually guilty of fomenting gender-war ideology and significantly affecting the intellectual and political development of this generation’s young viewers. She lays out the cultural biases promoted by reality TV about gender, race, class, sexuality, and consumerism, and explores how those biases shape and reflect our cultural perceptions of who we are, what we’re valued for, and what we should view as “our place” in society. Smart and informative, *Reality Bites Back* arms readers with the tools they need to understand and challenge the stereotypes reality TV reinforces and, ultimately, to demand accountability from the corporations responsible for this contemporary cultural attack on three decades of feminist progress. This fully updated and expanded edition covers over 10,200 programs, making it the most comprehensive documentation of television programs ever published. In addition to covering the standard network and cable entertainment genres, the book also covers programs generally not covered elsewhere in print (or even online), including Internet series, aired and unaired pilot films, erotic series, gay and lesbian series, risqué cartoons and experimental programs from 1925 through 1945.

Trent Tucker, the protagonist of this hilarious satire, hates reality TV. Unfortunately, his job at Nova Consulting involves the creation of new reality shows that are even more outrageous and excessive than those now on television. Surrounded by colleagues who could easily be characters in the own reality show—dumb blonde, angry black man, flamboyant homosexual, frosty bitch, fast-talking Sicilian and their megalomaniacal boss, P.T. Beauregard—Trent's immersion is complete. The characters in Reality: the novel, behave a lot like their television counterparts as they bicker with each other incessantly, backstab their co-workers, find themselves on a deserted island and become involved in a murder plot—all good, clean fun that mimics the fantasy lives they feverishly try to create for their anxious network clients.

Sandya Hewamanne's *Stitching Identities in a Free Trade Zone* analyzed how female factory workers in Sri Lanka's free trade zones challenged conventional notions about marginalized women at the bottom of the global economy. In *Restitching Identities in Rural Sri Lanka* Hewamanne now follows many of these same women to explore the ways in which they negotiate their social and economic lives once back in their home villages. Drawing on ethnographic fieldwork conducted over fifteen years, the book explores how the former free-trade-zone workers manipulate varied forms of capital—social, cultural, and monetary—to become local entrepreneurs and community leaders, while simultaneously initiating gradual changes in rural social hierarchies and gender norms. Free trade zones introduce Sri Lankan women to neoliberal ways of fashioning selves, Hewamanne contends. Her book illustrates how varied manifestations of neoliberal attitudes within local contexts result in new articulations of what it is to be an entrepreneur as well as a good woman. By focusing on how former workers decenter neoliberal market relations while using their entrepreneurial and civic activities to reimagine social life in ways more satisfying to them and their loved ones—what the author calls a politics of contentment—the book sheds light on new political possibilities in contexts where both reproduction of neoliberal economic relations and implementation of alternatives co-exist.

friends, and lonely Saturday nights, only to return to the painful--and painfully funny--world of dating. Supported by her two best friends, one commitment-phobic single serial dater and one picture perfect happy wife and mother of two whose marriage sets the standard in happy marriages--at least from the outside--Daisy must find her way back through the awkward mating rituals that accompany relationships with the post-divorcee rebound man, and the passionate twenty-something eager to date a "mature woman," and battle the longing to be with the one true love who eluded her years before. In the end, Daisy Dooley does date who she deserves, and delivers a lot of laughs and lessons along the way.

From New York Times & USA Today Bestseller, Vi Keeland, comes a steamy new romance novel. The rules: No dating. No sex outside of the game. No disclosing the terms of the contract. Rules were made to be broken, right? Eight weeks ago I signed a contract. One that seemed like a good idea at the time. A handsome bachelor, luxury accommodations, and a chance to win a prize my family desperately needed. There were some rules though. Lots of them actually. Follow the script, no dating, sex, or disclosing the terms of the deal. After my self-imposed moratorium on men the last year, it wouldn't be hard to live up to my end of the bargain...so I thought. Until I realized the deal I'd made was with the devil...and I was in love with his dirty-talking brother. Author's note – Throb is a full-length standalone novel. Due to strong language and sexual content, this book is not intended for readers under the age of 18.
