Almost everybody enjoys solving puzzles, and one popular type of puzzle is word jumble or word search puzzles. These are puzzles where the solver has to search a grid of letters (which at first glance might appear to be completely randomly selected) for words hidden within the grid. The challenge of the puzzle comes from the facts that not all the letters are used as parts of words, and that the words can be in any direction at all, be that horizontal, diagonal or vertical, including such hard-to-spot directions as right to left and bottom to top. It should also be remembered that while word search puzzles are mainly about fun, they can also have educational benefits too. Solving a word search puzzle requires concentration and attention to detail.
