- Although there are several books published on behavioral problems, this is the first book that provides a variety of proven classroom strategies in a step-by-step format that educators can implement and incorporate into their classroom routine and curriculum - A helpful reference and instructional guide of over 100 interventions for managing and reducing behavior and learning problems in children and adolescents - Each intervention is written in an easy-to-follow format, which includes: the targeted behavior, age group, goal, materials needed, implementation steps, and troubleshooting ideas This step-by-step book shows parents and educators how to help change an unwanted or inappropriate behavior by capitalizing on the special interests that characterize children and youth with AS. A brief, motivational text related to the child's special interest or a highly admired person is combined with an illustration and made into a bookmark- or business card-sized POWER CARD that the youth can refer to whenever necessary. For younger children the special interest or hero is worked into a brief story.

When Braden wakes up to pouring rain that cancels a championship baseball game he's been excited for, he goes on a overreactin tailspin! Will he be able to recover and practice the tips of flexible thinking? Find out in this comical story.

Celebrate Jesse's birthday with his pals and all their dinosaur friends in storybook 9 of the We Thinkers! Vol. 2 social emotional learning curriculum for ages 4-7. It's Jesse's big day, and everyone is so excited to share frosted cake, ice cream, fun games, and gifts. But, when the dinosaurs of all sizes come over, there are always problems! The friends learn that problems and their reactions to the problems come in small, medium, and large sizes—just like dinosaurs—and that it's important and expected to match your reaction to the size of the problem to help everyone still feel comfortable so they can help solve the problem. Even when drinks get spilled, cake chomped, and presents squashed, Jesse, Ellie, Molly, and Evan learn how to size up the problem with the expected reaction so that everyone can figure out how to still have a great day! This anime-illustrated book is written for teens to learn how the social mind is expected to work in order to effectively relate to others at school, at work, and even at home.

Includes detailed lessons, worksheets and vocabulary for a social skills curriculum for children.

Colorful pictures demonstrating nearly thirty social skills, including conversation, play, emotion management, and empathy, help engage and motivate students who need extra help learning appropriate social skills.

The social world is a big, complicated place! We are all social detectives as we observe, gather, and make sense of the clues within different social contexts (settings, situations, and the people in them) to figure out the hidden rules for expected behaviors. This leads us toward understanding how we each feel and think about others in a situation and how we choose to respond to each other's actions and reactions. We are good Social Detectives when we use our eyes, ears, hearts, and brains to figure out what others are planning to do next or are presently doing and what they mean by their words and actions. This revised, expanded 2nd edition of the awarding-winning storybook teaches from the social learner's perspective about the power of observation, reading context, and interpreting clues before choosing how to respond in ways that meet their social goals. A new structured approach to observation, new illustrations reflecting a broader range of inclusion and diversity in characters, practice pages and activities for deeper learning, specific teaching tips, and a glossary of Social Thinking Vocabulary and concepts are just some of the new material you'll find inside. This is the first book in the Superflex® series. It guides readers on a journey of discovery where they can:

- Learn formulas for gathering clues by observing a setting, situation, and people in it
- Be empowered to figure out how the social world works through

decorate her cookies. But when a friend comes over for playtime, Ruby takes her mantra just one step too far, and a precious toy is broken. Just when it looks like playtime has been ruined, Ruby realizes that having a friend is much more fun than having everything to herself. "Sharing is caring" has never felt so spot-on as it does in *Just For Me*. With sparse text and bright, bold illustrations, this is the perfect story for parents to share with their little readers--and for readers to share with their friends!

This curriculum is for elementary school children (grades K-5) as well as immature older students.

learn strategies to defeat the Unthinkables and unexpected behavior, they strengthen their flexible thinking and are better able to self-regulate in challenging times. This illustrated storybook connects to and supports these Social Thinking Vocabulary concepts: · Figuring out the size of the problem · Learning to match reaction size to size of the problem (expected behavior) · Social attention/observation: what are other kids doing/how are they reacting? · Flexible Thinking · Using strategies to defeat Glassman: calming my body, breathing in, tightening all my muscles, breathing out and relaxing them; using positive self-talk, etc. · The Five-Step Power Plan helps organize children's thinking so they can more effectively problem solve what's happening around them. This aligns with and supports the four steps in the Social Thinking Social Competency Model: attend, interpret, problem solve, respond. · Using the Five-Step Power Plan to assess the social dilemma. Adults who are using the Superflex curriculum and concepts can use Superflex and Kool Q. Cumber to the Rescue! in several ways: · To help children celebrate their ability to defeat Glassman when he appears · To teach about and illustrate how calling upon Kool Q. Cumber can help them remember to match the size of their reaction to the size of a problem · As a companion book to Glassman, to help children compare and contrast the inner workings of their

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen

students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share.
