This book is designed to serve as a convenient quick-reference guide to the grammar of Classical Sanskrit for the use of university students and others. It is not intended to be a complete grammar of the language. Rather, its purpose is to pre-sent, mainly in the form of easily read tables, essential reference information such as the rules of sandhi, the declensional and con-jugational paradigms, and the principal parts of major verbs. About two-thirds of the book consists of tables. The remainder is text, with advice on how to use the

tables and explanations of the grammatical information has been abstracted, with substantial modification of the presentation, from existing Sanskrit grammars, especially those of Whitney, MacDonell, and Kale. An exception is the set of three indexes: Index to verb stems, Index to verb endings, and Index to noun endings (Tables 28-30). These probably have no counterpart elsewhere. The manual originated as a set of photocopied notes which was supplied, as a supplement to existing textbooks, to first and second year students of Sanskrit in the Department of Studies in Religion at the University of Queensland. Over a period of seven years those notes were progressively modified and expanded until they became the present fairly comprehensive reference work.

The Craft is evolving, becoming more and more accepted by society, and there is beginning to be a definite distinction between Wiccan Laity and Wiccan Clergy. Part One - Guidance - Making the spiritual connection to personal deity through love, prayer, meditation, ritual, and myth and how to guide others to create their own personal connections. Part Two - Wiccan religious philosophy and guidance - How to live a spiritual life in the modern world.

Part Three - various methods of healing mind, body and spirit - Including some legal pit-falls to avoid, plus chapter eleven presents an extensive discourse on Pastoral Counseling. Part Four deals with psychic self-defense and rituals of protection. Including House Clearings, Banishings, and Exorcism. Additionally, the author explains what to look for and what to look out for while determining if an exorcism is really needed or if the client is suffering from psychosis and is in need of a professional therapist. Part Five focuses upon the spiritual support roles. It covers, dealing with death and dying, Funerals, Prison Ministry, Legal requirements of doing Handfastings in all 50 states, plus a discourse on whether or not to incorporate. This work begins to fill yet another gap in this area of the Wiccan religious structure as it brings back much of the older knowledge and philosophy that seems to be waning from the collective Wiccan memory. The treatment described in this Therapist Guide is specifically designed for adolescents with panic disorder and agoraphobia. Panic disorder often first appears in adolescence, making effective treatment for this age group a priority. Left untreated, panic disorder can severely impair an adolescent's development and functioning. It can put an adolescent at risk for depression and have consequences into adulthood. The program was developed at the Center for Anxiety and Related Disorders at Boston University and targets patients ages 12-17. It is comprised of 12 sessions to be delivered over an 11-week period. Adolescents learn about the nature of panic and anxiety and how to challenge their panic thoughts. Exposure sessions help them face their fears and stop avoiding situations that cause heightened anxiety. An adaptation chapter addresses how to modify the program for intensive (8 day) treatment, as well as how to tailor the treatment to different ages. Each session includes an optional parent component and an appendix provides handouts for parents. The corresponding workbook is specifically designed for adolescent use, with easy to understand explanations and teen-friendly forms.

When it was first published twenty years ago, *The Bedford Guide for College Writers* brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view, apparent on every page of the text, that writing is the "usually surprising, often rewarding art of thinking while working with language." More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students — even those underprepared for college work — become successful academic writers. While retaining the highly praised "Kennedy touch," *The Bedford Guide* continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills, with expanded coverage of audience analysis, source-based writing, argumentation and reasoning, and more.

Writing clear, impactful reports is a crucial skill for science students, but few books focus on this area for the undergraduate. Particularly useful for biology students, this text adopts a hands-on approach, using example reports and published papers as models to put guidance into practice. An introductory chapter familiarizes undergraduates with the principles of writing science. Two model reports are then developed, walking students through experimental and observational teaching-lab reports. The structure and content of the Introduction, Methods and Materials, Results, and Discussion are explained, together with tips for the title, abstract, and references. Students are then guided on how to polish their first draft. The last section of the book analyzes two published papers, helping the reader transition to reporting original research. Clearly and concisely written, this text offers a much-needed lifeline for science students facing
