Genovese mob-scion Silvio Eboli lived within the shadows of history, and now for the first time, the untold story of a mafia legend is revealed. The Ganja Godfather is the story about an ongoing organized criminal operation, in real time with firsthand accounts and experiences by award-winning author and investigative journalist, Toby Rogers. Shadowing the Ganja Godfather, Rogers witnesses it all standing next to the Boss himself: violence, drugs, celebrities, girls, construction hustles, crime-family business meetings and social gatherings. With a wife and kids, dysfunctional family business obligations, and an out-of-control social life all pulling him in conflicting paths, Silvio struggled keep the empire moving forward without detection from law enforcement. I have a history of picking the wrong guy. Gay? Player? Momma's boy? Check, check and check. Now I can't stop fantasizing about one of the customers at the coffee shop I work at between classes. It's just a harmless crush, right? It's not like I ever see this guy outside of the coffee shop. It's not like I'm going to see him while attempting to get birth control at the student clinic. While wearing a paper gown. While sitting on an exam table. Because he's the doctor. Shoot. Me. But what if, for once, the man I've had the dirtiest, most scandalous fantasies about turned out to be everything but wrong?

In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

In this "vivid and inspiring" NYT bestseller (Newsweek), the Red Hot Chili Peppers' lead singer and songwriter shares a searingly honest account of life in the rock scene's fast lane -- from the darkness into the light. In 1983, four self-described "knuckleheads" burst out of the mosh-pitted mosaic of the neo-punk rock scene in L.A. with their own unique brand of cosmic hardcore mayhem funk. Over twenty years later, the Red Hot Chili Peppers, against all odds, have become one of the most successful bands in the world. Though the band has gone through many incarnations, Anthony Kiedis, the group's lyricist and dynamic lead singer, has been there for the whole roller-coaster ride. In Scar Tissue, Kiedis delivers a compelling life story from a man "in love with everything" -- the darkness, the death, the disease. Even his descent into drug addiction was a part of that journey, another element transformed into art. Whether he's honoring the influence of the beautiful, strong women who have been his muses or remembering the roaring crowds of Woodstock and the Dalai Lama's humble compound, Kiedis shares a compelling story about the price of success and excess. Scar Tissue is a story of dedication and debauchery, of intrigue and integrity, of recklessness and redemption -- a story that could only have come out of the world of rock.

(Book). Jazz guitar legend Larry Coryell takes an unflinching look at his life and career, recounting his musical journey from his scuffling early days in New York City and his pioneering role in the jazz fusion movement to his current status as a world ambassador of jazz. Coryell reveals his own involvement in and eventual victory over the drug scene, and he gives his take on the musical giants he has known and performed with. Along the way, he details the development of his own style and provides inspirational words for fellow musicians. A special section presents a selection of Coryell's beloved Guitar Player magazine columns. Includes CD with audio lessons and original compositions recorded specifically for this book.

This brilliant biography of the cult guitar player makes you forget everything you think you know about jazz improvisation, post punk and the avant-garde Derek Bailey was at the top of his profession as a dance-band and record-session guitarist when, in the early 1960s, he began playing an uncompromisingly abstract music. As the Joseph Holbrooke Trio, with bassist Gavin Bryars and drummer Tony Oxley, Bailey forged a musical syntax which has since operated as an international counter to the banality of commercialism. Refusing to be labeled a "jazz" guitarist, Bailey has collaborated with performance artists, electronic experimentalists, classical musicians, Zen dancers, tap dancers, rock stars, jazzers, poets, weirdos and an endless stream of fiercely individual musicians. Today his anti-idiom of "Free Improvisation" has become the lingua franca of the "avant" scene, with Pat Metheny, John Zorn, David Sylvian and Sonic Youth's Thurston Moore amongst his admirers. Derek Bailey and the Story of Free Improvisation lifts the lid on an artistic ferment which has defied every known law of the music business. Telling the story via taped interviews with Bailey and his cohorts, gig reports and album reviews (including an exhaustive discography of Bailey's vast and hard-to-track output), Ben Watson's spiky, partisan and often very funny biography argues that anyone who thought the avant-garde was dead simply forgot to listen.

How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls "Pleasure Activism," a politics of healing and happiness that explodes the dour myth that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde's invitation to use the erotic as power and Toni Cade Bambara's exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of This Body Is Not an Apology, and author Alexis Pauline Gumbs cover a wide array of subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular Emergent Strategy, brown launches a new series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!
