

## The Peoples Friend Annual 2013 Annuals 2013

“Marie Kondo, but for your brain.” —HelloGiggles “Compelling from front to back. Highly recommend.” —Marc Andreessen Reading this book could change your life. The Courage to Be Disliked, already an enormous bestseller in Asia with more than 3.5 million copies sold, demonstrates how to unlock the power within yourself to be the person you truly want to be. Is happiness something you choose for yourself? The Courage to Be Disliked presents a simple and straightforward answer. Using the theories of Alfred Adler, one of the three giants of nineteenth-century psychology alongside Freud and Jung, this book follows an illuminating dialogue between a philosopher and a young man. Over the course of five conversations, the philosopher helps his student to understand how each of us is able to determine the direction of our own life, free from the shackles of past traumas and the expectations of others. Rich in wisdom, The Courage to Be Disliked will guide you through the concepts of self-forgiveness, self-care, and mind decluttering. It is a deeply liberating way of thinking, allowing you to develop the courage to change and ignore the limitations that you might be placing on yourself. This plainspoken and profoundly moving book unlocks the power within you to find lasting happiness and be the person you truly want to be. Millions have already benefited from its teachings, now you can too.

In the late 20th and 21st centuries, the meteoric rise of countless social media platforms and mobile applications have illuminated the profound need friendship and connection have in all of our lives; and yet, very few scholarly volumes have focused on this unique and important bond during this new era of relating to one another. Exploring such topics as friendship and social media, friendship with current and past romantic partners, co-workers, mentors, and even pets, editors Mahzad Hojjat and Anne Moyer lead an expert group of global contributors as they each explore how friendship factors within our lives today. What does it mean to be a friend? What roles do friendships play in our own development? How do we befriend those across the race, ethnicity, gender, and orientation spectrums? What happens when a friendship turns sour? What is the effect of friendship - good and bad - on our mental health? Providing a much needed update to the field of interpersonal relations, The Psychology of Friendship serves as a field guide for readers as they shed traditional definitions of friendship in favor of contemporary contexts and connections.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

The Society of Publication Designers' (SPD) annual competition seeks the very best in editorial design work. Judged by a worldwide panel of top designers, the 49th edition of Rockport's best-selling SPD annuals celebrates the journalists, editorial directors, photographers, and other talented individuals who brought events of the year 2014 to our doorsteps and computer screens. Stunning full-page layouts present everything from products to people, and objects to events, in ways that make each palpable and unforgettable. You'll find featured work published in a wide range of mediums and created by journalistic, design, and publishing talent from around the world.

This wide-ranging survey of the environmental damage to Native American lands and peoples in North America—in recent times as well as previous decades—documents the continuing impact on the health, wellness, land, and communities of indigenous peoples. • Exposes readers to complete and current information about the severe environmental and health concerns that American Indians living on reservations experience due to environmental degradation • Encourages awareness of the issues tribal governments and Indian communities commonly face in balancing economic rewards and environmental and health consequences • Provides important historical context to support readers' understanding of the present-day situation of American Indians and reservation life

Are the courts our friend or our foe? This book has three parts: Part I considers the case for judicial independence Part II looks at the question 'Is judicial independence under threat?' Part III reflects on whether judicial independence be defended and protected. Prompted by the constitutional crisis following the referendum of 2016, the Foundation for Law Justice and Society convened the second Putney Debates. Now convened on an annual basis, they provide a forum each year for the discussion of matters of constitutional importance. The original Putney Debates were held in St Mary's Church, Putney in 1647. The Civil War had been won, the King was held prisoner, the New Model Army was in control. In late October of that year, the weekly meeting of the High Council of the New Model Army, under the chairmanship of Oliver Cromwell, together with several civilians, turned into a debate about the constitution. This is perhaps the only occasion in modern history that a constitutional convention has been held on the English constitution.

The SpongeBob SquarePants Annual 2013 features the zany underwater adventures of our ever cheerful Krabby Patty Fry Cook hero SpongeBob SquarePants. As always, he ends up in all sorts of silly situations with his best friend Patrick Starfish and his friends and neighbours in Bikini Bottom. The annual features hilarious new escapades from the SpongeBob Runaway Road Trip DVD, fascinating facts about some real-life underwater critters as well as a whole host of jokes and surreal activities for hours of wacky fun!

A tour-de-force by rising indy comics star Gene Yang, American Born Chinese tells the story of three apparently unrelated characters: Jin Wang, who moves to a new neighborhood with his family only to discover that he's the only Chinese-American student at his new school; the powerful Monkey King, subject of one of the oldest and greatest Chinese fables; and Chin-Kee, a personification of the ultimate negative Chinese stereotype, who is ruining his cousin Danny's life with his yearly visits. Their lives and stories come together with an unexpected twist in this action-packed modern fable. American Born Chinese is an amazing ride, all the way up to the astonishing climax. American Born Chinese is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007 Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year. This title has Common Core Connections

The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping

of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

#1 New York Times bestselling author! In Rainbow Rowell's Fangirl, Cath is a Simon Snow fan. Okay, the whole world is a Simon Snow fan, but for Cath, being a fan is her life—and she's really good at it. She and her twin sister, Wren, ensconced themselves in the Simon Snow series when they were just kids; it's what got them through their mother leaving. Reading. Rereading. Hanging out in Simon Snow forums, writing Simon Snow fan fiction, dressing up like the characters for every movie premiere. Cath's sister has mostly grown away from fandom, but Cath can't let go. She doesn't want to. Now that they're going to college, Wren has told Cath she doesn't want to be roommates. Cath is on her own, completely outside of her comfort zone. She's got a surly roommate with a charming, always-around boyfriend, a fiction-writing professor who thinks fan fiction is the end of the civilized world, a handsome classmate who only wants to talk about words . . . And she can't stop worrying about her dad, who's loving and fragile and has never really been alone. For Cath, the question is: Can she do this? Can she make it without Wren holding her hand? Is she ready to start living her own life? And does she even want to move on if it means leaving Simon Snow behind? A New York Times Book Review Notable Children's Book of 2013 A New York Times Best Seller!

Warren Buffett built Berkshire Hathaway into something remarkable—and Fortune journalist Carol Loomis had a front-row seat for it all. When Carol Loomis first mentioned a little-known Omaha hedge fund manager in a 1966 Fortune article, she didn't dream that Warren Buffett would one day be considered the world's greatest investor—nor that she and Buffett would quickly become close personal friends. As Buffett's fortune and reputation grew over time, Loomis used her unique insight into Buffett's thinking to chronicle his work for Fortune, writing and proposing scores of stories that tracked his many accomplishments—and also his occasional mistakes. Now Loomis has collected and updated the best Buffett articles Fortune published between 1966 and 2012, including thirteen cover stories and a dozen pieces authored by Buffett himself. Loomis has provided commentary about each major article that supplies context and her own informed point of view. Readers will gain fresh insights into Buffett's investment strategies and his thinking on management, philanthropy, public policy, and even parenting. Some of the highlights include: The 1966 A. W. Jones story in which Fortune first mentioned Buffett. The first piece Buffett wrote for the magazine, 1977's "How Inflation Swindles the Equity Investor." Andrew Tobias's 1983 article "Letters from Chairman Buffett," the first review of his Berkshire Hathaway shareholder letters. Buffett's stunningly prescient 2003 piece about derivatives, "Avoiding a Mega-Catastrophe." His unconventional thoughts on inheritance and philanthropy, including his intention to leave his kids "enough money so they would feel they could do anything, but not so much that they could do nothing." Bill Gates's 1996 article describing his early impressions of Buffett as they struck up their close friendship. Scores of Buffett books have been written, but none can claim this work's combination of trust between two friends, the writer's deep understanding of Buffett's world, and a very long-term perspective.

The Thomas Annual 2013 is packed full of stories and activities about Thomas and his many engine, crane, bus, boat, plane and helicopter friends! There are lots of fun activities to do, which include things to find, count and colour, as well as Fact Files of their favourite characters. It also features some 'creative makes', so they can use simple materials to make their very own Fat Controller, Jeremy the Jet, Fat Controller's top hat and some tasty engine cakes!

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalindex](http://www.worldbank.org/globalindex).

Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. Ending Discrimination Against People with Mental and Substance Use Disorders: The

Evidence for Stigma Change explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

A close friendship is one of the most influential and important relationships a human life can contain. Anyone will tell you that! But for all the rosy sentiments surrounding friendship, most people don't talk much about what it really takes to stay close for the long haul. Now two friends, Aminatou Sow and Ann Friedman, tell the story of their equally messy and life-affirming Big Friendship in this honest and hilarious book that chronicles their first decade in one another's lives. As the hosts of the hit podcast *Call Your Girlfriend*, they've become known for frank and intimate conversations. In this book, they bring that energy to their own friendship—its joys and its pitfalls. Aminatou and Ann define Big Friendship as a strong, significant bond that transcends life phases, geographical locations, and emotional shifts. And they should know: the two have had moments of charmed bliss and deep frustration, of profound connection and gut-wrenching alienation. They have weathered life-threatening health scares, getting fired from their dream jobs, and one unfortunate Thanksgiving dinner eaten in a car in a parking lot in Rancho Cucamonga. Through interviews with friends and experts, they have come to understand that their struggles are not unique. And that the most important part of a Big Friendship is making the decision to invest in one another again and again. An inspiring and entertaining testament to the power of society's most underappreciated relationship, *Big Friendship* will invite you to think about how your own bonds are formed, challenged, and preserved. It is a call to value your friendships in all of their complexity. Actively choose them. And, sometimes, fight for them.

A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned.

"Celebrate the fiftieth anniversary of Doctor Who with the Official Annual, packed with facts, features, puzzles, comics, and stories about everyone's favorite Time Lord, as well as his brand-new companion, Clara, and the deadly enemies they face on their travels in the TARDIS!"--Amazon.com.

Includes more than twelve thousand holidays, holy days, national and ethnic celebrations, astronomical phenomena, festivals, fairs, anniversaries, and other events from around the world.

The #1 New York Times–bestselling author's "hilarious . . . idiosyncratic . . . delightful" and definitive companion to a global phenomenon (Publishers Weekly). Douglas Adams's "six-part trilogy," *The Hitchhiker's Guide to the Galaxy* grew from a blip of a notion into an ever-expanding multimedia universe that amassed an unprecedented cult of followers and became an international sensation. As a young journalist, Neil Gaiman was given complete access to Adams's life, times, gossip, unpublished outtakes, and files (and became privy to his writing process, insecurities, disillusionments, challenges, and triumphs). The resulting volume illuminates the unique, funny, dramatic, and improbable chronicle of an idea, an incredibly tall man, and a mind-boggling success story. In *Don't Panic*, Gaiman celebrates everything *Hitchhiker*: the original radio play, the books, comics, video and computer games, films, television series, record albums, stage musicals, one-man shows, the Great One himself, and towels. And as Douglas Adams himself attested: "It's all absolutely devastatingly true—except the bits that are lies." Updated several times in the thirty years since its original publication, *Don't Panic* is available for the first time in digital form. Part biography, part tell-all parody, part pop-culture history, part guide to a guide, *Don't Panic* "deserves as much cult success as the *Hitchhiker's* books themselves" (Time Out).

Count, colour and sticker in this very busy big book celebrating *The Very Hungry Caterpillar* and his friends. Complete the Hungry Caterpillar's own story with giant stickers, count your way to the zoo with a host of animals and colour them in, and as an extra special treat read the story of the Very Lonely Firefly and help him shine with lots of glittery stickers. This is an enchanting first annual for two-to-five-year-olds with lots of activities and classic stories for hours of holiday entertainment.

A long-time chief data scientist at Amazon shows how open data can make everyone, not just corporations, richer Every time we Google something, Facebook someone, Uber somewhere, or even just turn on a light, we create data that businesses collect and use to make decisions about us. In many ways this has improved our lives, yet, we as individuals do not benefit from this wealth of data as much as we could. Moreover, whether it is a bank evaluating our credit worthiness, an insurance company determining our risk level, or a potential employer deciding whether we get a job, it is likely that this data will be used against us rather than for us. In *Data for the People*, Andreas Weigend draws on his years as a consultant for commerce, education, healthcare, travel and finance companies to outline how Big Data can work better for all of us. As of today, how much we benefit from Big Data depends on how closely the interests of big companies align with our own. Too often, outdated standards of control and privacy force us into unfair contracts with data companies, but it doesn't have to be this way. Weigend makes a powerful argument that we need to take control of how our data is used to actually make it work for us. Only then can we the people get back more from Big Data than we give it. Big Data is here to stay. Now is the time to find out how we can be empowered by it.

Pastors and other preachers have long turned to *The Abingdon Preaching Annual* for help with one of the central tasks of their ministry: sermon preparation. The 2013 edition of the Annual continues and, in response to our faithful readers, improves this fine tradition. Sermon helps include: lectionary-based sermons for each Sunday and special liturgical event of the year; lectionary commentary; and 15 topical sermon series on diverse themes like missions, modern families, life in the Holy Spirit, stewardship, and more. Worship planning aids include a four-year

liturgical event calendar Guide to liturgical colors; 2013 lectionary readings in one, easy-to-read table; and related worship aids following each lectionary sermon, and each sermon series. The Abingdon Preaching Annual, always a trusted resource, is the most comprehensive and useful aid for sermon preparation you will find.

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.

#2 NEW YORK TIMES BESTSELLER\* • “Rogen’s candid collection of sidesplitting essays . . . thrives at both explaining and encapsulating a generational comedic voice.”—The Washington Post A collection of funny personal essays from one of the writers of Superbad and Pineapple Express and one of the producers of The Disaster Artist, Neighbors, and The Boys. (All of these words have been added to help this book show up in people’s searches using the wonders of algorithmic technology. Thanks for bearing with us!) Hi! I’m Seth! I was asked to describe my book, Yearbook, for the inside flap (which is a gross phrase) and for websites and shit like that, so . . . here it goes!!! Yearbook is a collection of true stories that I desperately hope are just funny at worst, and life-changingly amazing at best. (I understand that it’s likely the former, which is a fancy “book” way of saying “the first one.”) I talk about my grandparents, doing stand-up comedy as a teenager, bar mitzvahs, and Jewish summer camp, and tell way more stories about doing drugs than my mother would like. I also talk about some of my adventures in Los Angeles, and surely say things about other famous people that will create a wildly awkward conversation for me at a party one day. I hope you enjoy the book should you buy it, and if you don’t enjoy it, I’m sorry. If you ever see me on the street and explain the situation, I’ll do my best to make it up to you. \*I was beaten by Bill O’Reilly, which really sucks.

Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, The Absolutely True Diary of a Part-Time Indian, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

"Now a major motion picture! Includes full-color movie photos and exclusive content!"--Dust jacket.

The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, The Luminaries is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

• More than 500 appearances on national bestseller lists • #1 Wall Street Journal, New York Times, and USA Today • Won 12 book awards • Translated into 35 languages • Voted Top 100 Business Book of All Time on Goodreads People are using this simple, powerful concept to focus on what matters most in their personal and work lives. Companies are helping their employees be more productive with study groups, training, and coaching. Sales teams are boosting sales. Churches are conducting classes and recommending for their members. By focusing their energy on one thing at a time people are living more rewarding lives by building their careers, strengthening their finances, losing weight and getting in shape, deepening their faith, and nurturing stronger marriages and personal relationships. YOU WANT LESS. You want fewer distractions and less on your plate. The daily barrage of e-mails, texts, tweets, messages, and meetings distract you and stress you out. The simultaneous demands of work and family are taking a toll. And what's the cost? Second-rate work, missed deadlines, smaller paychecks, fewer promotions--and lots of stress. AND YOU WANT MORE. You want more productivity from your work. More income for a better lifestyle. You want more satisfaction from life, and more time for yourself, your family, and your friends. NOW YOU CAN HAVE BOTH — LESS AND MORE. In The ONE Thing, you'll learn to \* cut through the clutter \* achieve better results in less time \* build momentum toward your goal\* dial down the stress \* overcome that overwhelmed feeling \* revive your energy \* stay on track \* master what matters to you The ONE Thing delivers extraordinary results in every area of your life--work, personal, family, and spiritual. WHAT'S YOUR ONE THING?

Discover the delightfully heartwarming and life-affirming bestseller about one man's unlikely journey through love 'I couldn't put this book down. It's one of the most quirky and endearing romances I've ever read. I laughed the whole way through' SOPHIE KINSELLA, bestselling author of The Shopaholic series Perfect for fans of Eleanor Oliphant is Completely Fine, Still Me and Three Things About Elsie.

\_\_\_\_\_ Don Tillman has got his love life planned out. He knows exactly who he wants, but is it who he needs? Love isn't an exact science - but no one told Don Tillman. A thirty-nine-year-old geneticist, Don's never had a second date. So he devises the Wife Project, a scientific test to find the perfect partner. You'll be willing Don and Rosie on every step of the way' Marie Claire 'Hilarious, unlikely and heartbreaking' Easy Living 'Original, clever and perfectly written' Jill Mansell

One teenager in a skirt. One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight.

This book clarifies the misconceptions and misinterpretations of the Chinese Path through historical and market logic. The author begins with a historical review of Chinese institutions from their cultural origins to their modern connotations: Chinese regard unity over individualism; Chinese are more cooperative, intrapersonal and defensive than competitive, invasive and expansive. The market economy is another factor that emphasizes the importance of a peaceful environment and stable system of international

institutions so as to achieve sustainable development in China. In closing, the author provides an outlook on the role and responsibility of China as a great power towards developed countries, neighbors, new economic groups and developing countries. China's development means much to the world.

Collects eight full graphic novels in two deluxe hardcover volumes, along with bonus material from each story.

The world's most popular spreadsheet program is now more powerful than ever, but it's also more complex. That's where this Missing Manual comes in. With crystal-clear explanations and hands-on examples, Excel 2013: The Missing Manual shows you how to master Excel so you can easily track, analyze, and chart your data. You'll be using new features like PowerPivot and Flash Fill in no time. The important stuff you need to know: Go from novice to ace. Learn how to analyze your data, from writing your first formula to charting your results. Illustrate trends. Discover the clearest way to present your data using Excel's new Quick Analysis feature. Broaden your analysis. Use pivot tables, slicers, and timelines to examine your data from different perspectives. Import data. Pull data from a variety of sources, including website data feeds and corporate databases. Work from the Web. Launch and manage your workbooks on the road, using the new Excel Web App. Share your worksheets. Store Excel files on SkyDrive and collaborate with colleagues on Facebook, Twitter, and LinkedIn. Master the new data model. Use PowerPivot to work with millions of rows of data. Make calculations. Review financial data, use math and scientific formulas, and perform statistical analyses.

As the 1938 hurricane approaches Rhode Island, another storm brews in this New York Times bestselling beach read from the author of Her Last Flight and The Golden Hour. Lily Dane has returned to Seaview, Rhode Island, where her family has summered for generations. It's an escape not only from New York's social scene but from a heartbreak that still haunts her. Here, among the seaside community that has embraced her since childhood, she finds comfort in the familiar rituals of summer. But this summer is different. Budgie and Nick Greenwald—Lily's former best friend and former fiancé—have arrived, too, and Seaview's elite are abuzz. Under Budgie's glamorous influence, Lily is seduced into a complicated web of renewed friendship and dangerous longing. As a cataclysmic hurricane churns north through the Atlantic, and uneasy secrets slowly reveal themselves, Lily and Nick must confront an emotional storm that will change their worlds forever...
